Overall Duration: 2h 41m 31s

## Table of Contents

1. Verify registration functionality on one pulse App
  1. User should be able to register on app with correct credentials using "Continue with Email"
  2. verify the field label on registration screen
  3. verify the validation message for mandatory fields
  4. verify validation message when user enters Invalid password: Pulse@1 on registration page
  5. verify validation message when user enters Invalid password: Pulse123 on registration page
  6. Verify the validation message when user enter already registered email id on registration page
  7. Verify the mobile number screen validation using "Continue with Email"
  8. Verify the Gender screen validation using "Continue with Email"
  9. Verify the resend OTP functionality on Enter OTP Screen using "Continue with Email"
2. Verify My Communities on One Pluse App
  1. Launch the app and select the country as per specified Ibu
  2. User should be able to login on app with correct credentials using "Continue with Gmail"
  3. User should be able to login on app with correct credentials using "Continue with Gmail" and Verify the Mycommunities screen
  4. Leave the community if already joined
  5. Verify the All Communities Post screen
  6. Verify the Likes and comments counts in All communities tab
  7. Verify the Share with Friends Functionality in All communities tab
  8. Verify the Post Functionality in All communities
  9. Verify the Category list and search feature
  10. Leave the community if already joined
3. Verify login functionality on One pulse App
  1. Launch the app and select the country as per specified Ibu
  2. login to the app with correct credentials using "Continue with Email"
  3. Verify the Invalid Email id in login screen using "Continue with Email"
  4. Verify the User not registered email in login screen using "Continue with Email"
  5. User should be able to retrieve the reset password using forget password link
  6. Verify Account should be locked after entering more than 5 times incorrect passwords
  7. Verify the Login Functionality using "Continue with Google"
4. Verify that user can view air quality details under My Environment screen
  1. Verify that user can view previous air quality details under My Environment Home page
  2. Verify that user can view Current air quality details under My Environment Home page
  3. Verify that user can view air quality details for next few days under My Environment Home page

4. Verify that user can access and view Neighbourhood air quality details under My Environment Home page
5. Verify that user can access and view Fires nearby under My Environment Home page
6. Verify that user can view effects of the poor environment and upcoming activities under My Environment Home page
7. Verify that User can view coming soon activities under My Environment Home
5. Verify the BabyLon call 995 flow on Pulse Health & Wealth app
  1. User should be able to login on app with correct credentials and the BabyLon call 995 flow must be verified
6. Verify the BabyLon Perianal lump workflow is working as expected
  1. User should be able to access Babylon from Pulse app and perform Perianal lump workflow
7. Verify the BabyLon Maligant Neoplasm Breast lump workflow is working as expected
  1. User should be able to access Babylon from Pulse app and perform Breast lump workflow
8. Verify the BabyLon Human Immune Virus workflow is working as expected
  1. User should be able to access Babylon from Pulse app and perform Human Immune Virus Rash workflow
9. Verify the BabyLon Groin Mass workflow is working as expected
  1. User should be able to access Babylon from Pulse app and perform Groin mass workflow
10. Verify the BabyLon Prostatic HyperPlasia workflow is working as expected
  1. User should be able to access Babylon from Pulse app and perform Prostatic Hyperplasia workflow
  2. User should be able to view the chat history in Babylon system checker screen after consultation
11. Verify the BabyLon Rib Fracture workflow is working as expected and user can the chat history after consultation
  1. User should be able to access Babylon from Pulse app and perform Rib Fracture workflow
12. Verify Dietician Negative Flow functionality on one pulse App
  1. Verify the Home screen validation using "Continue with Email"
  2. Verify User should be able to navigate to Dietician page
  3. Verify User should be able to navigate to specialisation page
  4. Verify User should be able to navigate to Educational Details page
13. Verify Dietician Positive Flow functionality on one pulse App
  1. Verify the Home screen validation using "Continue with Email"
  2. Verify User should be able to navigate to Dietician page
  3. Verify User should be able to navigate to specialisation page
  4. Verify User should be able to navigate to Educational Details page
  5. Verify User should be able to navigate to Services Offered page
  6. Verify User should be able to navigate to Seminar(s) Attended page
  7. Verify User should be able to navigate to Take a Picture page
  8. Verify User should be able to navigate to schedule Calendar page
14. Verify Medicine Remainder Positive Flow functionality on one pulse App
  1. Verify the Home screen validation using "Continue with Email"
  2. Verify User should be able to navigate to Dietician page
  3. Verify User should be able to navigate to Dietician page
  4. Verify User should be able to navigate to Dietician page
  5. Verify User should be able to navigate to Dietician page
15. Verify that user can locate near by Hospitals,clinics using PruShoppe Location feature
  1. User should be able to locate Hospitals using PruShoppe location
  2. User should be able to locate cli using PruShoppe location
16. Verify Notification Center functionality on one pulse App

1. Verify User should be able to register on app using email account
2. Verify User should be able navigate to Notification Center
3. Verify User should be able to see the Notification screen texts
4. Verify User should be able to login using already registered credentials
5. Verify User should be able navigate to Notification Center
17. Verify MyContent functionality on one pulse App
  1. Verify the Home screen validation using "Continue with Email"
  2. Verify User should be able to navigate to Health channel page
  3. Verify User should be able to Like the post
  4. Verify User should be able to Share the post
  5. Verify User should be able to Comment the post
  6. Verify User should be able to see the Like, Share, Comment options on full page article post
  7. Verify User should be able to Like the post- Full page article post
18. Verify that user can view his registered policies under My Policies
  1. Login to the one pulse app
  2. Verify that user can access his policies from Home screen
19. Verify legal and legacy on One Pluse App
  1. User should be able to login on app with correct credentials using "Continue with Gmail"
  2. Verify the Terms and condition should be displayed
  3. Verify the Privacy screen should be displayed
  4. Verify the Regulator screen should be displayed
20. Verify Edit Profile functionality on Pulse Health & Wealth app
  1. Verify User should be able to navigate to Edit profile screen and should be able to change the profile on app
  2. Verify User should be able to change the profile picture in edit profile screen
  3. Verify user can able to change the details in edit profile screen
  4. Verify the email and COR fields are non-editable in edit profile screen
  5. Verify User should be able to see the registration required pop up if user not completed MyDoc Registration
  6. Verify User should not be able to edit Gender and DOB fields on myDoc registration page once the user submitted their gender and DOB in edit profile
  7. Verify User should be able to update NRIC number & upload NRIC Image in Online Consultation screen
21. Verify MySettings functionality in Account screen
  1. User should be able to login on app with correct credentials using "Continue with Gmail"
  2. Verify the My Feedback screen in Account tab
  3. Verify the submit functionality in My feedback screen
  4. Verify the Pulse Personalised tab
  5. Verify the Marketing Consent in Account tab
22. Verify share with friends functionality in onepulse app
  1. Launch the app and select the country as per specified Ibu
  2. login to the app with correct credentials using "Continue with Email"
  3. Verify User should be able to share the link with Whatsapp
  4. Verify User should be able to share the link with Contacts app
  5. Verify User should be able to share the link with Messenger app
  6. Verify User should be able to share the link with Viber app
  7. Verify User should be able to share the link with Line app

Feature: <b>Verify registration functionality on one pulse App</b>			
Passed: 3	Failed: 6	Undefined: 0	Duration: 1462.39s
<b>Scenario: User should be able to register on app with correct credentials using "Continue with Email"</b>			
Passed: 6	Failed: 1	Undefined: 39	Duration: 303.67s
<b>Before</b>			<b>0.41s</b>
<b>Given I generate random number and assign to variable "RANDOM_NUMBER"</b>			<b>0.60s</b>
<b>And I assign "pulse\${RANDOM_NUMBER}@mailsac.com" to variable "PULSE_EMAIL"</b>			<b>0.00s</b>
<b>And User has pulse app</b>			<b>19.54s</b>
<b>Then I wait for 2 sec</b>			<b>2.01s</b>
<b>And user click on "CONTINUE WITH EMAIL" with Email button</b>			<b>68.45s</b>
<b>Then I wait for 2 sec</b>			<b>2.01s</b>
<b>Then I change the country as required on registration page</b>			<b>210.65s</b>

at .Then I enter "Anal Lump" symptoms on Babylon screen And select "Feeling a lump
around the opening of the back passage"(features/sg/health/babylon/BabylonAnalLump.
feature:32)

```

Then I click on Ok button after noting the caseid:		0.00s
text	Thanks for taking part in user testing. Please record the following case id	
Then I handle questions and answer		0.00s

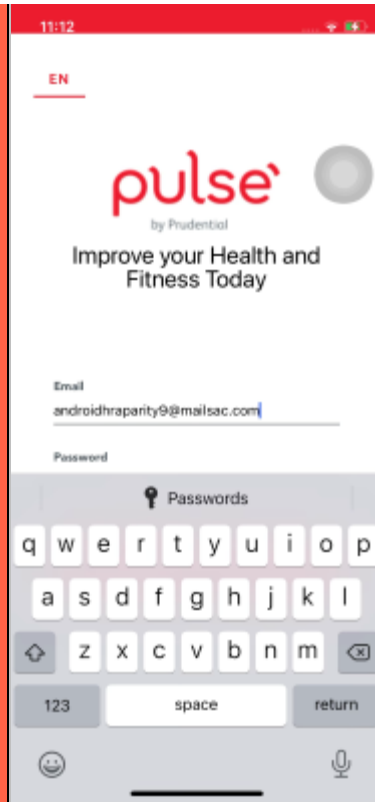

Other people with your symptoms sometimes experience pain around the buttocks or anus. Have you experienced this?		No								
This is a bit personal, but have you noticed any of these problems around your anus?		Skin irritation##Submit								
One symptom that can be concerning is bleeding from the anus. Have you experienced this?		Yes								
Where have you seen the blood?		Mixed in with my stools								
Have you noticed any of these issues when you pass stool?		I have to strain to pass a stool##Submit								
Do any of these describe your poos (stools)?		None of the above##Submit								
Have you gained or lost weight recently without trying to?		No								
Have you ever had sex (vaginal or anal)?		Yes								
Have you had sex (vaginal or anal) in the past 6 months?		No								
Please select any of the following sexual activities that apply to you, I ask this question because some sexual activities can increase your risk of infection.		None of the above##Submit								
How long have you had all of your symptoms for?		For months								
Do you have any pain in your abdomen?		No								
Do you have or have you recently had a fever?		No								
Have you experienced any difficulty breathing?		None of the above##Submit								
Is your heart beating faster than usual?		No								
Have you felt dizzy or light-headed recently?		No								
Has there been a significant change in your bowel habits, lasting for a few days or more?		Yes								
Then I verify the closure summary and click on continue button		0.00s								
text	Great, we're all done. Please remember, this service is only for general information purposes and isn't a personal or medical diagnosis. If your symptoms persist, change or worsen, or you are concerned seek further advice.									
Then I click on view results to see the possible causes		0.00s								
And Verify following possible causes are displayed		0.00s								
	<table border="1"> <tr> <td>Piles or haemorrhoids</td> <td></td> </tr> <tr> <td>Something potentially serious</td> <td></td> </tr> </table>		Piles or haemorrhoids		Something potentially serious					
Piles or haemorrhoids										
Something potentially serious										
When I select on "Piles or haemorrhoids" cause with offset 100 in report		0.00s								
Then I verify following conditions are displayed		0.00s

Overactive thyroid		

Thyrotoxic crisis	
When I select on "Overactive thyroid" cause with offset 100 in report	16.07s
Then I verify following conditions are displayed	15.88s
Overactive thyroid	
This usually requires seeing a GP.	
Why this condition could be the potential cause?	
Some of your answers indicate that this condition could be the cause:	
Family history of hyperthyroidism	
Unintentional weight loss	
Diarrhoea	
Severe diarrhoea	
Rash that becomes lighter when pressed	
Swelling in neck	
And I click on back button to move back to possible causes screen	6.48s
When I select on "Thyrotoxic crisis" cause with offset 500 in report	12.56s
Then I verify following conditions are displayed	13.83s
Thyrotoxic crisis	
This is usually treated at the emergency department.	
Why this condition could be the potential cause?	
Family history of hyperthyroidism	
Unintentional weight loss	
Diarrhoea	
Severe diarrhoea	
Rash that becomes lighter when pressed	
Fever	
Swelling in neck	
And I click on back button to move back to home	29.14s
Then I sign out from pulse app	32.39s
After	0.00s
<a href="#">Back to Table of Contents</a>	

### Feature: [Verify the BabyLon Groin Mass workflow is working as expected](#)

*Following condition should meet to run this script:*

*Age:55*

*Sex:Male*

*Country:Singapore*

Passed: 1	Failed: 0	Undefined: 0	Duration: 555.95s
<b>Scenario: <a href="#">User should be able to access Babylon from Pulse app and perform Groin mass workflow</a></b>			
Passed: 23	Failed: 0	Undefined: 0	Duration: 555.95s
Before	0.02s		
Given User has pulse app			35.53s
And I assign "\${Babylon.hernia}" to variable "PULSE_EMAIL"			0.07s

When I navigate to login page		13.35s
When user enters credentials		36.38s
UserName	\${PULSE_EMAIL}	
Password	\${Password.text}	
And User clicks on signin button		1.99s
Then I wait for 10 sec		10.01s
And I enter OTP in one pulse app for user email "\${PULSE_EMAIL}"		57.70s
Then I wait for 14 sec		14.01s
And I navigate to Babylon Symptoms Page		27.38s
Then I wait for 6 sec		6.02s
Then I enter "Groin mass" symptoms on Babylon screen And select "A lump under the skin at the hip crease."		27.51s
Then I click on Ok button after noting the caseid:		11.98s
text	Thanks for taking part in user testing. Please record the following case id	
Then verify user is landed to inguinal hernia consultation screen		3.22s
When I handle questions and answer		188.96s
What best describes the swelling in your groin?		It comes and goes depending on my position or if I press on it
Have you injured your groin recently?		No
Do you have pain in your groin?		No
Do you have any pain in your abdomen?		No
Do you have any pain in your testicles?		No
Have you noticed any of these changes in your testicles?		None of the above##Submit
Does it hurt or sting when you urinate?		No
When urinating, have you noticed any of the following?		None of the above##Submit
Do you have or have you recently had a fever?		No
Do you feel sick or have you vomited?		None of the above##Submit
How long have you had all of your symptoms for?		For months
Have you gained or lost weight recently without trying to?		Lost weight unexpectedly
Have you ever had sex (vaginal or anal)?		No
Do you have a cough?		No
Do any of these describe your poos (stools)?		None of the above##Submit
One symptom that can be concerning is bleeding from the anus. Have you experienced this?		No
Have you been diagnosed with either of these thyroid conditions?		No
Then I verify the closure summary and click on continue button		9.25s
text	Great, we're all done. Please remember, this service is only for general information purposes and isn't a personal or medical diagnosis. If your symptoms persist, change or worsen, or you are concerned seek further advice.	
Then I click on view results to see the possible causes		23.23s
When I click on "inguinal hernia" cause		6.47s

Then I verify following conditions are displayed		7.44s
<div>Uncomplicated inguinal hernia</div> <div>This usually requires seeing a GP.</div> <div>Reducible groin mass</div> <div>Groin mass or lump</div>		
And I click on back button to move back to possible causes screen		2.94s
When I click on "femoral hernia" cause		1.66s
Then I verify following conditions are displayed		6.26s
<div>Uncomplicated femoral hernia</div> <div>This usually requires seeing a GP.</div> <div>Reducible groin mass</div> <div>Groin mass or lump</div>		
And I click on back button to move back to home		30.07s
Then I sign out from pulse app		34.50s
After		0.00s
<a href="#">Back to Table of Contents</a>
