## Detailed Results Report

**Feature:** Verify agent registration workflow

**Passed:** 16

**Scenario:** verify default and sample text on agent registration page

**Passed:** 16

**Before**

**Given I assign `"/testdata/${sales.fe.lbu}/bulk_user_upload"` to variable `"testdata.path"`**

**Output**

Assigning value `/testdata/my/bulk_user_upload` to variable `testdata.path`

**And I assign `"${testdata.path}/input/AgentReg_Template.csv"` to variable `"INPUT_PATH"`**

**Output**

Assigning value `/testdata/my/bulk_user_upload/input/AgentReg_Template.csv` to variable `INPUT_PATH`

**And I assign `"${testdata.path}/output/Users.csv"` to variable `"OUTPUT_PATH"`**

**Output**

Assigning value `/testdata/my/bulk_user_upload/output/Users.csv` to variable `OUTPUT_PATH`

**And I generate random number and assign to variable "RANDOM\_NUMBER"****Output**

Random number generated is :684

**And I copy the csv template "\${INPUT\_PATH}" and replace following variables in output path "\$**

agent.Email	taf-\${RANDOM_NUMBER}@mailinator.com
-------------	--------------------------------------

**And I assign value to following variables**

GROUP_ID	\${group.id}
----------	--------------

**And I upload the csv file "\${OUTPUT\_PATH}" received from agent group "\${GROUP\_ID}" using****Then I verify File is uploaded successfully****Then I verify for below email content is matching with "/testdata/\${sales.fe.lbu}/email\_template/ag**

EMAIL_SUBJECT	\${register.email.subject}
EMAIL_FROM	\${register.email.from}
EMAIL_TO	\${agent.Email}

**Output**

Mailinator url is <https://www.mailinator.com/v3/index.jsp?zone=public&query=taf-684210322313>

[Back to Table of Contents](#)Scenario: **verify Agent should be able to create the password for sales portal**

Passed: 9

Before

Given I assign "Agent123" to variable "AGENT\_PASSWORD"

Output

Assigning value Agent123 to variable AGENT\_PASSWORD

When I enter "\${AGENT\_PASSWORD}" password in create password field  
 And I enter "\${AGENT\_PASSWORD}" password in confirm password field  
 And I verify next button is enabled  
 And I click on next button  
 Then I verify following text is displayed on "Email Confirmation" page  
 \${agent.registration.text}  
 And I verify following paragraph is displayed on "Email Confirmation" page  
 An email has been sent to  
 Please click on the link sent to your email address to verify your account and proceed to the log  
 And I verify email confirmation contains the agent email address as "\${agent.Email}"  
 And I close sales portal

After

[Back to Table of Contents](#)Scenario: **Verify Agent account is activated and can proceed with login**

Passed: 17

Before

And I wait for 10 sec  
 Given I assign "\${verify.email.from}" to variable "EMAIL\_FROM"

**Output**

Assigning value rits.ciampru@prudential.com.sg to variable EMAIL\_FROM

**Given I assign "\${verify.email.subject}" to variable "EMAIL\_SUBJECT"**

**Output**

Assigning value Prudential Enterprise Business Account E-mail Verification to variable EMAIL\_SUBJECT

**Given I read Agent registration email from "\${agent.Email}" in Mailinator and get "\${verify.email.subject}"**

**Output**

Mailinator url is https://www.mailinator.com/v3/index.jsp?zone=public&query=taf-684210322313

Registration link is https://uat-sales.eb.prudential.com.my/identity/activate?app=eb\_sme&token=77d6fcc3-63f5-43d6-a513-aab2bffb0784&code=df

**Then I verify email content is matching with "/testdata/\${sales.fe.lbu}/email\_template/agent\_registration\_email.html"**

**When I navigate to the email verification link sent to agent**

**Output**

https://uat-sales.eb.prudential.com.my/identity/activate?app=eb\_sme&token=77d6fcc3-63f5-43d6-a513-aab2bffb0784&code=df

**Then I verify following text is displayed on "Confirmation" page**

**Confirmation**

**And I verify following paragraph is displayed on "Confirmation" page**

**Your account has now been activated, please proceed to login page.**

**And I verify Proceed to login button is enabled**

**When I click on Proceed to login button**

**Then I verify following text is displayed on "Login" page**

**Welcome**

**And I close sales portal**

**When I launch to mailinator email "\${agent.Email}" on UI**

**Output**

Mailinator url is https://www.mailinator.com/v3/index.jsp?zone=public&query=taf-684210322313

**And I wait for 10 sec**

**When I click on email with from "\${verify.email.from}" and subject "\${login.email.success}" on mailinator**

Then I verify email content is matching with `"/testdata/${sales.fe.lbu}/email_template/agent_regist`  
 And I close sales portal

After

[Back to Table of Contents](#)

Output

Assigning value Agent123 to variable AGENT\_NEW\_PASSWORD

Then I enter "Agent129" password in current password field

When I enter "\${AGENT\_NEW\_PASSWORD}" password in new password field

And I enter "\${AGENT\_NEW\_PASSWORD}" password in confirm your password field

And I click on "\${save.button.text}" button

Then I click on "\${close.button}" button

After

[Back to Table of Contents](#)

Scenario: **verify Agent should be able to logout and Login back with the updated password**

Passed: 6

Before

When I Logout of the sales portal

When I Login to Sales Portal with below details

UserName	\${AGENT_EMAIL_ID}
----------	--------------------

Password	\${agent.password}
----------	--------------------

And I enter the verification code if page appears for agent "\${AGENT\_EMAIL\_ID}"

Then I verify "\${welcome.to.prudential}" screen is displayed

Then I click on "Agent Profile" Link

And verify the user is landed on "Agent Profile" page

After

[Back to Table of Contents](#)

Scenario: **Close from Sales Portal**

Passed: 1

Before

And I close sales portal

After

[Back to Table of Contents](#)**Feature: Verify select plan page functionality**

Passed: 19

**Scenario: Launch Sales application for PAMB**

Passed: 5

Before

**Given Launch sales portal**

Output

https://uat-sales.eb.prudential.com.my/

**And I assign value to following variables**

Agent_Email	\${agent.email.id.global}
Agent_Password	\${agent.password}

**When I Login to Sales Portal with below details**

UserName	\${Agent_Email}
Password	\${Agent_Password}

**And I enter the verification code if page appears for agent "\${Agent\_Email}"****Then I verify "\${welcome.to.prudential}" screen is displayed**

After

[Back to Table of Contents](#)**Scenario: verify static and sample text on company and category section on select plan page**

Passed: 11

Before

**Given I click on Create Quote Link****Then verify the user is landed on "Select Plan" page****And I verify following text is displayed on "Select plan Page" page**

\${estimatedAnnualPremium.button.text}
\${newQuote.static.text}

**And I verify the h2 header text is displayed on "Select plan" page**

\${select.plan.group.coverage.ghs.text}
\${select.group.plan.static.text}

**And I verify following static text on "Select plan" page**

\${select.plan.group.coverage.gtl.text}
\${select.plan.group.coverage.gtl.death.text}
\${select.plan.group.coverage.gtl.tpd.text}
\${select.plan.gtl.gadd.text}

**And I verify following paragraph is displayed on "Select Plan" page**

\${select.plan.group.ghs.confirm.text}
--

**Then I verify following buttons are displayed on "Select Plan page"**

<code>\${saveQuote.button.text}</code>
<code>\${premiumandbenefit.button.text}</code>
<code>\${selectplan.ghs.yes.button}</code>
<code>\${selectplan.ghs.no.button}</code>

Then I verify field label text on "Select Plan" page

<code>\${numOfEmp.field.label.text}</code>
<code>\${selectCoverageStartDate.field.label.text}</code>

Then I verify the presence of following items on page footer

<code>\${next.button.text}</code>
-----------------------------------

Then I verify "`${previous.button.text}`" button should not be visible on "select plan page footer"

Then I verify the sample text of following fields on select plan page

Select coverage date	<code>\${coverageDate.default.value}</code>
Number of Members	

After

[Back to Table of Contents](#)

Scenario: Verify optional plan GHS is not selected by default

Passed: 2

Before

Then I verify following buttons are displayed and enabled

<code>\${selectplan.ghs.yes.button}</code>
<code>\${selectplan.ghs.no.button}</code>

And I verify selection status of following buttons are "not selected"

<code>\${selectplan.ghs.yes.button}</code>
<code>\${selectplan.ghs.no.button}</code>

After

[Back to Table of Contents](#)

Scenario: Verify the validation when user saves the quote without entering the Mandatory fields

Passed: 2

Before

Given I click on "`${saveQuote.button.text}`" button

Then I verify following validation message on "Select plan page"

<code>\${validationMessage.company.name}</code>
<code>\${emp.bulk.upload.error.empcount.message}</code>
<code>\${validationMessage.ghs.button}</code>

After

[Back to Table of Contents](#)

Scenario: Verify Next button validation message without entering any values

Passed: 5

Before

Given I click on "`${next.button.text}`" button

Then I verify following validation message on "Select plan page"

<code>\${validationMessage.ghs.button}</code>
---

And I click on PAMB GHS "\${selectplan.ghs.yes.button}" button

**Given I click on "\${next.button.text}" button**

Then I verify following text is displayed on "Select Plan" page

```
${selectplan.error.num.employee}
```

## After

\${employee.detail.name}	\${Employee Full Name}
\${employee.detail.startdate}	\${COVERAGE_DATE}

When I expand the member "\${Employee Full Name}" using > button

And I verify following details for the added/updated members

\${employee.addemp.field.dob}	\${Date of Birth}
\${employee.addemp.field.gender}	\${Gender}
\${employee.addemp.field.nationality}	\${Nationality}
\${employee.detailsview.field.empid}	\${NRIC no.}
\${employee.addemp.field.occupationclass}	\${Occupational Class}
\${employee.addemp.field.cmpnyemail}	\${Email Address}

Then I navigate to "Select Plan" screen

Then I verify the sample text of following fields on select plan page

Number of Members 11

After

[Back to Table of Contents](#)

Scenario: **Verify the email duplicate check is present while adding same email for employees manually**

Passed: 13

Before

Given I navigate to "Members" screen

And I scroll the page up

And I click on "\${addEmployeeManually.button.text}" button

And I verify "\${employee.addemp.modal.title}" modal comes up

Then I enter following details on "Add Employee" screen

Email Address \${hr.admin.id}

And I click on "\${employee.addemp.saveandnew}" button

When I verify the error message on "Add Employee modal"

\${employee.addemp.field.cmpnyemail} \${emp.bulk.upload.error.email.exist}

Output

Checking validation message for Email Address

Then I enter following details on "Add Employee" screen

Email Address \${Email Address}

And I click on "\${employee.addemp.saveandnew}" button

And I wait for 2 sec

When I verify the error message on "Add Employee modal"

\${employee.addemp.field.cmpnyemail} \${emp.bulk.upload.error.email.exist}

Output

Checking validation message for Email Address

And I click on "\${employee.addemp.close}" button

And verify the user is landed on "Members" page

After

[Back to Table of Contents](#)

Scenario: **Verify the presence of the Search field**

Passed: 3

Before

Given I close the Add employee Modal if it is already opened

And I verify Search text field is displayed and enabled with magnifying class and default text as Se

And I verify sample text of search text field on "member page" page on Sales Portal

`${member.search.text}`

After

[Back to Table of Contents](#)

Scenario Outline: **Verify the agent can search member details by entering "First Name"**

Passed: 3

Before

Given I enter "\${Employee First Name}" in search text field in Members page

And I verify searched member count is 1

Then I remove search text on manage members page in Sales Portal

After

[Back to Table of Contents](#)

Scenario Outline: **Verify the agent can search member details by entering "NRIC no."**

Passed: 3

Before

Given I enter "\${NRIC no.}" in search text field in Members page

And I verify searched member count is 1

Then I remove search text on manage members page in Sales Portal

After

[Back to Table of Contents](#)

Scenario Outline: **Verify the agent can search member details by entering "Email Address"**

Passed: 3

Before

Given I enter "\${Email Address}" in search text field in Members page

And I verify searched member count is 1

Then I remove search text on manage members page in Sales Portal

After

[Back to Table of Contents](#)

Scenario: **Verify the agent can edit the employee information on employee page**

Passed: 23

## Before

Given I close the Add employee Modal if it is already opened  
 And I navigate to "Select Plan" screen  
 And I navigate to "Members" screen  
 Then I enter "\${Email Address}" in search text field in Members page  
 And I click on edit button next to the employee "\${Employee Full Name}"  
 Then I click on profile button "\${employee.editprofile.button.text}" on Add employee page  
 Then I verify "\${employee.editemp.modal.title}" modal comes up  
 Then I verify Add Employee page is displayed with all data pre-populated from employee table

First Name	\${Employee First Name}
Surname	\${Employee Surname}
Date of Birth	\${Date of Birth}
Gender	\${Gender}
Email Address	\${Email Address}
MY Occupational Class	\${Occupational Class}
Coverage Start Date	\${Coverage Start Date}
static Nationality	\${Nationality}
NRIC no.	\${NRIC no.}
Address 1	\${Address 1}
Address 2	\${Address 2}
Address 3	\${Address 3}
Address 4	\${Address 4}
State	\${state.dropdown.value.2}
City	\${City}
Post Code	\${Post Code}

Then I scroll the page up

Then I generate random number and assign to variable "RANDOM\_NUMBER"

Output

Random number generated is :907

And I assign value to following variables

updated_Employee First Name	Test FN updated
updated_Employee Sur Name	Test SN updated
updated_Date of Birth	23/09/1992
updated_Gender	\${gender.male.text}
updated_Email Address	testuser_\${RANDOM_NUMBER}@test.com
updated_CoverageStart Date	\${COVERAGE_DATE}
updated_NRIC no.	456789012345
updated_Address 1	Test Address1
updated_Address 2	Test Address2
updated_Address 3	Test Address3

updated_Address 4	Test Address4
updated_State	\${state.dropdown.value.3}
updated_City	Test City
updated_Post Code	53783

Then I enter following details on "add employee" screen

First Name	\${updated_Employee First Name}
Surname	\${updated_Employee Sur Name}
Date of Birth	\${updated_Date of Birth}
Gender	\${updated_Gender}
Email Address	\${updated_Email Address}
Coverage Start Date	\${updated_CoverageStart Date}
NRIC no.	\${updated_NRIC no.}
Address 1	\${updated_Address 1}
Address 2	\${updated_Address 2}
Address 3	\${updated_Address 3}
Address 4	\${updated_Address 4}
State	\${updated_State}
City	\${updated_City}
Post Code	\${updated_Post Code}

And I assign "\${updated\_Employee First Name} \${updated\_Employee Sur Name}" to variable "u

Output

Assigning value Test FN updated Test SN updated to variable updated\_Employee Full Name

Then I scroll the page up

Then I click on "\${employee.addemp.save}" button

Then verify the user is landed on "Members" page

Then I wait for 5 sec

Then I remove search text on manage members page in Sales Portal

Then I assign value to following variables

EMP\_COUNT 11

Then I verify following counts are displayed for employee and dependant on employee page

Employee Count \${employee.uploaded.count}

Then I enter "\${updated\_Employee Full Name}" in search text field in Members page

When I expand the member "\${updated\_Employee Full Name}" using > button

And I verify following details for the added/updated members

\${employee.addemp.field.dob}	\${updated_Date of Birth}
\${employee.addemp.field.gender}	\${updated_Gender}
\${employee.addemp.field.nationality}	\${Nationality}
\${employee.detailsview.field.empid}	\${updated_NRIC no.}
\${employee.addemp.field.occupationclass}	\${Occupational Class}
\${employee.addemp.field.cmpnyemail}	\${updated_Email Address}

After

[Back to Table of Contents](#)

Scenario: Verify the agent can delete single member profile

Passed: 15

Before

Given I close the Add employee Modal if it is already opened

Given I enter "\${updated\_Employee Full Name}" in search text field in Members page

And I click on edit button next to the employee "\${updated\_Employee Full Name}"

Then I assign "\${updated\_Employee Full Name}" to variable "Employee Full Name"

Output

Assigning value Test FN updated Test SN updated to variable Employee Full Name

Then I click on delete profile button "\${employee.deleteprofile.button.text}" on Add employee page

Then I verify following text is displayed on "delete profile popup window on employee" page

`${employee.delete.popup.Header.text}``${employee.delete.popup.message}`

Then I verify following buttons are displayed on "delete profile popup window on employee"

`${employee.delete.popup.cancel.button}``${employee.delete.popup.delete.button}`

Then I click on "\${employee.delete.popup.cancel.button}" button

Given I click on edit button next to the employee "\${updated\_Employee Full Name}"

Then I click on delete profile button "\${employee.deleteprofile.button.text}" on Add employee page

Then I click on "\${employee.delete.popup.delete.button}" button

Then I remove search text on manage members page in Sales Portal

Then I assign value to following variables

`EMP_COUNT` 10

Then I verify following counts are displayed for employee and dependant on employee page

`Employee Count` `${employee.uploaded.count}`

Then I verify following employees should not present on employee page

`${Employee Full Name}`

After

[Back to Table of Contents](#)

Scenario: Verify that the quote can be saved by clicking on Save Quote button after entering member

Passed: 12

Before

Given I close delete profile modal if already opened

Then I navigate to "Members" screen

And I verify following buttons are displayed on top right corner of the screen

`Save Quote` `${saveQuote.button.text}`

**And I generate random number and assign to variable "RANDOM\_NUMBER"**

**Output**

Random number generated is :964

**And I assign "Test\_Quote\_\${RANDOM\_NUMBER}" to variable "Company\_Name"**

**Output**

Assigning value Test\_Quote\_964210322353 to variable Company\_Name

**And I enter Company Name as "\${Company\_Name}"**

**Output**

company name is: Test\_Quote\_964210322353

**And I click on "\${saveQuote.button.text}" button**

**Then I verify following information is displayed on page footer**

**\${lastSavedMessage.static.text}**

**Then I verify the presence of export quote button**

**And I click on "Quotes" Link**

**When I enter "\${Company\_Name}" in search text field in Quotes page**

**Then I verify Quote is present only for "\${Company\_Name}" search criteria in "Company Name"**

**After**

[Back to Table of Contents](#)

**Scenario: [Verify workflow of adding multiple member profiles manually](#)**

- 1)Verify the agent can add multiple member profiles manually
- 2)Verify the functionality of save and new button to add multiple members

Passed: 48

**Before**

**Given I close the Add employee Modal if it is already opened**

**Then I click on Create Quote Link**

**And I generate "current date" and assign to variable "COVERAGE\_DATE" in "dd/MM/yyyy" format**

**And I assign value to following variables**

**No. of Members**10

**And I enter Company Name as "MY Member Bulk Upload Tests"**

**Output**

company name is: MY Member Bulk Upload Tests

And I enter following details on select plan page

Effective Date of Coverage	\${COVERAGE_DATE}
No. of Members	\${No._of_Members}

And I click on PAMB GHS "\${selectplan.ghs.no.button}" button

And I navigate to "Members" screen

And verify the user is landed on "Members" page

Then I select the PDPA Consent requirement check box

And I scroll the page up

Then I click on "\${addEmployeeManually.button.text}" button

Then I verify "\${employee.addemp.modal.title}" modal comes up

And I generate random number and assign to variable "RANDOM\_NUMBER"

Output

Random number generated is :777

And I assign value to following variables

Employee First Name_emp1	First User
Employee Surname_emp1	Sur'name
Date of Birth_emp1	27/08/1996
Gender_emp1	\${gender.male.text}

**\${employee.download.popup.message}**

Then I verify following buttons are displayed on "Download Member Data File"

**\${employee.download.popup.english.button}**

Given I assign "/testdata/\${sales.fe.lbu}/bulk\_upload\_employee" to variable "testdata.path"

**Output**

Assigning value /testdata/my/bulk\_upload\_employee to variable testdata.path

Then I assign "Employee\_Temp\_To\_Compare\_With.xlsm" to variable "FILE\_NAME"

**Output**

Assigning value Employee\_Temp\_To\_Compare\_With.xlsm to variable FILE\_NAME

Then I assign "employees\_template.xlsm" to variable "DOWNLOADED\_FILE\_NAME"

**Output**

Assigning value employees\_template.xlsm to variable DOWNLOADED\_FILE\_NAME

And I assign "\${testdata.path}/downloadEmployeeTemplate" to variable "employee.template.com"

**Output**

Assigning value /testdata/my/bulk\_upload\_employee/downloadEmployeeTemplate to variable employee.template.compareWith

Then I assign the downloaded file "\${DOWNLOADED\_FILE\_NAME}" to variable "employee.tem"

Then I delete the downloaded file "\${employee.template.CompareTo.path}" if it already exists

Then I click on "\${employee.download.popup.english.button}" button

Then I verify downloaded file name is "\${employee.template.CompareTo.path}"

**Output**

Downloaded file name=/tmp/workspace/me-sales-portal-ui-tests\_develop/employees\_template.xlsm

And I verify employee csv file "\${employee.template.CompareTo.path}" is matching with "\${empl

And I close download employee data file popup

And I click on "\${employee.addemp.close}" button

And verify the user is landed on "Members" page

Then I verify the the presence of following button on "member page"

`${employee.upload.file.btn}`

`${addEmployeeManually.button.text}`

And I verify the presence of "`${employee.download.template.btn}`" on employee page

After

[Back to Table of Contents](#)

Scenario: **verify the member Screen when member file is uploaded successfully**

Passed: 21

Before

Given I close download employee data file popup if it is opened

Given I close "`${employee.error.view.close}`" the error modal if it is opened

When I click on Create Quote Link

And I assign value to following variables

`No. of Employees` 10

And I enter Company Name as "MY Member Bulk Upload Tests"

Output

company name is: MY Member Bulk Upload Tests

And I enter following details on select plan page

`No. of Employees` `${No. of Employees}`

And I navigate to "Members" screen

And I select the PDPA Consent requirement check box

Then I assign "employee\_CorrectData.xlsm" to variable "FILE\_NAME"

Output

Assigning value employee\_CorrectData.xlsm to variable FILE\_NAME

Then I upload the employee csv file "`${testdata.path}/003/${FILE_NAME}`"

Then I assign value to following variables

`EMP_COUNT` 10

And I assign "First Name.01 Surname 1" to variable "EMP\_NAME"

Output

Assigning value First Name.01 Surname 1 to variable EMP\_NAME

And I wait for 10 sec

And I verify the "\${employee.upload.success.msg}" validation message on employee screen	
Then I verify following counts are displayed for employee and dependant on employee page	
Employee Count	\${employee.uploaded.count}
Then I verify "\${employee.upload.file.btn}" button should not be visible on "Members Page"	
Then I verify "\${employee.download.template.btn}" button should not be visible on "Members Pa	
Then I scroll the page up	
When I expand the member "\${EMP_NAME}" using > button	
And I verify following details for the added/updated members	
\${employee.addemp.field.dob}	11/12/1995
\${employee.addemp.field.gender}	\${gender.male.text}
\${employee.addemp.field.nationality}	Malaysian
\${employee.detailsview.field.empid}	755454343430
\${employee.addemp.field.occupationclass}	\${emp.occupationalclass.dropdown.value1}

[Back to Table of Contents](#)**Scenario: Close Sales Portal**

Passed: 1

Before

And I close sales portal

After

[Back to Table of Contents](#)**Feature: Verify agent can download the quotes in pdf format and check all information is correct for GT**

Passed: 9

**Scenario: Login to sales portal**

Passed: 5

Before

Given Launch sales portal

Output

https://uat-sales.eb.prudential.com.my/

And I assign value to following variables

Agent_Email	\${agent.email.id.global}
Agent_Password	\${agent.password}
Agent_ID	\${agent.email.id.agentcode}

When I Login to Sales Portal with below details

UserName	\${Agent_Email}
Password	\${Agent_Password}

And I enter the verification code if page appears for agent "\${Agent\_Email}"

Then I verify "\${welcome.to.prudential}" screen is displayed

After

[Back to Table of Contents](#)**Scenario: Assign value to variables and enter details on select plan page**

Passed: 7

Before

Given I assign "/testdata/my/ExportQuote" to variable "testdata.path"

Output

Assigning value /testdata/my/ExportQuote to variable testdata.path

**And I assign "GTL\_WithoutGHS.txt" to variable "FILE\_NAME"**

**Output**

Assigning value GTL\_WithoutGHS.txt to variable FILE\_NAME

**And I generate "current date" and assign to variable "PDF\_GENERATION\_DATE" in "yyyyMMdd"**

**And I generate "current date" and assign to variable "PDF\_GENERATION\_DATE\_1" in "dd/MM/yyyy"**

**And I generate random number and assign to variable "RANDOM\_NUMBER"**

**Output**

Random number generated is :300

**And I assign "Gtl\_\${RANDOM\_NUMBER}" to variable "COMP\_NAME"**

**Output**

Assigning value Gtl\_30022030353 to variable COMP\_NAME

**And I generate "future date" and assign to variable "COVERAGE\_DATE" in "dd/MM/yyyy" for**

[Back to Table of Contents](#)

**Scenario: Select plan and category**

Passed: 4

**Before**

**When I click on Create Quote Link**

**Then verify the user is landed on "Select Plan" page**

**Then I enter following details on select plan page**

Company Name	\${COMP_NAME}
Select Coverage Date	\${COVERAGE_DATE}
No. of Employees	10

**And I click on PAMB GHS "\${selectplan.ghs.no.button}" button**

**After**

[Back to Table of Contents](#)

**Scenario: Save Quote and get reference number from Quotes screen**

Passed: 11

**Before**

And I click on "\${saveQuote.button.text}" button

And I get the estimated premium value displayed on select plan page and assign to variable "ESTI

Then I wait for 5 sec

When I click on Quotes link

And I enter "\${COMP\_NAME}" in search text field in Quotes page

Then I get the reference number for searched quote in variable "REF\_NUMBER"

Output

Reference number is: PAMBCN3DQD

And I click on Action button next to searched quote

And I select "\${quote.action.edit}" option from Action menu

And I assign "\${COMP\_NAME}\_\${REF\_NUMBER}\_\${PDF\_GENERATION\_DATE}.pdf" to va

Output

Assigning value Gtl\_30022030353\_PAMBCN3DQD\_20210322.pdf to variable DOWNLOADED\_FILENAME

Given I assign the downloaded file "\${DOWNLOADED\_FILENAME}" to variable "EXPORT\_Q

And I assign value to following variables

QUOTE_REF	\${REF_NUMBER}
TOTAL_PREMIUM_PER_YEAR	\${ESTIMATED_PREMIUM_VAL}
