Table of Contents

1. Verify login functionality on One pulse App
 1. Launch the app and select the country as per specified lbu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the Invalid Email id in login screen using "Continue with Email"
 4. Verify the User not registered email in login screen using "Continue with Email"
 5. User should be able to retrieve the reset password using forget password link
 6. Verify the Login Functionality using "Continue with Google"
2. Verify registration functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. verify the field label on registration screen
 3. verify the validation message for mandatory fields
 4. verify validation message when user enters Invalid password: Pulse@1 on registration page
 5. verify validation message when user enters Invalid password: Pulse123 on registration page
 6. Verify the validation message when user enter already registered email id on registration page
 7. Verify the mobile number screen validation using "Continue with Email"
 8. Verify the Gender screen validation using "Continue with Email"
 9. Verify the resend OTP functionality on Enter OTP Screen using "Continue with Email"
3. Verify Edit Profile functionality on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified lbu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Edit profile screen
 4. Verify User should be able to change the profile picture in edit profile screen
 5. Verify the email.country code and COR fields are non-editable in edit profile screen
 6. Verify user can able to change the details in edit profile screen
 7. Verify Details updated during pulse profile registration should be reflected in edit profile screen
 8. verify the user details should be correctly on babylon screen
 9. navigate back to health screen
 10. Verify User should not be able to edit email and country of residence fields on myDoc registration page once the user submitted their gender and DOB in edit profile
4. Verify the BabyLon Emergency call flow on Pulse Health & Wealth app
 1. User should be able to login on app with correct credentials and the BabyLon call 995 flow must be verified
5. Verify the BabyLon Perianal lump workflow is working as expected

1. User should be able to access Babylon from Pulse app and perform Perianal lump workflow
6. Verify the BabyLon Maligant Neoplasm Breast lump workflow is working as expected
 1. User should be able to access Babylon from Pulse app and perform Breast lump workflow
7. Verify the BabyLon Human Immune Virus workflow is working as expected
 1. User should be able to access Babylon from Pulse app and perform Human Immune Virus Rash workflow
8. Verify the BabyLon Groin Mass workflow is working as expected
 1. User should be able to access Babylon from Pulse app and perform Groin mass workflow
9. Verify the BabyLon Maligant Neoplasm postmenopause bleed workflow is working as expected
 1. User should be able to access Babylon from Pulse app and perform Postmenopausal Bleed workflow
10. Verify the BabyLon Prostatic HyperPlasia workflow is working as expected
 1. User should be able to access Babylon from Pulse app and perform Prostatic Hyperplasia workflow
11. Verify the BabyLon Rib Fracture workflow is working as expected and user can the chat history after consultation
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to access Babylon from Pulse app and perform Rib Fracture workflow
12. Verify that user can locate near by Hospitals,clinics using PruShoppe Location feature
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. User should be able to locate Hospitals using PruShoppe location
 4. User should be able to locate cli using PruShoppe location
13. Verify MY Event channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify MyEvent Functionality in Home screen
 4. Verify Open Events tab
 5. Verify Events Archive tab
14. Verify My Health Content functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Health page
 4. Verify User should be able to view the full page article post
 5. Verify User should be able to see the Like, Share, Comment options on full page article post
 6. Verify User should be able to Like the post in full article view screen
 7. Verify User should be able to Share the post in full article view screen
 8. Verify User can navigate to Health homepage
15. Verify My Challenges on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify My Challenges texts
 4. Click on All challenges and and verify texts
16. Verify My Communities on One Pluse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Gmail"
 3. User should be able to login on app with correct credentials using "Continue with Email" and Verify the Mycommunities screen
 4. Leave the community if already joined

5. Verify the All Communities Post screen
6. Verify the Likes and comments counts in All communities tab
7. Verify the Share with Friends Functionality in All communities tab
8. Verify the Post Functionality in All communities
9. Verify the Category list and search feature
10. Leave the community if already joined
17. Verify Private My Communities on One Pluse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Gmail"
 3. User should be able to login on app with correct credentials using "Continue with Gmail" and Verify the Mycommunities screen
 4. Verify the Private Communities in communities screen
18. Verify legal and legacy on One pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Navigate to account screen
 4. Verify the Legacy and Privacy should be displayed
 5. Verify the Terms and condition screen should be displayed
 6. Verify the Privacy screen should be displayed
 7. Verify the Regulator screen should be displayed
19. Verify My accounts options in Account screen
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Navigate to account screen and verify all the options
 4. Verify wearable screen in Account tab
 5. navigate back to account screen from my wearable screen
 6. Navigate to account screen
 7. Verify reward screen in Account tab
 8. User access My Rewards FAQ
 9. Verify the FAQ on my rewards screen
 10. Verify the FAQ on my rewards screen
 11. Verify the FAQ on my rewards screen
 12. Verify the FAQ on my rewards screen
 13. Verify the FAQ on my rewards screen
 14. Verify the FAQ on my rewards screen
 15. Verify the FAQ on my rewards screen
 16. Verify the FAQ on my rewards screen
 17. Verify the FAQ on my rewards screen
 18. navigate back to account screen from my rewards screen
 19. Verify Notification screen in Account tab
 20. navigate back to account screen from Notification screen
 21. Verify my feedback screen in Account tab
 22. Verify the submit functionality in My feedback screen
 23. Verify the Pulse Personalised tab
 24. Save the consent with data privacy check
 25. Save the consent without data privacy check
 26. navigate back to account screen from pulse personalised screen
20. Verify My wearable functionality via fitness tab on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the user can access My Wearables via Fitness

21. **Verify account locked functionality on One pulse App**
 1. **Verify Account should be locked after entering more than 5 times incorrect passwords**
22. **Verify that user can access calendar under health section**
 1. **Launch the app and select the country as per specified Ibu**
 2. **login to the app with correct credentials using "Continue with Email"**
 3. **User should be able to access Calendar screen**
23. **Verify Pru Safe Covid-19 Cover functionality on one pulse App**
 1. **User should be able to register on app with correct credentials using "Continue with Email"**
 2. **Verify User should be able to see the PRU Shoppe screen**
 3. **Verify User should be able to see the PRUSafe COVIDCover screen options**
 4. **Verify User should be able to see the PRUSafe COVIDCover screen options**
24. **Verify Pru Shoppe My Coverage functionality on one pulse App**
 1. **Launch the app and select the country as per specified Ibu**
 2. **login to the app with correct credentials using "Continue with Email"**
 3. **Verify user can access his policies from Pru Shoppe My Policies screen**
 4. **Click on Link policy and verify screen to add policy number**
 5. **Verify the error message when the Policy Number is blank**
 6. **Verify the error message when the Policy Number is invalid or incorrect**
 7. **Verify the error message when the Cancel Button**
25. **Verify share with friends functionality in onepulse app**
 1. **Launch the app and select the country as per specified Ibu**
 2. **login to the app with correct credentials using "Continue with Email"**
 3. **Verify User should be able to share the link with Whatsapp**
 4. **Verify User should be able to share the link with Contacts app**
 5. **Verify User should be able to share the link with Messenger app**
 6. **Verify User should be able to share the link with Viber app**
 7. **Verify User should be able to share the link with Line app**

Detailed Results Report

Feature: Verify login functionality on One pulse App				
Passed: 6		Failed: 0	Undefined: 0	Duration: 354.0s
Scenario: Launch the app and select the country as per specified Ibu				
Passed: 8		Failed: 0	Undefined: 0	Duration: 56.83s
Before		0.40s		
	Given User has pulse app			10.65s
	And I assign "\${login.email.id}" to variable "PULSE_EMAIL"			0.01s
	And user click on "CONTINUE WITH EMAIL" with Email button			12.86s
	Then I change the country as required on registration page			10.39s
	Then I wait for 5 sec			5.01s
	Then I change the language as required on registration page			10.89s
	And I click the Sign in link			4.94s
	Then I verify below language options on toggle bar as per specified Ibu on login page			1.69s
After		0.00s		
Back to Table of Contents				

Scenario: login to the app with correct credentials using "Continue with Email"			
Passed: 6	Failed: 0	Undefined: 0	Duration: 39.46s
Before			0.00s
Given I select the language option on toggle bar as required on login page			2.32s
When user enters credentials			17.97s
UserName	\${PULSE_EMAIL}		
Password	\${login.password}		
And User clicks on signin button			0.28s
And I wait for 5 sec			5.01s
And I enter OTP in one pulse app for user email "\${PULSE_EMAIL}"			8.41s
Then user should be landed to "Home" screen			5.48s
After			0.00s
Back to Table of Contents			
Scenario: Verify the Invalid Email id in login screen using "Continue with Email"			
Passed: 16	Failed: 0	Undefined: 0	Duration: 86.65s
Before			0.00s
Given User has pulse app			7.94s
Then I wait for 2 sec			2.01s
And user click on "CONTINUE WITH EMAIL" with Email button			12.74s
Then I change the country as required on registration page			9.72s
Then I wait for 5 sec			5.01s
Then I change the language as required on registration page			11.72s
And I click the Sign in link			5.04s
And I select the language option on toggle bar as required on login page			3.51s
When user enters credentials			18.14s
UserName	t@gmai		
Password	Pas\$1234		
And I scroll down			4.57s
And User clicks on signin button			0.29s
Then verify invalid email message "Email is required"			0.66s
Then User clicks on Forgot Password button			0.24s
Then enter the email to request the new password			3.48s
Email	t@gmai		
Then User clicks on Send button			0.75s
Then verify invalid email message "\${email.invalid.text}"			0.85s
After			0.00s
Back to Table of Contents			
Scenario: Verify the User not registerd email in login screen using "Continue with Email"			
Passed: 17	Failed: 0	Undefined: 0	Duration: 85.56s
Before			0.00s
Given I generate random number and assign to variable "RANDOM_NUMBER"			0.01s
And I assign value to following variables			0.00s

USER_NAME		taf-#{RANDOM_NUMBER}@mailinator.com	
USER_PASSWORD		Pas\$1234	
Given User has pulse app			8.25s
And user click on "CONTINUE WITH EMAIL" with Email button			12.80s
Then I change the country as required on registration page			10.36s
Then I wait for 5 sec			5.01s
Then I change the language as required on registration page			10.46s
And I click the Sign in link			4.93s
And I select the language option on toggle bar as required on login page			3.54s
When user enters credentials			18.59s
UserName		#{USER_NAME}	
Password		#{USER_PASSWORD}	
And I scroll down			4.58s
And User clicks on signin button			0.38s
Then verify invalid email message "\${invalid.credential.message}"			0.97s
Then User clicks on Forgot Password button			0.21s
Then enter the email to request the new password			3.57s
Email		#{USER_NAME}	
Then User clicks on Send button			0.76s
Then verify invalid email message "\${invalid.credential.message}"			1.14s
After			0.00s
Back to Table of Contents			
Scenario: User should be able to retrieve the reset password using forget password link			
Passed: 8		Failed: 0	Duration: 49.2s
Before		0.00s	
And I assign "\${forgot.password.email.id}" to variable "PULSE_EMAIL"			0.00s
Then enter the email to request the new password			3.28s
Email		#{PULSE_EMAIL}	
Then User clicks on Send button			0.79s
Then I wait for 10 sec			10.01s
And I read the otp for emailid "\${PULSE_EMAIL}" using mailsac api and store into a variable "EMAIL_OTP"			26.92s
Then I enter "\${EMAIL_OTP}" reset code			0.64s
Then I wait for 7 sec			7.01s
Then Verify message: "\${password.reset.success.text}" for Reset Password			0.56s
After			0.00s
Back to Table of Contents			
Scenario: Verify the Login Functionality using "Continue with Google"			
Passed: 4		Failed: 0	Duration: 36.31s
Before		0.00s	
Given User has pulse app			8.13s
And user click on "CONTINUE WITH GOOGLE" with Google button			6.82s
And I click the "Email" in Continue with Gmail			15.81s

	Emailid	\${facebook.text}		
	Password	Pulse@123		
Then user should be landed to "Home" screen			5.55s	
After			0.00s
