Overall Duration: 1h 51m 58s

Table of Contents

1. Verify login functionality on One pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the Invalid Email id in login screen using "Continue with Email"
 4. Verify the User not registered email in login screen using "Continue with Email"
 5. User should be able to retrieve the reset password using forget password link
 6. Verify Account should be locked after entering more than 7 times incorrect passwords
 7. Verify the Login Functionality using "Continue with Facebook"
2. Verify registration functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. verify the field label on registration screen
 3. verify the validation message for mandatory fields
 4. verify validation message when user enters Invalid password: Pulse@1 on registration page
 5. verify validation message when user enters Invalid password: Pulse123 on registration page
 6. Verify the validation message when user enter already registered email id on registration page
 7. Verify the mobile number screen validation using "Continue with Email"
 8. Verify the Registration screen validation using "Continue with Email"
 9. Verify the resend OTP functionality on Enter OTP Screen using "Continue with Email"
3. Verify Edit Profile functionality on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Edit profile screen
 4. Verify User should be able to change the profile picture in edit profile screen
 5. Verify the email,country code and COR fields are non-editable in edit profile screen
 6. Verify user can able to change the details in edit profile screen
 7. Verify Details updated during pulse profile registration should be reflected in edit profile screen
 8. verify the user details should be correctly on babylon screen
 9. navigate back to health screen
4. Verify the Babylon Registration via HRA journey
 1. User should be able to Register for Babylon HRA
 2. User should be able to Register for Babylon HRA
5. Verify that user can locate near by Hospitals,clinics using PruShoppe Location feature
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"

3. User should be able to locate Hospitals using PruShoppe location
4. User can see details of listed hospitals in detail
5. User can see the details in speciality tab
6. User can see the details in doctor's tab
7. User can see the details in rooms tab
8. User can navigate out of the hospital details screen
9. User should be able to locate cli using PruShoppe location
10. User can verify the clinic page
11. User can view listed clinic details
12. User can view listed clinic info
13. User can view listed clinic info details
14. User can navigate back to clinics screen
6. Verify Medicine Reminder Positive Flow functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Verify User should be able to navigate to medical reminder page
 3. verify the static text on medicine reminder screen
 4. verify add medicine screen is launched and user can enter the required info on medical info screen
 5. verify user navigated to schedule screen and user can enter the required info
 6. Verify User should be able to navigate to More Setting page
 7. verify Add medicine screen is displayed when user click on add new reminder on success popup
 8. verify medicine reminder home screen is displayed when user click on not now button on success popup
 9. navigate to health screen
 10. Verify User should be able to navigate to calendar page
7. Verify MY Event channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify MyEvent Functionality in Home screen
 4. Verify Events Archive tab
 5. Verify Open Events tab
8. Verify My Health Content functionality on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Health page
 4. Verify User should be able to view the full page article post
 5. Verify User should be able to see the Like, Share, Comment options on full page article post
 6. Verify User should be able to Like the post in full article view screen
 7. Verify User should be able to Share the post in full article view screen
 8. Verify User can navigate to Health homepage
9. Verify Notification Center functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to notification screen via home screen
 3. Verify User should be able to see the Notification screen texts
10. Verify My Challenges on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"

3. Verify My Challenges texts
4. Click on All challenges and and verify texts
11. Verify My Communities on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Gmail"
 3. User should be able to login on app with correct credentials using "Continue with Email" and Verify the Mycommunities screen
 4. Leave the community if already joined
 5. Verify the All Communities Post screen
 6. Verify the Likes and comments counts in All communities tab
 7. Verify the Share with Friends Functionality in All communities tab
 8. Verify the Post Functionality in All communities
 9. Verify the Category list and search feature
 10. User navigates back to the community screen
 11. Leave the community if already joined
12. Verify Private My Communities on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify the My communities screen
 4. Verify the Private Communities in communities screen
13. Verify legal and legacy on One pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Navigate to account screen
 4. Verify the Legacy and Privacy should be displayed
 5. Verify the Terms and condition screen should be displayed
 6. Verify the Privacy screen should be displayed
 7. Verify the Regulator screen should be displayed
14. Verify My accounts options in Account screen
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Navigate to account screen and verify all the options
 4. Verify wearable screen in Account tab
 5. navigate back to account screen from my wearable screen
 6. Navigate to account screen
 7. Verify reward screen in Account tab
 8. User access My Rewards FAQ
 9. Verify the FAQ on my rewards screen
 10. Verify the FAQ on my rewards screen
 11. Verify the FAQ on my rewards screen
 12. Verify the FAQ on my rewards screen
 13. Verify the FAQ on my rewards screen
 14. Verify the FAQ on my rewards screen
 15. Verify the FAQ on my rewards screen
 16. Verify the FAQ on my rewards screen
 17. navigate back to account screen from my rewards screen
 18. Verify Notification screen in Account tab
 19. navigate back to account screen from Notification screen
 20. Verify my feedback screen in Account tab
 21. Verify the submit functionality in My feedback screen
 22. Verify the Pulse Personalised tab

23. Save the consent with data privacy check
24. Save the consent without data privacy check
25. navigate back to account screen from pulse personalised screen
15. Verify MySettings functionality in Account screen
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Navigate to account screen
 4. Verify my setting screen in Account tab
 5. navigate back to account screen from my setting screen
16. Verify My wearable functionality via fitness tab on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the user can access My Wearables via Fitness
17. Verify the BabyLon HRA Report - Nutrition, Body, Activity
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. User should be able to access Babylon Health Risk Assessment Report
 4. Verify the HRA Activity Report
 5. Verify the HRA Activity Report
 6. Verify the HRA Nutrition Report
 7. Verify the HRA Report - Keep It Up sub-section
 8. Verify the HRA Report - Make a Change sub-section
 9. User should be able to access Babylon HRA - Healthcheck - Body
 10. navigate back to digital twin screen
 11. User should be able to access Babylon HRA - Healthcheck - Nutrition
 12. Navigate back to nutrition screen and validate the static text
 13. navigate back to digital twin screen
 14. User should be able to access Babylon HRA - Healthcheck - Activity
 15. Navigate back to Activity screen and validate the static text
 16. navigate back to digital twin screen
 17. User should be able to access Babylon HRA - Healthcheck - Mood
 18. navigate back to digital twin screen
18. Verify that user can access calendar under health section
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. User should be able to access Calendar screen
19. Verify that user can access Chinese Medicine feature
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. User should be able to access Chinese Medicine screen
 3. Verify the carousel on Chinese Medicine journey
 4. Verify the carousel on Chinese Medicine journey
 5. verify the text and button on final assessment carousel
 6. User should be able to complete Chinese Medicine profile
 7. Verify the Q&A on Chinese Medicine journey
 8. Verify the Q&A on Chinese Medicine journey
 9. Verify the Q&A on Chinese Medicine journey
 10. Verify the Q&A on Chinese Medicine journey
 11. Verify the Q&A on Chinese Medicine journey
 12. Verify the Q&A on Chinese Medicine journey
 13. Verify the Q&A on Chinese Medicine journey

- [illegible]

65. Verify the Q&A on Chinese Medicine journey
66. Verify the Q&A on Chinese Medicine journey
67. Verify the Q&A on Chinese Medicine journey
68. Verify the Q&A on Chinese Medicine journey
69. Verify the Q&A on Chinese Medicine journey
70. Verify the Assessment completion screen
71. Verify the user can view the Assessment Record
72. Verify the Assessment Summary
73. Verify the "Constitution" Details of the Assessment
74. Verify the "Change In Tongue" Details of the Assessment
20. Verify Dietician Positive Flow for Doctor functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify User should be able to navigate to Dietician page
 3. Select the expert type as doctor and navigate to next screen
 4. Verify User should be able to navigate to specialisation page
 5. Verify User should be able to navigate to Educational Details page
 6. Verify User should be able to navigate to Add experience page
 7. Verify User should be able to navigate to Services Offered page
 8. Verify User should be able to navigate to achievement and awards screen
 9. Verify User should be able to navigate to Seminar(s) Attended page
 10. Verify User should be able to navigate to linked clinic page
 11. Verify User should be able to navigate to Take a Picture page
 12. Verify User should be able to navigate to schedule Calendar page
21. Verify that user can manage events via the Family Vaccine Calendar feature
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. User should be able to access my family vaccination calendar
 3. Verify the user can Add Vaccine Information
 4. enter information on add vaccination popup
 5. Verify the added item displayed on the Vaccine Schedule screen
 6. Verify reminder options in vaccine schedule
 7. Verify change reminder functionality in vaccine schedule screen
22. Verify that user can access Dengue Alert feature
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the map can be expanded
 4. User should be able to view the Dengue Outbreak - Malaysia
 5. User should be able to view the Dengue Cases - Malaysia
23. Verify Pru infectious disease cover functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to PRU Shoppe screen
 3. Verify User should be able to see the infectious disease cover screen options
 4. Verify User should be able to see the infectious disease cover Screen options
 5. Verify User should be able to see the infectious disease cover term and condition
 6. Verify User should be able to see the infectious disease cover term and condition
 7. Verify User should be able to see the infectious disease cover term and condition
 8. Verify User should be able to see the infectious disease cover term and condition
 9. verify that user can see agreement and proceed button
24. Verify Pru Shoppe My Coverage functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu

2. login to the app with correct credentials using "Continue with Email"
3. Verify user can access his policies from Pru Shoppe My Policies screen
4. Click on Link policy and verify screen to add policy number
5. Verify the error message when the Policy Number is blank
6. Verify the error message when the Policy Number is invalid or incorrect
7. Verify the error message when the Cancel Button
25. Verify wealth channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to wealth page
 4. Verify User should be able to view the story post
 5. Verify User should be able to Like the post
 6. Verify User should be able to Share the post
 7. Verify User should be able to Comment the post
 8. Verify User should be able to view the full page article post
 9. Verify User should be able to see the Like, Share, Comment options on full page article post
 10. Verify User should be able to Like the post in full article view screen
 11. Verify User should be able to Share the post in full article view screen
 12. Verify User should be able to Comment the post in full article view screen
 13. Verify User can navigate to wealth homepage
26. Verify Notification Center functionality on one pulse App
 1. Navigate to notification screen via home screen
 2. Verify User should be able to see the Notification screen texts
27. Verify MY Event channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify MyEvent Functionality in Home screen
 4. Verify Events Archive tab
 5. Verify Open Events tab
28. Verify share with friends functionality in OnePulse app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to share the link with Whatsapp
 4. Verify User should be able to share the link with Contacts app
 5. Verify User should be able to share the link with Messenger app
 6. Verify User should be able to share the link with Viber app
 7. Verify User should be able to share the link with Line app

Detailed Results Report

Feature: <u>Verify login functionality on One pulse App</u>			
Passed: 4	Failed: 3	Undefined: 0	Duration: 441.16s
	Scenario: Launch the app and select the country as per specified Ibu		
	Passed: 8	Failed: 0	Undefined: 0
	Before		0.31s
	Given User has pulse app		13.47s
	And I assign "\${login.email.id}" to variable "PULSE_EMAIL"		0.01s
	And user click on "CONTINUE WITH EMAIL" with Email button		15.39s

Then I change the country as required on registration page	12.06s				
Then I wait for 2 sec	2.01s				
Then I change the language as required on registration page	0.00s				
And I click the Sign in link	4.94s				
Then I verify below language options on toggle bar as per specified Ibu on login page	1.81s				
After	0.00s				
Back to Table of Contents					
Scenario: login to the app with correct credentials using "Continue with Email"					
Passed: 6	Failed: 0				
Undefined: 0	Duration: 48.6s				
Before	0.00s				
Given I select the language option on toggle bar as required on login page	2.33s				
When user enters credentials	11.13s				
<table border="1"> <tr> <td>UserName</td><td>\${PULSE_EMAIL}</td></tr> <tr> <td>Password</td><td>\${login.password}</td></tr> </table>	UserName	\${PULSE_EMAIL}	Password	\${login.password}	
UserName	\${PULSE_EMAIL}				
Password	\${login.password}				
And User clicks on signin button	0.96s				
And I wait for 5 sec	5.02s				
And I enter OTP in one pulse app for user email "\${PULSE_EMAIL}"	13.85s				
Then user should be landed to "Home" screen	15.31s				
After	0.00s				
Back to Table of Contents					
Scenario: Verify the Invalid Email id in login screen using "Continue with Email"					
Passed: 15	Failed: 0				
Undefined: 0	Duration: 67.25s				
Before	0.00s				
Given User has pulse app	11.60s				
Then I wait for 2 sec	2.00s				
And user click on "CONTINUE WITH EMAIL" with Email button	13.43s				
Then I change the country as required on registration page	12.10s				
Then I wait for 2 sec	2.01s				
And I click the Sign in link	4.86s				
Then I wait for 2 sec	2.02s				
And I select the language option on toggle bar as required on login page	2.33s				
When user enters credentials	10.42s				
<table border="1"> <tr> <td>UserName</td><td>t@gmail</td></tr> <tr> <td>Password</td><td>Pas\$1234</td></tr> </table>	UserName	t@gmail	Password	Pas\$1234	
UserName	t@gmail				
Password	Pas\$1234				
And User clicks on signin button	0.29s				
Then verify invalid email message "Email is required"	0.73s				
Then User clicks on Forgot Password button	0.26s				
Then enter the email to request the new password	3.57s				
<table border="1"> <tr> <td>Email</td><td>t@gmail</td></tr> </table>	Email	t@gmail			
Email	t@gmail				
Then User clicks on Send button	0.75s				
Then verify invalid email message "\${email.invalid.text}"	0.87s				
After	0.00s				

[Back to Table of Contents](#)
Scenario: Verify the User not registered email in login screen using "Continue with Email"

Passed: 4	Failed: 1	Undefined: 12	Duration: 39.13s
Before			0.00s

Given I generate random number and assign to variable "RANDOM_NUMBER"	0.02s
---	-------

And I assign value to following variables	0.00s
---	-------

USER_NAME	taf-\${RANDOM_NUMBER}@mailinator.com
USER_PASSWORD	Pas\$1234

Given User has pulse app	11.28s
--------------------------	--------

And user click on "CONTINUE WITH EMAIL" with Email button	10.59s
---	--------

Then I change the country as required on registration page	17.24s
--	--------

org.openqa.selenium.NoSuchElementException: An element could not be located on the page using the given search parameters.

Passed: 2	Failed: 8	Undefined: 0	Duration: 378.41s
Scenario: User should be able to register on app with correct credentials using "Continue with Email"			
Passed: 16	Failed: 0	Undefined: 0	Duration: 223.75s
Before			0.00s
	Given I generate random number and assign to variable "RANDOM_NUMBER"		0.00s
	And I assign "pulse\${RANDOM_NUMBER}@mailsac.com" to variable "PULSE_EMAIL"		0.00s
	And User has pulse app		9.09s
	And user click on "CONTINUE WITH EMAIL" with Email button		15.84s
	Then I wait for 2 sec		2.01s
	Then I change the country as required on registration page		12.03s
	Then I wait for 2 sec		2.00s
	Then I navigate to pulse registration page and select the lang on toggle bar then		

click on continue with email button			3.89s
When user enters registration details			8.08s
FirstName	medicine		
LastName	reminder		
Email	\${PULSE_EMAIL}		
Password	Pas\$1234		
And taps on continue "Sign_Up" button			0.30s
And I wait for otp screen after clicking on signup button			2.13s
And I enter OTP in one pulse app for user email "\${PULSE_EMAIL}"			31.37s
Then I wait for 2 sec			2.00s
Then I click skip button			117.39s
Then user should be landed to "Home" screen			13.62s
Then I wait for 4 sec			4.00s
After			0.00s
Back to Table of Contents			
Scenario: Verify User should be able to navigate to medical reminder page			
Passed: 5	Failed: 0	Undefined: 0	Duration: 54.7s
Before			0.00s
Given I relaunch the app on registration failure			0.00s
Then I click the Health icon in Home screen			13.15s
And I wait for 2 sec			2.00s
And I clicks on click here icon in medical Reminder			37.56s
Then I wait for 2 sec			2.01s
After			0.00s
Back to Table of Contents			
Scenario: verify the static text on medicine reminder screen			
Passed: 0	Failed: 1	Undefined: 2	Duration: 25.36s
Before			0.00s
And I verify following text displayed in Add medicine screen			25.36s
java.lang.AssertionError: The following asserts failed: No medicine added! text is displayed on page expected [true] but found [false], Track the medicine and set reminder text is displayed on page expected [true] but found [false], before for important dose text is displayed on page expected [true] but found [false] at org.testng.asserts.SoftAssert.assertAll(SoftAssert.java:43) at com.onepulse.app.stepdefinitions.mobilesteps.MyDocSteps.VerifyAddMedicine(MyDocSteps.java:885) at .And I verify following text displayed in Add medicine screen(features/health/MedicineReminder.feature:36)

Given User has pulse app

11.47s

And I assign "\${login.email.id}" to variable "PULSE_EMAIL"	0.00s				
And user click on "CONTINUE WITH EMAIL" with Email button	15.57s				
Then I change the country as required on registration page	11.87s				
Then I wait for 2 sec	2.02s				
Then I change the language as required on registration page	0.00s				
And I click the Sign in link	4.90s				
Then I verify below language options on toggle bar as per specified lbu on login page	1.72s				
After	0.00s				
Back to Table of Contents					
Scenario: login to the app with correct credentials using "Continue with Email"					
Passed: 1	Failed: 1				
Undefined: 4	Duration: 6.56s				
Before	0.00s				
Given I select the language option on toggle bar as required on login page	2.31s				
When user enters credentials	4.25s
