  5. [Invalid password check on agent registration page](#)
  6. [Invalid password check on agent registration page](#)
  7. [Create password and confirm password mismatch check on agent registration page](#)
  8. [Validate mask and unmask functionality for create and confirm password field](#)
  9. [verify that the next button is enabled only when agent entered the correct create and confirm password](#)
  10. [verify that the next button is enabled only when agent entered the correct create and confirm password](#)
  11. [verify that the next button is enabled only when agent entered the correct create and confirm password](#)
  12. [verify that the next button is enabled only when agent entered the correct create and confirm password](#)
  13. [verify Agent should be able to create the password for sales portal](#)
  14. [Verify Agent account is activated and can proceed with login](#)
  15. [verify the user should be prompted to login when already registered user is loaded in bulk upload and he opens the agent registration page](#)
  16. [Close from Sales Portal](#)
2. [Validate the forgot password with valid and invalid condition](#)
  1. [Agent Registration using api](#)
  2. [Verify agent registration flow - Setting up password](#)
  3. [Verify agent registration flow - Email Verification](#)
  4. [Verify static text and elements on Forgot Password page in Sales Portal](#)
  5. [Validate the return to the login link in Forgot your password page](#)
  6. [Verify the confirmation message on forgot password page when user enter valid email id](#)
  7. [Verify back button navigates user back to login page](#)
  8. [Close sales portal](#)
  9. [Verify reset password link is sent to user email account](#)
  10. [Validate mask and unmask functionality for create and confirm password field](#)
  11. [verify that the reset password button is enabled only when agent entered the correct create and confirm password](#)
  12. [verify that the reset password button is enabled only when agent entered the correct create and confirm password](#)

13. verify that the reset password button is enabled only when agent entered the correct create and confirm password
14. verify that the reset password button is enabled only when agent entered the correct create and confirm password
15. verify Agent should be able to reset the password for sales portal
16. verify Agent should be able to logout and Login back with the new/reset password
17. Close from Sales Portal
3. Verify the homepage for Agent ID, Navigation bar & Toggle bar
  1. Verify the agent ID is displayed on home page
  2. Verify the Toggle bar on the home page
  3. I verify the navigation to the New Quote page and verify that user is landed on New Quote page and verify the presence of toggle bar items when navigate to the New Quote page
  4. I verify the navigation to the Quotes page and verify that user is landed on Quotes page and verify the presence of toggle bar items when navigate to the Quotes page
  5. I verify the navigation to the Documents page and verify that user is landed on Documents page and verify the presence of toggle bar items when navigate to the Documents page
  6. I verify the navigation to the Get Help page and verify that user is landed on Get Help page and verify the presence of toggle bar items when navigate to the Get Help page
  7. I verify the navigation to the Agent Profile page and verify that user is landed on Agent Profile page and verify the presence of toggle bar items when navigate to the Agent Profile page
  8. I verify the navigation to the Information page and verify that user is landed on Information page and verify the presence of toggle bar items when navigate to the Information page
  9. Verify the Navigation bar on the New Quote page
  10. I verify the navigation to the Select Plan page and verify that user is landed on Select Plan page and all left toggle bar items are present
  11. I verify the navigation to the Employees page and verify that user is landed on Employees page and all left toggle bar items are present
  12. I verify the navigation to the Company page and verify that user is landed on Company page and all left toggle bar items are present
  13. I verify the navigation to the Submit page and verify that user is landed on Submit page and all left toggle bar items are present
  14. Create a Quote for Sticky bar validation
  15. I verify the sticky bar is present in all the Select Plan page in the new quote creation journey
  16. I verify the sticky bar is present in all the Employees page in the new quote creation journey
  17. I verify the sticky bar is present in all the Company page in the new quote creation journey
  18. I verify the sticky bar is present in all the Submit page in the new quote creation journey
  19. verify toggle bar items are minimised when user opts to collapse the sidebar option
  20. Close Sales Portal
4. Verify login functionality with OTP to landing in the welcome page
  1. Verify static text and elements on Login page Sales Portal
  2. Sales Portal Login Page fields error message validation "Invalid email format and password"
  3. Sales Portal Login Page fields error message validation "Blank email and Password"
  4. Sales Portal Login Page fields error message validation "Registered email and blank password"

## Detailed Results Report

Feature: Verify agent registration workflow	
Passed: 16	
	Scenario: verify default and sample text on agent registration page
	Passed: 16
	Before
	Given I assign <code>"/testdata/\${sales.fe.lbu}/bulk_user_upload"</code> to variable <code>"testdata.path"</code>
	<div>Output</div> <div> <p>Assigning value <code>/testdata/my/bulk_user_upload</code> to variable <code>testdata.path</code></p> </div>
	And I assign <code>"\${testdata.path}/input/AgentReg_Template.csv"</code> to variable <code>"INPUT_PATH"</code>
	<div>Output</div> <div></div>

Assigning value /testdata/my/bulk\_user\_upload/input/AgentReg\_Template.csv to variable INPUT\_PATH

**And I assign "\${testdata.path}/output/Users.csv" to variable "OUTPUT\_PATH"**

**Output**

Assigning value /testdata/my/bulk\_user\_upload/output/Users.csv to variable OUTPUT\_PATH

**And I generate random number and assign to variable "RANDOM\_NUMBER"**

**Output**

Random number generated is :416

**And I copy the csv template "\${INPUT\_PATH}" and replace following variables in output path "\$**

agent.Email	taf-\${RANDOM_NUMBER}@mailinator.com
-------------	--------------------------------------

**And I assign value to following variables**

GROUP_ID	\${group.id}
----------	--------------

**And I upload the csv file "\${OUTPUT\_PATH}" received from agent group "\${GROUP\_ID}" using**

**Then I verify File is uploaded successfully**

**Then I verify for below email content is matching with "/testdata/\${sales.fe.lbu}/email\_template/ag**

EMAIL_SUBJECT	\${register.email.subject}
EMAIL_FROM	\${register.email.from}
EMAIL_TO	\${agent.Email}

**Output**

Mailinator url is https://www.mailinator.com/v3/index.jsp?zone=public&query=taf-4162702629

Expected email content Welcome to the team

Hi Test,

A warm welcome from the Prudential Enterprise Business team. You are 2 steps away from completing your account.

Please click on the below link and follow the instructions to create your account password. This link expires after 24 hours.

Actual email content Welcome to the team

Hi Test,

A warm welcome from the Prudential Enterprise Business team. You are 2 steps away from completing your account.

Please click on the below link and follow the instructions to create your account password. This link expires after 24 hours.

Create Password

Warm Regards,

Prudential

**\*\*Please note that this is a system generated email, please do not reply\*\***

And I close sales portal

And I launch the agent registration URL

Output

https://uat-sales.eb.prudential.com.my/identity/register/eyJhbGciOiJIUzI1NiJ9.eyJzdWIiOiJhY3RpdmF0aW9ubGluayIsInRlbG

Then I verify following text is displayed on "Agent Registration" page

`${agent.registration.text}`

`${agent.password.rule.text}`

Then verify Welcome text "Welcome `${agent.Email}`" on agent registration page

And I verify field label text on "Agent Registration" page

`${agent.create.password.text}`

`${agent.confirm.password.text}`

Then I verify next button text

And I verify next button is disabled

After

[Back to Table of Contents](#)

Scenario Outline: Invalid password check on agent registration page

Passed: 2

Before

When I enter "Agent" password in create password field

Then I verify "`${agent.password.rule.text}`" validation error message is highlighted

After

[Back to Table of Contents](#)

Scenario Outline: Invalid password check on agent registration page

Passed: 2

Before

When I enter "1234567#" password in create password field

Then I verify "`${agent.password.rule.text}`" validation error message is highlighted

After

[Back to Table of Contents](#)

Scenario Outline: Invalid password check on agent registration page

Passed: 2

Before

When I enter "AGENT@1234" password in create password field

Then I verify "`${agent.password.rule.text}`" validation error message is highlighted

After

When I enter "Agent123666666777777777Agent123444444444444444442" password in new pas

Then I verify "\${new.password.field.length.validation}" validation error message is highlighted

Then I verify "\${save.button.text}" button is "disabled"

After

[Back to Table of Contents](#)

Scenario: New password and confirm your password mismatch check on profile page

Passed: 4

Before

When I enter "Agent1234" password in new password field

And I enter "Agent3456" password in confirm your password field

Then I verify "The passwords entered do not match, please try again" validation error message is

Then I verify "\${save.button.text}" button is "disabled"

After

[Back to Table of Contents](#)

Scenario: Validate mask and unmask functionality for current,new and confirm password field

Passed: 9

Before

And I verify the Current Password entered is masked

When I click on the eye icon for current Password field

Then I validate the current password should display without encrypted

And I verify the New Password entered is masked

When I click on the eye icon for new Password field

Then I validate the new password should display without encrypted

And I verify the Confirm Password entered is masked

When I click on the eye icon for confirm your Password field

Then I validate the confirm your password should display without encrypted

After

[Back to Table of Contents](#)

Scenario Outline: **verify that the save button is enabled only when agent entered the correct current,r**

Passed: 4

Before

Given I enter "\${AGENT_PASSWORD}" password in current password field
When I enter "Agent" password in new password field
And I enter "Agent" password in confirm your password field
Then I verify "\${save.button.text}" button is "disabled"

After

[Back to Table of Contents](#)

Scenario Outline: **verify that the save button is enabled only when agent entered the correct current,r**

Passed: 4

Before

Given I enter "" password in current password field
When I enter "Agent123" password in new password field
And I enter "" password in confirm your password field
Then I verify "\${save.button.text}" button is "disabled"

After

[Back to Table of Contents](#)

Scenario Outline: **verify that the save button is enabled only when agent entered the correct current,r**

Passed: 4

Before

Given I enter "wrong@Password1" password in current password field
When I enter "Agent123" password in new password field
And I enter "Agent" password in confirm your password field
Then I verify "\${save.button.text}" button is "disabled"

After

[Back to Table of Contents](#)

Scenario Outline: **verify that the save button is enabled only when agent entered the correct current,r**

Passed: 4

Before

Given I enter "testing" password in current password field
When I enter "" password in new password field
And I enter "Agent123" password in confirm your password field
Then I verify "\${save.button.text}" button is "disabled"

After

[Back to Table of Contents](#)

Scenario: **verify Agent should be able to change the password for sales portal**

Passed: 10

Before

Given I assign "Agent124" to variable "AGENT_NEW_PASSWORD"
--

Output

Assigning value Agent124 to variable AGENT\_NEW\_PASSWORD

Then I enter "\${AGENT\_PASSWORD}" password in current password field

When I enter "\${AGENT\_NEW\_PASSWORD}" password in new password field

And I enter "\${AGENT\_NEW\_PASSWORD}" password in confirm your password field

Then I verify "\${save.button.text}" button is "enabled"

And I click on "\${save.button.text}" button

And I wait for 5 sec

Then I verify following text is displayed on "popup window on profile" page

`${agent.change.password.confirmation.text}`

Then I verify following buttons are displayed on "change password confirmation popup"

`${close.button}`

Then I click on "\${close.button}" button

After

[Back to Table of Contents](#)

Scenario Outline: Verify Agent should be able to reset the password back to Agent123 after 5 update

Passed: 6

Before

Given I assign "Agent125" to variable "AGENT\_NEW\_PASSWORD"

Output

Assigning value Agent125 to variable AGENT\_NEW\_PASSWORD

Then I enter "Agent124" password in current password field

When I enter "\${AGENT\_NEW\_PASSWORD}" password in new password field

And I enter "\${AGENT\_NEW\_PASSWORD}" password in confirm your password field

And I click on "\${save.button.text}" button

Then I click on "\${close.button}" button

After

[Back to Table of Contents](#)

Scenario Outline: Verify Agent should be able to reset the password back to Agent123 after 5 update

Passed: 6

Before

Given I assign "Agent126" to variable "AGENT\_NEW\_PASSWORD"

Output

Assigning value Agent126 to variable AGENT\_NEW\_PASSWORD

Then I enter "Agent125" password in current password field

When I enter "\${AGENT\_NEW\_PASSWORD}" password in new password field  
 And I enter "\${AGENT\_NEW\_PASSWORD}" password in confirm your password field  
 And I click on "\${save.button.text}" button  
 Then I click on "\${close.button}" button

After

[Back to Table of Contents](#)

Scenario Outline: **Verify Agent should be able to reset the password back to Agent123 after 5 update**

Passed: 6

Before

Given I assign "Agent127" to variable "AGENT\_NEW\_PASSWORD"

Output

Assigning value Agent127 to variable AGENT\_NEW\_PASSWORD

Then I enter "Agent126" password in current password field  
 When I enter "\${AGENT\_NEW\_PASSWORD}" password in new password field  
 And I enter "\${AGENT\_NEW\_PASSWORD}" password in confirm your password field  
 And I click on "\${save.button.text}" button  
 Then I click on "\${close.button}" button

After

[Back to Table of Contents](#)

Scenario Outline: **Verify Agent should be able to reset the password back to Agent123 after 5 update**

Passed: 6

Before

Given I assign "Agent128" to variable "AGENT\_NEW\_PASSWORD"

Output

Assigning value Agent128 to variable AGENT\_NEW\_PASSWORD

Then I enter "Agent127" password in current password field  
 When I enter "\${AGENT\_NEW\_PASSWORD}" password in new password field  
 And I enter "\${AGENT\_NEW\_PASSWORD}" password in confirm your password field  
 And I click on "\${save.button.text}" button  
 Then I click on "\${close.button}" button

After

[Back to Table of Contents](#)

Scenario Outline: **Verify Agent should be able to reset the password back to Agent123 after 5 update**

Passed: 6

Before

Given I assign "Agent129" to variable "AGENT\_NEW\_PASSWORD"

**Output**

Assigning value Agent129 to variable AGENT\_NEW\_PASSWORD

Then I enter "Agent128" password in current password field

When I enter "\${AGENT\_NEW\_PASSWORD}" password in new password field

And I enter "\${AGENT\_NEW\_PASSWORD}" password in confirm your password field

And I click on "\${save.button.text}" button

Then I click on "\${close.button}" button

**After**

[Back to Table of Contents](#)

**Scenario Outline: Verify Agent should be able to reset the password back to Agent123 after 5 update**

Passed: 6

**Before**

**Given I assign "Agent123" to variable "AGENT\_NEW\_PASSWORD"**

**Output**

Assigning value Agent123 to variable AGENT\_NEW\_PASSWORD

Then I enter "Agent129" password in current password field

When I enter "\${AGENT\_NEW\_PASSWORD}" password in new password field

And I enter "\${AGENT\_NEW\_PASSWORD}" password in confirm your password field

And I click on "\${save.button.text}" button

Then I click on "\${close.button}" button

**After**

[Back to Table of Contents](#)

**Scenario: verify Agent should be able to logout and Login back with the updated password**

Passed: 6

**Before**

When I Logout of the sales portal

When I Login to Sales Portal with below details

UserName	\${AGENT_EMAIL_ID}
----------	--------------------

Password	\${agent.password}
----------	--------------------

And I enter the verification code if page appears for agent "\${AGENT\_EMAIL\_ID}"

Then I verify "\${welcome.to.prudential}" screen is displayed

Then I click on "Agent Profile" Link

And verify the user is landed on "Agent Profile" page

**After**

[Back to Table of Contents](#)

**Scenario: Close from Sales Portal**

Passed: 1

Before

And I close sales portal

After

[Back to Table of Contents](#)**Feature: Verify select plan page functionality**

Passed: 16

**Scenario: Launch Sales application for PAMB**

Passed: 5

Before

Given Launch sales portal

Output

<https://uat-sales.eb.prudential.com.my/>

And I assign value to following variables

Agent_Email	\${agent.email.id.global}
Agent_Password	\${agent.password}

When I Login to Sales Portal with below details

UserName	\${Agent_Email}
Password	\${Agent_Password}

And I enter the verification code if page appears for agent "\${Agent\_Email}"

Then I verify "\${welcome.to.prudential}" screen is displayed

After

[Back to Table of Contents](#)**Scenario: verify static and sample text on company and category section on select plan page**

Passed: 11

Before

Given I click on Create Quote Link

Then verify the user is landed on "Select Plan" page

And I verify following text is displayed on "Select plan Page" page

\${estimatedAnnualPremium.button.text}
\${newQuote.static.text}

And I verify the h2 header text is displayed on "Select plan" page

\${select.plan.group.coverage.ghs.text}
\${select.group.plan.static.text}

And I verify following static text on "Select plan" page

\${select.plan.group.coverage.gtl.text}
\${select.plan.group.coverage.gtl.death.text}
\${select.plan.group.coverage.gtl.tpd.text}
\${select.plan.gtl.gadd.text}

And I verify following paragraph is displayed on "Select Plan" page

<code>\${select.plan.group.ghs.confirm.text}</code>
---

Then I verify following buttons are displayed on "Select Plan page"

<code>\${saveQuote.button.text}</code>
<code>\${premiumandbenefit.button.text}</code>
<code>\${selectplan.ghs.yes.button}</code>
<code>\${selectplan.ghs.no.button}</code>

Then I verify field label text on "Select Plan" page

<code>\${numOfEmp.field.label.text}</code>
<code>\${selectCoverageStartDate.field.label.text}</code>

Then I verify the presence of following items on page footer

<code>\${next.button.text}</code>
-----------------------------------

Then I verify "`${previous.button.text}`" button should not be visible on "select plan page footer"

Then I verify the sample text of following fields on select plan page

Select coverage date	<code>\${coverageDate.default.value}</code>
Number of Members	

After

[Back to Table of Contents](#)

Scenario: Verify optional plan GHS is not selected by default

Passed: 2

Before

Then I verify following buttons are displayed and enabled

<code>\${selectplan.ghs.yes.button}</code>
<code>\${selectplan.ghs.no.button}</code>

And I verify selection status of following buttons are "not selected"

<code>\${selectplan.ghs.yes.button}</code>
<code>\${selectplan.ghs.no.button}</code>

After

[Back to Table of Contents](#)

Scenario: Verify the validation when user saves the quote without entering the Mandatory fields

Passed: 2

Before

Given I click on "`${saveQuote.button.text}`" button

Then I verify following validation message on "Select plan page"

<code>\${validationMessage.company.name}</code>
<code>\${emp.bulk.upload.error.empcount.message}</code>
<code>\${validationMessage.ghs.button}</code>

After

[Back to Table of Contents](#)

Scenario: Verify Next button validation message without entering any values

Passed: 5

Before

Given I click on "\${next.button.text}" button

Then I verify following validation message on "Select plan page"

`${validationMessage.ghs.button}`

And I click on PAMB GHS "\${selectplan.ghs.yes.button}" button

Given I click on "\${next.button.text}" button

Then I verify following text is displayed on "Select Plan" page

`${selectplan.error.num.employee}`

After

[Back to Table of Contents](#)

Scenario: **verify that the coverage date should be current date by default**

Passed: 2

Before

Given I generate "current date" and assign to variable "current date" in "dd/MM/yyyy" format

Then I verify the sample text of following fields on select plan page

Select Coverage Date `${current date}`

After

[Back to Table of Contents](#)

Scenario: **verify the coverage date should set to current date if Agent input past date in text field**

Passed: 2

Before

Then I generate "current date" and assign to variable "current date" in "dd/MM/yyyy" format

And I calculate "-31d" from current date in "dd/MM/yyyy" format and assign to variable "past d

Then I enter following details on select plan page

Select Coverage Date `${past date}`

And I assign "/testdata/\${sales.fe.lbu}/bulk\_upload\_employee" to variable "testdata.path"

Output

Assigning value /testdata/my/bulk\_upload\_employee to variable testdata.path

Then I assign "employee\_CorrectData.xlsm" to variable "FILE\_NAME"

Output

Assigning value employee\_CorrectData.xlsm to variable FILE\_NAME

Then I upload the employee csv file "\${testdata.path}/003/\${FILE\_NAME}"

And I wait for 10 sec

And I verify the "\${employee.upload.success.msg}" validation message on employee screen

And I scroll the page up

Then I click on "\${addEmployeeManually.button.text}" button

Then I verify "\${employee.addemp.modal.title}" modal comes up

And I generate random number and assign to variable "RANDOM\_NUMBER"

Output

Random number generated is :549

And I assign value to following variables

Employee First Name	Employee One
Employee Surname	Sur.name
Date of Birth	01/01/1995
Gender	\${gender.female.text}
Email Address	testuser_\${RANDOM_NUMBER}@test.com
Coverage Start Date	\${COVERAGE_DATE}
NRIC no.	123456789102
Address 1	Test Address1
Address 2	Test Address2
Address 3	Test Address3
Address 4	Test Address4
State	\${state.dropdown.value.2}
City	Test City
Post Code	54787

Given I enter following details on "Add Employee" screen

First Name	\${Employee First Name}
Surname	\${Employee Surname}
Date of Birth	\${Date of Birth}
Gender	\${Gender}
Email Address	\${Email Address}
Coverage Start Date	\${Coverage Start Date}
NRIC no.	\${NRIC no.}
Address 1	\${Address 1}
Address 2	\${Address 2}
Address 3	\${Address 3}
Address 4	\${Address 4}
State	\${State}
City	\${City}
Post Code	\${Post Code}

And I assign "\${Employee First Name} \${Employee Surname}" to variable "Employee Full Name"

Output

Assigning value Employee One Sur.name to variable Employee Full Name

Then I scroll the page up

And I click on "\${employee.addemp.saveandnew}" button

Then I click on "\${employee.addemp.close}" button

Then verify the user is landed on "Members" page

Then I assign value to following variables

EMP_COUNT	11
-----------	----

And I scroll the page up

Then I verify following counts are displayed for employee and dependant on employee page

Employee Count	\${employee.uploaded.count}
----------------	-----------------------------

Then I enter "\${Employee Full Name}" in search text field in Members page

Then I scroll to the end of page

Then I verify following information is displayed for member "\${Employee Full Name}" in member

\${employee.detail.name}	\${Employee Full Name}
\${employee.detail.startdate}	\${COVERAGE_DATE}

When I expand the member "\${Employee Full Name}" using > button

And I verify following details for the added/updated members

\${employee.addemp.field.dob}	\${Date of Birth}
\${employee.addemp.field.gender}	\${Gender}
\${employee.addemp.field.nationality}	\${Nationality}
\${employee.detailsview.field.empid}	\${NRIC no.}
\${employee.addemp.field.occupationclass}	\${Occupational Class}
\${employee.addemp.field.cmpnyemail}	\${Email Address}

Then I navigate to "Select Plan" screen

Then I verify the sample text of following fields on select plan page

Number of Members	11
-------------------	----

After

[Back to Table of Contents](#)

Scenario: Verify the email duplicate check is present while adding same email for employees manually

Passed: 13

Before

Given I navigate to "Members" screen

And I scroll the page up

And I click on "\${addEmployeeManually.button.text}" button

And I verify "\${employee.addemp.modal.title}" modal comes up

Then I enter following details on "Add Employee" screen

Email Address	\${hr.admin.id}
---------------	-----------------

And I click on "\${employee.addemp.saveandnew}" button

When I verify the error message on "Add Employee modal"

\${employee.addemp.field.cmpnyemail}	\${emp.bulk.upload.error.email.exist}
--------------------------------------	---------------------------------------

**Output**

Checking validation message for Email Address

**Then I enter following details on "Add Employee" screen**

**Email Address** `${Email Address}`

**And I click on "\${employee.addemp.saveandnew}" button**

**And I wait for 2 sec**

**When I verify the error message on "Add Employee modal"**

`${employee.addemp.field.cmpnyemail}` `${emp.bulk.upload.error.email.exist}`

**Output**

Checking validation message for Email Address

**And I click on "\${employee.addemp.close}" button**

**And verify the user is landed on "Members" page**

**After**

[Back to Table of Contents](#)

**Scenario: Verify the presence of the Search field**

Assigning value /src/test/resources/testdata/my/bulk\_upload\_employee/quotes to variable testdata.path

**And I assign "\${testdata.path}/uploadEmployees.xlsm" to variable "INPUT\_PATH"**

**Output**

Assigning value /src/test/resources/testdata/my/bulk\_upload\_employee/quotes/uploadEmployees.xlsm to variable INPUT\_PATH

**And I assign "\${testdata.path}/output" to variable "OUTPUT\_PATH"**

**Output**

Assigning value /src/test/resources/testdata/my/bulk\_upload\_employee/quotes/output to variable OUTPUT\_PATH

**And I assign "/testdata/\${sales.fe.lbu}/bulk\_upload\_employee/quotes/output/uploadEmployees.xlsm" to variable EMPLOYEE\_FILE**

**Output**

Assigning value /testdata/my/bulk\_upload\_employee/quotes/output/uploadEmployees.xlsm to variable EMPLOYEE\_FILE

**When I copy the xls template "\${INPUT\_PATH}" and replace following variables in output path "**

email.id	\${RANDOM_NUMBER}
COMP_NAME	\${COMP_NAME_DENIED}

**When I click on Quotes link**

**When I click on Create Quote Link**

**Then I navigate to "Select Plan" screen**

**And I click on PAMB GHS "\${selectplan.ghs.yes.button}" button**

**And I enter following details on select plan page**

Company Name	\${COMP_NAME_DENIED}
No. of Employees	10

**And I click on "\${next.button.text}" button**

**And I select the PDPA Consent requirement check box**

And I upload the employee csv file "\${EMPLOYEE\_FILE}"

And I wait for 5 sec

And I click on "\${next.button.text}" button

Then I enter following details on company page

HR Given Name	TestGivenName
Surname	TestSurName
Contact Email	primarycontact3-\${email.id}@mailinator.com
HR Contact Phone Number	0275109628
Company Registration Number	123456789876
Contact Fax Number	1234567898
Address1	#02-2b,XYZ Bld
Address2	test address line 1
City	test City
State	\${state.dropdown.value.2}
Postcode	25415
Authorised Signatory Name	authorisedName One
Authorised Signatory Title	authorisedTitle One

And I click on next button "\${next.button.text}" for company page

And I wait for 3 sec

And I assign "/testdata/\${sales.fe.lbu}/submit\_document" to variable "testdata.path"

#### Output

Assigning value /testdata/my/submit\_document to variable testdata.path

When I click on Bank Transfer button

And I upload the payment proof file "\${testdata.path}/Articles\_Bylaws.png"

And I wait for 6 sec

And I upload the copy NRIC file "\${testdata.path}/Articles\_Bylaws.png"

And I wait for 6 sec

And I upload the Authorised Signatory file "\${testdata.path}/Articles\_Bylaws.png"

And I wait for 6 sec

And I upload the direct credit file "\${testdata.path}/Articles\_Bylaws.png"

And I wait for 6 sec

And I upload the Form 49 file "\${testdata.path}/Articles\_Bylaws.png"

And I wait for 6 sec

And I upload the Form 24 file "\${testdata.path}/Articles\_Bylaws.png"

And I wait for 6 sec

And I upload the Form 8 file "\${testdata.path}/Articles\_Bylaws.png"

And I wait for 6 sec

And I upload the Signed Proposal file "\${testdata.path}/Signed\_Proposal.png"

And I wait for 6 sec

When I click on the Confirm and Submit button

And I click on "\${submit.confirmandsubmit.confirm.btn}" button

And I wait for 3 sec

Then I verify following static text on "Quote Submission" page

Quote Submitted
-----------------

When I click on Quotes link

And I wait for 5 sec

When I enter "\${COMP\_NAME\_DENIED}" in search text field in Quotes page

Then I get the reference number for searched quote in variable "REF\_NUMBER"

Output

Reference number is: PAMBWV8MHU

Then I verify following information is displayed for company "\${COMP\_NAME\_DENIED}" in quotes

Reference Number	not null
Quote Status	Submitted

Given I assign "\${REF\_NUMBER}\_\${COMP\_NAME\_DENIED}\_QUOTATION.xlsx" to variable

Output

Assigning value PAMBWV8MHU\_TestDenied\_7942702625\_QUOTATION.xlsx to variable AZURE\_FILE\_NAME\_QUOTE

And I assign "\${azure.storage.folder.submitted.quotation}/\${REF\_NUMBER}\_\${COMP\_NAME\_DENIED}" to variable

Output

Assigning value 1\_Submitted\_Quotations/PAMBWV8MHU\_TestDenied\_7942702625 to variable AZURE\_SRC\_FOLDER\_NAME

And I assign "\${azure.storage.folder.ready.inforce.quotation}" to variable "AZURE\_DEST\_FOLDER\_NAME"

Output

Assigning value 2\_Quotations\_Ready\_for\_Processing to variable AZURE\_DEST\_FOLDER\_NAME

And I assign the downloaded file "\${AZURE\_FILE\_NAME\_QUOTE}" to variable "DOWNLOADED\_FILE\_PATH\_QUOTE"

And I delete the downloaded file "\${DOWNLOADED\_FILE\_PATH\_QUOTE}" if it already exists

When I download azure storage file "\${AZURE\_FILE\_NAME\_QUOTE}" from storage folder "\${AZURE\_SRC\_FOLDER\_NAME}"

Output

Azure storage file name is PAMBWV8MHU\_TestDenied\_7942702625\_QUOTATION.xlsx

Azure storage folder name is 1\_Submitted\_Quotations/PAMBWV8MHU\_TestDenied\_7942702625

File Download Path is /tmp/workspace/me-sales-portal-ui-tests\_develop/PAMBWV8MHU\_TestDenied\_7942702625\_QUOTATION.xlsx

**Then I verify downloaded file name is "\${DOWNLOADED\_FILE\_PATH\_QUOTE}"**

**Output**

Downloaded file name=/tmp/workspace/me-sales-portal-ui-tests\_develop/PAMBWV8MHU\_TestDenied\_7942702625\_QUOTA

**When I write to excel file "\${DOWNLOADED\_FILE\_PATH\_QUOTE}" into below rows for column**

**Policy Status** **REJECTED**

**And I upload local file "\${AZURE\_FILE\_NAME\_QUOTE}" to storage folder "\${AZURE\_DESTINATION\_FOLDER}"**

**Output**

Azure storage file name is PAMBWV8MHU\_TestDenied\_7942702625\_QUOTATION.xlsx

Azure storage folder name is 2\_Quotations\_Ready\_for\_Processing

File upload Path is /tmp/workspace/me-sales-portal-ui-tests\_develop/PAMBWV8MHU\_TestDenied\_7942702625\_QUOTATION

**Then I wait for storage file "\${AZURE\_FILE\_NAME\_QUOTE}" to be processed from storage folder**

**Output**

Azure storage file name is PAMBWV8MHU\_TestDenied\_7942702625\_QUOTATION.xlsx

Azure storage folder name is 2\_Quotations\_Ready\_for\_Processing

[Back to Table of Contents](#)
**Scenario Outline: Quote Action item Export PDF : "Verify quote is exported to PDF for Submitted q**

Passed: 19

## Before

**Given I assign "/testdata/\${sales.fe.lbu}/ExportQuote" to variable "testdata.path"**

Output

Assigning value /testdata/my/ExportQuote to variable testdata.path

**And I assign "LifePlan.txt" to variable "FILE\_NAME"**

Output

Assigning value LifePlan.txt to variable FILE\_NAME

**And I wait for 6 sec**
**And I click on Quotes link**
**And I scroll the page up**
**And I clear all filter options**
**And I select "\${quote.filter.option.submitted}" filter option in Quotes page**
**Given I delete the downloaded file "\${EXPORT\_QUOTE\_PATH}" if it already exists**
**When I enter "\${COMP\_NAME\_SUBMITTED}" in search text field in Quotes page**
**Then I wait for 4 sec**
**Then I get the reference number for searched quote in variable "REF\_NUMBER"**

Output

Reference number is: PAMBYCSVV7

**And I assign "\${COMP\_NAME\_SUBMITTED}\_\${REF\_NUMBER}\_\${FILE\_GENERATION\_DA**

Output

Assigning value TestSub\_47827026219\_PAMBYCSVV7\_20210227.pdf to variable DOWNLOADED\_FILENAME

Given I assign the downloaded file "\${DOWNLOADED\_FILENAME}" to variable "EXPORT\_Q

And I assign value to following variables

COMPANY_NAME	\${COMP_NAME_SUBMITTED}
QUOTE_REF	\${REF_NUMBER}
EFFECTIVE_DATE	\${PDF_GENERATION_DATE_1}
PDF_GENERATION_DATE	\${PDF_GENERATION_DATE_1}

And I click on Action button next to searched quote

And I select "\${quote.action.export.pdf}" option from Action menu

And I wait for 12 sec

And I unselect "\${quote.filter.option.submitted}" filter option in Quotes page

Then I verify downloaded file name is "\${EXPORT\_QUOTE\_PATH}"

Output

Downloaded file name=/tmp/workspace/me-sales-portal-ui-tests\_develop/TestSub\_47827026219\_PAMBYCSVV7\_20210227.p

https://uat-sales.eb.prudential.com.my/

And I assign value to following variables

Agent_Email	\${agent.email.id.global}
Agent_Password	\${agent.password}
Agent_ID	\${agent.email.id.agentcode}

When I Login to Sales Portal with below details

UserName	\${Agent_Email}
Password	\${Agent_Password}

And I enter the verification code if page appears for agent "\${Agent\_Email}"

Then I verify "\${welcome.to.prudential}" screen is displayed

After

[Back to Table of Contents](#)**Scenario: Assign value to variables and enter details on select plan page**

Passed: 7

Before

Given I assign "/testdata/my/ExportQuote" to variable "testdata.path"

Output

Assigning value /testdata/my/ExportQuote to variable testdata.path

**And I assign "GTL\_WithoutGHS.txt" to variable "FILE\_NAME"**

**Output**

Assigning value GTL\_WithoutGHS.txt to variable FILE\_NAME

**And I generate "current date" and assign to variable "PDF\_GENERATION\_DATE" in "yyyyMMdd"**

**And I generate "current date" and assign to variable "PDF\_GENERATION\_DATE\_1" in "dd/MM"**

**And I generate random number and assign to variable "RANDOM\_NUMBER"**

**Output**

Random number generated is :978

**And I assign "Gtl\_\${RANDOM\_NUMBER}" to variable "COMP\_NAME"**

**Output**

Assigning value Gtl\_97827027217 to variable COMP\_NAME

**And I generate "future date" and assign to variable "COVERAGE\_DATE" in "dd/MM/yyyy" for**

**After**

[Back to Table of Contents](#)

**Scenario: Select plan and category**

Passed: 4

**Before**

**When I click on Create Quote Link**

**Then verify the user is landed on "Select Plan" page**

**Then I enter following details on select plan page**

Company Name	\${COMP_NAME}
Select Coverage Date	\${COVERAGE_DATE}
No. of Employees	10

**And I click on PAMB GHS "\${selectplan.ghs.no.button}" button**

**After**

[Back to Table of Contents](#)

**Scenario: Save Quote and get reference number from Quotes screen**

Passed: 11

**Before**

And I click on "\${saveQuote.button.text}" button

And I get the estimated premium value displayed on select plan page and assign to variable "ESTI

Then I wait for 5 sec

When I click on Quotes link

And I enter "\${COMP\_NAME}" in search text field in Quotes page

Then I get the reference number for searched quote in variable "REF\_NUMBER"

Output

Reference number is: PAMBOR2AGT

And I click on Action button next to searched quote

And I select "\${quote.action.edit}" option from Action menu

And I assign "\${COMP\_NAME}\_\${REF\_NUMBER}\_\${PDF\_GENERATION\_DATE}.pdf" to va

Output

Assigning value Gtl\_97827027217\_PAMBOR2AGT\_20210227.pdf to variable DOWNLOADED\_FILENAME

Given I assign the downloaded file "\${DOWNLOADED\_FILENAME}" to variable "EXPORT\_Q

And I assign value to following variables

QUOTE_REF	\${REF_NUMBER}
TOTAL_PREMIUM_PER_YEAR	\${ESTIMATED_PREMIUM_VAL}

**After**

[Back to Table of Contents](#)

**Scenario Outline: Verify Export Quote is working in "Select Plan" page in sales Journey**

Passed: 6

**Before**

And I wait for 5 sec

Given I delete the downloaded file "\${EXPORT\_QUOTE\_PATH}" if it already exists

When I navigate to "Select Plan" screen

And I click on export quote button

And I wait for 15 sec

Then I verify downloaded file name is "\${EXPORT\_QUOTE\_PATH}"

Output

Downloaded file name=/tmp/workspace/me-sales-portal-ui-tests\_develop/Gtl\_97827027217\_PAMBOR2AGT\_20210227.pdf

And I verify downloaded PDF file "\${EXPORT\_QUOTE\_PATH}" should contain the values in fil
