Overall Duration: 2h 06m 26s

Table of Contents

1. Verify login functionality on One pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the Invalid Email id in login screen using "Continue with Email"
 4. Verify the User not registered email in login screen using "Continue with Email"
 5. User should be able to retrieve the reset password using forget password link
 6. Verify Account should be locked after entering more than 7 times incorrect passwords
 7. Verify the Login Functionality using "Continue with Facebook"
2. Verify registration functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. verify the field label on registration screen
 3. verify the validation message for mandatory fields
 4. verify validation message when user enters Invalid password: Pulse@1 on registration page
 5. verify validation message when user enters Invalid password: Pulse123 on registration page
 6. Verify the validation message when user enter already registered email id on registration page
 7. Verify the mobile number screen validation using "Continue with Email"
 8. Verify the Registration screen validation using "Continue with Email"
 9. Verify the resend OTP functionality on Enter OTP Screen using "Continue with Email"
3. Verify Edit Profile functionality on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Edit profile screen
 4. Verify User should be able to change the profile picture in edit profile screen
 5. Verify the email,country code and COR fields are non-editable in edit profile screen
 6. Verify user can able to change the details in edit profile screen
 7. Verify Details updated during pulse profile registration should be reflected in edit profile screen
 8. verify the user details should be correctly on babylon screen
 9. navigate back to health screen
4. Verify the Babylon Registration via HRA journey
 1. User should be able to Register for Babylon HRA
 2. User should be able to Register for Babylon HRA
5. Verify that user can locate near by Hospitals,clinics using PruShoppe Location feature
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"

3. User should be able to locate Hospitals using PruShoppe location
4. User can see details of listed hospitals in detail
5. User can see the details in speciality tab
6. User can see the details in doctor's tab
7. User can see the details in rooms tab
8. User can navigate out of the hospital details screen
9. User should be able to locate cli using PruShoppe location
10. User can verify the clinic page
11. User can view listed clinic details
12. User can view listed clinic info
13. User can view listed clinic info details
14. User can navigate back to clinics screen
6. Verify Medicine Reminder Positive Flow functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Verify User should be able to navigate to medical reminder page
 3. verify the static text on medicine reminder screen
 4. verify add medicine screen is launched and user can enter the required info on medical info screen
 5. verify user navigated to schedule screen and user can enter the required info
 6. Verify User should be able to navigate to More Setting page
 7. verify Add medicine screen is displayed when user click on add new reminder on success popup
 8. verify medicine reminder home screen is displayed when user click on not now button on success popup
 9. navigate to health screen
 10. Verify User should be able to navigate to calendar page
7. Verify MY Event channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify MyEvent Functionality in Home screen
 4. Verify Events Archive tab
 5. Verify Open Events tab
8. Verify My Health Content functionality on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Health page
 4. Verify User should be able to view the full page article post
 5. Verify User should be able to see the Like, Share, Comment options on full page article post
 6. Verify User should be able to Like the post in full article view screen
 7. Verify User should be able to Share the post in full article view screen
 8. Verify User can navigate to Health homepage
9. Verify Notification Center functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to notification screen via home screen
 3. Verify User should be able to see the Notification screen texts
 4. Then I navigate back to home screen from Notification Center
 5. Verify User should be able navigate to Notification Center via My account
 6. Verify User should be able to see the Notification screen texts

7. [Verify User should be able to login using already registered credentials](#)
8. [Verify User should be able navigate to Notification Center](#)
10. [Verify My Challenges on One Pulse App](#)
 1. [Launch the app and select the country as per specified Ibu](#)
 2. [User should be able to login on app with correct credentials using "Continue with Email"](#)
 3. [Verify My Challenges texts](#)
 4. [Click on All challenges and and verify texts](#)
11. [Verify My Communities on One Pluse App](#)
 1. [Launch the app and select the country as per specified Ibu](#)
 2. [User should be able to login on app with correct credentials using "Continue with Gmail"](#)
 3. [User should be able to login on app with correct credentials using "Continue with Email" and Verify the Mycommunities screen](#)
 4. [Leave the community if already joined](#)
 5. [Verify the All Communities Post screen](#)
 6. [Verify the Likes and comments counts in All communities tab](#)
 7. [Verify the Share with Friends Functionality in All communities tab](#)
 8. [Verify the Post Functionality in All communities](#)
 9. [Verify the Category list and search feature](#)
 10. [User navigates back to the community screen](#)
 11. [Leave the community if already joined](#)
12. [Verify Private My Communities on One Pulse App](#)
 1. [Launch the app and select the country as per specified Ibu](#)
 2. [User should be able to login on app with correct credentials using "Continue with Email"](#)
 3. [Verify the My communities screen](#)
 4. [Verify the Private Communities in communities screen](#)
13. [Verify MY Event channel functionality on one pulse App](#)
 1. [Launch the app and select the country as per specified Ibu](#)
 2. [login to the app with correct credentials using "Continue with Email"](#)
 3. [Verify MyEvent Functionality in Home screen](#)
 4. [Verify Events Archive tab](#)
 5. [Verify Open Events tab](#)
14. [Verify that user can view air quality details under My Environment screen](#)
 1. [Verify that user can view previous air quality details under My Environment Home page](#)
 2. [Verify that user can view Current air quality details under My Environment Home page](#)
 3. [Verify that user can view air quality details for next few days under My Environment Home page](#)
 4. [Verify that user can access and view Neighbourhood air quality details under My Environment Home page](#)
 5. [Verify that user can access and view Fires nearby under My Environment Home page](#)
 6. [Verify that user can view effects of the poor environment and upcoming activities under My Environment Home page](#)
15. [Verify the BabyLon HRA Report - Nutrition, Body, Activity](#)
 1. [Launch the app and select the country as per specified Ibu](#)
 2. [login to the app with correct credentials using "Continue with Email"](#)
 3. [User should be able to access Babylon Health Risk Assessment Report](#)
 4. [Verify the HRA Activity Summary](#)
 5. [Verify the HRA Activity Summary](#)
 6. [Verify the HRA Activity summary](#)
 7. [Verify the HRA Nutrition Report](#)
 8. [Verify the HRA Report - Keep It Up sub-section](#)
 9. [Verify the HRA Report - Make a Change sub-section](#)

10. User should be able to access Babylon HRA - Healthcheck - Body
11. navigate back to digital twin screen
12. User should be able to access Babylon HRA - Healthcheck - Nutrition
13. Navigate back to nutrition screen and validate the static text
14. navigate back to digital twin screen
15. User should be able to access Babylon HRA - Healthcheck - Activity
16. Navigate back to Activity screen and validate the static text
17. navigate back to digital twin screen
18. User should be able to access Babylon HRA - Healthcheck - Mood
19. navigate back to digital twin screen
16. Verify Dietician Negative Flow functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify User should be able to navigate to Dietician page
 3. Verify User should be able to navigate to specialisation page
 4. Verify User should be able to navigate to Educational Details page
17. Verify Dietician Positive Flow functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify User should be able to navigate to Dietician page
 3. Verify User should be able to navigate to specialisation page
 4. Verify User should be able to navigate to Educational Details page
 5. Verify User should be able to navigate to Services Offered page
 6. Verify User should be able to navigate to Seminar(s) Attended page
 7. Verify User should be able to navigate to Take a Picture page
 8. Verify User should be able to navigate to schedule Calendar page
18. Verify User should be able to Download as PDF Files & Validate the details in downloaded Mydoc Documents.
 1. Verify User should be able to navigate to Consultation Summary and see all available Files
 2. Verify User should be able to see the Referral,Prescription and eMC Documents
 3. Verify User should be able to download eMC Document
 4. Verify User should be able to verify the eMC details in downloaded PDF file
 5. Verify User should be able to download Prescription Document
 6. Verify User should be able to verify the Prescription details in downloaded PDF file
 7. Verify User should be able to download the Referral Document
 8. Verify User should be able to verify the Referral details in downloaded PDF file
19. Verify MyDoc doctor consultation Summary on Pulse Health & Wealth app
 1. Verify User should be able to navigate to Consultation Summary and see all available Files
 2. Verify User should be able to see the Referral,Prescription and eMC Documents
 3. Verify User should be presented with the Mydoc Chat bot questions log
 4. Verify User can able to chat with Mydoc Chat bot
 5. Verify User should be able to update the medical profile for registered user
 6. Verify User should be able to see the payment screen fields
 7. Verify User should be able to select payment with existing added card
 8. Verify User should be able to start online pre consultation
 9. Verify User should be able see the allocated doctor details
20. Verify MyDoc functionality on Pulse Health
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify the online consultation screen user fields
 3. Verify the online consultation screen user fields after swipe down
 4. Verify User should be able to enter address and zipcode
 5. Verify User should be able to upload NRIC Image in Online Consultation screen
 6. Verify User should be presented with the symptoms checker questions log

7. Verify User can able to chat with chatbot symptoms checker
8. Verify User should be presented with the sample text on the Medical Profile screen as a first time user
9. Verify User should be able to create the medical profile
10. Verify User should be able to see the payment screen fields
11. Verify User should be able enter the card details
12. Verify User should be able see the added card successfully
13. Verify User should be able to start online pre consultation
14. Verify User should be able see the allocated doctor details
21. Verify User should be able see all available documents in All My Files screen
 1. Verify User should be able to navigate to Consultation Summary and see all available Files
 2. Verify User should be able to see the Referral, Prescription and eMC Documents
22. Verify MyContent functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify User should be able to navigate to Health channel page
 3. Verify User should be able to Like the post
 4. Verify User should be able to Share the post
 5. Verify User should be able to Comment the post
 6. Verify User should be able to see the Like, Share, Comment options on full page article post
 7. Verify User should be able to Like the post- Full page article post
23. Verify that user can view his registered policies under My Policies
 1. Verify that No linked policies information message is displayed
24. Verify legal and legacy on One Pluse App
 1. User should be able to login on app with correct credentials using "Continue with Gmail"
 2. Verify the Terms and condition should be displayed
 3. Verify the Privacy screen should be displayed
 4. Verify the Regulator screen should be displayed
25. Verify MySettings functionality in Account screen
 1. User should be able to login on app with correct credentials using "Continue with Gmail"
 2. Verify the My Feedback screen in Account tab
 3. Verify the submit functionality in My feedback screen
 4. Verify the Pulse Personalised tab
 5. Verify the Marketing Consent in Account tab
26. Verify wealth channel functionality on one pulse App
 1. Verify User should be able to login using email account
 2. Verify User should be able to navigate to wealth page
 3. Verify User should be able to see the wealth screen options
 4. Verify User should be able to view the story post
 5. Verify User should be able to see the story post Like, Share, Comment options
 6. Verify User should be able to Like the post
 7. Verify User should be able to Share the post
 8. Verify User should be able to Comment the post
 9. Verify User should be able to view the full page article post
 10. Verify User should be able to see the Like, Share, Comment options on full page article post
 11. Verify User should be able to Like the post in full article view screen
 12. Verify User should be able to Share the post in full article view screen
 13. Verify User should be able to Comment the post in full article view screen
 14. Verify User can navigate to wealth homepage
27. Verify share with friends functionality in OnePulse app

1. [Launch the app and select the country as per specified lbu](#)
2. [login to the app with correct credentials using "Continue with Email"](#)
3. [Verify User should be able to share the link with Whatsapp](#)
4. [Verify User should be able to share the link with Contacts app](#)
5. [Verify User should be able to share the link with Messenger app](#)
6. [Verify User should be able to share the link with Viber app](#)
7. [Verify User should be able to share the link with Line app](#)

Detailed Results Report

Feature: Verify login functionality on One pulse App			
Passed: 4	Failed: 3	Undefined: 0	Duration: 404.95s
Scenario: Launch the app and select the country as per specified lbu			
Passed: 3	Failed: 1	Undefined: 4	Duration: 35.74s
Before			0.34s
Given User has pulse app			9.56s
And I assign "\${login.email.id}" to variable "PULSE_EMAIL"			0.01s
And user click on "CONTINUE WITH EMAIL" with Email button			10.28s
Then I change the country as required on registration page			15.55s

And I verify following texts are displayed	0.00s
What concerns or questions do you have for the doctor?	
Feverish	
How long has this been a concern?	
Couple of days	
Any further details you would like to add?	
Then verify user should be prompted to select No or Yes options to type further details	0.00s
Then I click on No button	0.00s
Then I wait for 5 sec	0.00s
And I verify following texts are displayed	0.00s
Please Note	
Make sure you are in an area where your device has good internet connectivity.	
Once the request for consultation is sent, it cannot be recalled or cancelled.	
The Average wait time for a consultation to start is 10-20 minutes.	
Please ensure that the notification function is switched on to ensure you get appointment confirmation, reminder and alerts from the doctor and medical concierge.	
Then I wait for 5 sec	0.00s
Then I click on submit button	0.00s
And I verify following texts are displayed	0.00s
Request sent! We will notify you when your doctor confirms the request.	

After	0.00s
