Table of Contents

1. Verify login functionality on One pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the Invalid Email id in login screen using "Continue with Email"
 4. Verify the User not registered email in login screen using "Continue with Email"
 5. User should be able to retrieve the reset password using forget password link
 6. Verify Account should be locked after entering more than 7 times incorrect passwords
 7. Verify the Login Functionality using "Continue with Facebook"
2. Verify registration functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. verify the field label on registration screen
 3. verify the validation message for mandatory fields
 4. verify validation message when user enters Invalid password: Pulse@1 on registration page
 5. verify validation message when user enters Invalid password: Pulse123 on registration page
 6. Verify the validation message when user enter already registered email id on registration page
 7. Verify the mobile number screen validation using "Continue with Email"
 8. Verify the Registration screen validation using "Continue with Email"
 9. Verify the resend OTP functionality on Enter OTP Screen using "Continue with Email"
3. Verify Edit Profile functionality on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Edit profile screen
 4. Verify User should be able to change the profile picture in edit profile screen
 5. Verify the email,country code and COR fields are non-editable in edit profile screen
 6. Verify user can able to change the details in edit profile screen
 7. Verify Details updated during pulse profile registration should be reflected in edit profile screen
 8. verify the user details should be correctly on babylon screen
 9. navigate back to health screen
4. Verify the Babylon Registration via HRA journey
 1. User should be able to Register for Babylon HRA
 2. User should be able to Register for Babylon HRA
5. Verify that user can locate near by Hospitals,clinics using PruShope Location feature
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"

3. User should be able to locate Hospitals using PruShoppe location
4. User can see details of listed hospitals in detail
5. User can see the details in speciality tab
6. User can see the details in doctor's tab
7. User can see the details in rooms tab
8. User can navigate out of the hospital details screen
9. User should be able to locate cli using PruShoppe location
10. User can verify the clinic page
11. User can view listed clinic details
12. User can view listed clinic info
13. User can view listed clinic info details
14. User can navigate back to clinics screen
6. Verify Medicine Reminder Positive Flow functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Verify User should be able to navigate to medical reminder page
 3. verify the static text on medicine reminder screen
 4. verify add medicine screen is launched and user can enter the required info on medical info screen
 5. verify user navigated to schedule screen and user can enter the required info
 6. Verify User should be able to navigate to More Setting page
 7. verify Add medicine screen is displayed when user click on add new reminder on success popup
 8. verify medicine reminder home screen is displayed when user click on not now button on success popup
 9. navigate to health screen
 10. Verify User should be able to navigate to calendar page
7. Verify MY Event channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify MyEvent Functionality in Home screen
 4. Verify Events Archive tab
 5. Verify Open Events tab
8. Verify My Health Content functionality on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Health page
 4. Verify User should be able to view the full page article post
 5. Verify User should be able to see the Like, Share, Comment options on full page article post
 6. Verify User should be able to Like the post in full article view screen
 7. Verify User should be able to Share the post in full article view screen
 8. Verify User can navigate to Health homepage
9. Verify Notification Center functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to notification screen via home screen
 3. Verify User should be able to see the Notification screen texts
 4. Then I navigate back to home screen from Notification Center
 5. Verify User should be able navigate to Notification Center via My account
 6. Verify User should be able to see the Notification screen texts

7. Verify User should be able to login using already registered credentials
8. Verify User should be able navigate to Notification Center
10. Verify My Challenges on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify My Challenges texts
 4. Click on All challenges and and verify texts
11. Verify My Communities on One Pluse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Gmail"
 3. User should be able to login on app with correct credentials using "Continue with Email" and Verify the Mycommunities screen
 4. Leave the community if already joined
 5. Verify the All Communities Post screen
 6. Verify the Likes and comments counts in All communities tab
 7. Verify the Share with Friends Functionality in All communities tab
 8. Verify the Post Functionality in All communities
 9. Verify the Category list and search feature
 10. User navigates back to the community screen
 11. Leave the community if already joined
12. Verify Private My Communities on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify the My communities screen
 4. Verify the Private Communities in communities screen
13. Verify that user can view air quality details under My Environment screen
 1. Verify that user can view previous air quality details under My Environment Home page
 2. Verify that user can view Current air quality details under My Environment Home page
 3. Verify that user can view air quality details for next few days under My Environment Home page
 4. Verify that user can access and view Neighbourhood air quality details under My Environment Home page
 5. Verify that user can access and view Fires nearby under My Environment Home page
 6. Verify that user can view effects of the poor environment and upcoming activities under My Environment Home page
14. Verify the BabyLon HRA Report - Nutrition, Body, Activity
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. User should be able to access Babylon Health Risk Assessment Report
 4. Verify the HRA Activity Summary
 5. Verify the HRA Activity Summary
 6. Verify the HRA Activity summary
 7. Verify the HRA Nutrition Report
 8. Verify the HRA Report - Keep It Up sub-section
 9. Verify the HRA Report - Make a Change sub-section
 10. User should be able to access Babylon HRA - Healthcheck - Body
 11. navigate back to digital twin screen
 12. User should be able to access Babylon HRA - Healthcheck - Nutrition
 13. Navigate back to nutrition screen and validate the static text
 14. navigate back to digital twin screen
 15. User should be able to access Babylon HRA - Healthcheck - Activity

16. Navigate back to Activity screen and validate the static text
17. navigate back to digital twin screen
18. User should be able to access Babylon HRA - Healthcheck - Mood
19. navigate back to digital twin screen
15. Verify Dietician Negative Flow functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify User should be able to navigate to Dietician page
 3. Verify User should be able to navigate to specialisation page
 4. Verify User should be able to navigate to Educational Details page
16. Verify Dietician Positive Flow functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify User should be able to navigate to Dietician page
 3. Verify User should be able to navigate to specialisation page
 4. Verify User should be able to navigate to Educational Details page
 5. Verify User should be able to navigate to Services Offered page
 6. Verify User should be able to navigate to Seminar(s) Attended page
 7. Verify User should be able to navigate to Take a Picture page
 8. Verify User should be able to navigate to schedule Calendar page
17. Verify User should be able to Download as PDF Files & Validate the details in downloaded Mydoc Documents.
 1. Verify User should be able to navigate to Consultation Summary and see all available Files
 2. Verify User should be able to see the Referral,Prescription and eMC Documents
 3. Verify User should be able to download eMC Document
 4. Verify User should be able to verify the eMC details in downloaded PDF file
 5. Verify User should be able to download Prescription Document
 6. Verify User should be able to verify the Prescription details in downloaded PDF file
 7. Verify User should be able to download the Referral Document
 8. Verify User should be able to verify the Referral details in downloaded PDF file
18. Verify MyDoc doctor consultation Summary on Pulse Health & Wealth app
 1. Verify User should be able to navigate to Consultation Summary and see all available Files
 2. Verify User should be able to see the Referral,Prescription and eMC Documents
 3. Verify User should be presented with the Mydoc Chat bot questions log
 4. Verify User can able to chat with Mydoc Chat bot
 5. Verify User should be able to update the medical profile for registered user
 6. Verify User should be able to see the payment screen fields
 7. Verify User should be able to select payment with existing added card
 8. Verify User should be able to start online pre consultation
 9. Verify User should be able see the allocated doctor details
19. Verify MyDoc functionality on Pulse Health
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify the online consultation screen user fields
 3. Verify the online consultation screen user fields after swipe down
 4. Verify User should be able to enter address and zipcode
 5. Verify User should be able to upload NRIC Image in Online Consultation screen
 6. Verify User should be presented with the symptoms checker questions log
 7. Verify User can able to chat with chatbot symptoms checker
 8. Verify User should be presented with the sample text on the Medical Profile screen as a first time user
 9. Verify User should be able to create the medical profile
 10. Verify User should be able to see the payment screen fields
 11. Verify User should be able enter the card details

12. Verify User should be able see the added card successfully
13. Verify User should be able to start online pre consultation
14. Verify User should be able see the allocated doctor details
20. Verify User should be able see all available documents in All My Files screen
 1. Verify User should be able to navigate to Consultation Summary and see all available Files
 2. Verify User should be able to see the Referral, Prescription and eMC Documents
21. Verify MyContent functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify User should be able to navigate to Health channel page
 3. Verify User should be able to Like the post
 4. Verify User should be able to Share the post
 5. Verify User should be able to Comment the post
 6. Verify User should be able to see the Like, Share, Comment options on full page article post
 7. Verify User should be able to Like the post- Full page article post
22. Verify that user can view his registered policies under My Policies
 1. Verify that No linked policies information message is displayed
23. Verify legal and legacy on One Pluse App
 1. User should be able to login on app with correct credentials using "Continue with Gmail"
 2. Verify the Terms and condition should be displayed
 3. Verify the Privacy screen should be displayed
 4. Verify the Regulator screen should be displayed
24. Verify MySettings functionality in Account screen
 1. User should be able to login on app with correct credentials using "Continue with Gmail"
 2. Verify the My Feedback screen in Account tab
 3. Verify the submit functionality in My feedback screen
 4. Verify the Pulse Personalised tab
 5. Verify the Marketing Consent in Account tab
25. Verify wealth channel functionality on one pulse App
 1. Verify User should be able to login using email account
 2. Verify User should be able to navigate to wealth page
 3. Verify User should be able to see the wealth screen options
 4. Verify User should be able to view the story post
 5. Verify User should be able to see the story post Like, Share, Comment options
 6. Verify User should be able to Like the post
 7. Verify User should be able to Share the post
 8. Verify User should be able to Comment the post
 9. Verify User should be able to view the full page article post
 10. Verify User should be able to see the Like, Share, Comment options on full page article post
 11. Verify User should be able to Like the post in full article view screen
 12. Verify User should be able to Share the post in full article view screen
 13. Verify User should be able to Comment the post in full article view screen
 14. Verify User can navigate to wealth homepage
26. Verify share with friends functionality in onepulse app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to share the link with Whatsapp
 4. Verify User should be able to share the link with Contacts app
 5. Verify User should be able to share the link with Messenger app
 6. Verify User should be able to share the link with Viber app

7. [Verify User should be able to share the link with Line app](#)

Detailed Results Report

Feature: Verify login functionality on One pulse App			
Passed: 5	Failed: 2	Undefined: 0	Duration: 462.65s
Scenario: Launch the app and select the country as per specified Ibu			
Passed: 8	Failed: 0	Undefined: 0	Duration: 34.29s
Before			0.10s
Given User has pulse app			9.09s
And I assign "\${login.email.id}" to variable "PULSE_EMAIL"			0.00s
And user click on "CONTINUE WITH EMAIL" with Email button			16.38s
Then I change the country as required on registration page			0.25s
Then I wait for 2 sec			2.01s
Then I change the language as required on registration page			0.00s
And I click the Sign in link			4.87s
Then I verify below language options on toggle bar as per specified Ibu on login page			1.59s
After			0.00s
Back to Table of Contents			
Scenario: login to the app with correct credentials using "Continue with Email"			
Passed: 6	Failed: 0	Undefined: 0	Duration: 61.57s
Before			0.00s
Given I select the language option on toggle bar as required on login page			2.22s
When user enters credentials			9.99s
UserName	\${PULSE_EMAIL}		
Password	\${login.password}		
And User clicks on signin button			0.23s
And I wait for 5 sec			5.00s
And I enter OTP in one pulse app for user email "\${PULSE_EMAIL}"			30.49s
Then user should be landed to "Home" screen			13.64s
After			0.00s
Back to Table of Contents			
Scenario: Verify the Invalid Email id in login screen using "Continue with Email"			
Passed: 15	Failed: 0	Undefined: 0	Duration: 53.23s
Before			0.00s
Given User has pulse app			8.44s
Then I wait for 2 sec			2.02s
And user click on "CONTINUE WITH EMAIL" with Email button			15.23s
Then I change the country as required on registration page			0.22s
Then I wait for 2 sec			2.01s
And I click the Sign in link			4.87s
Then I wait for 2 sec			2.01s

And I select the language option on toggle bar as required on login page	2.28s				
When user enters credentials	9.81s				
<table> <tr> <td>UserName</td><td>t@gmai</td></tr> <tr> <td>Password</td><td>Pas\$1234</td></tr> </table>	UserName	t@gmai	Password	Pas\$1234	
UserName	t@gmai				
Password	Pas\$1234				
And User clicks on signin button	0.23s				
Then verify invalid email message "Email is required"	0.70s				
Then User clicks on Forgot Password button	0.23s				
Then enter the email to request the new password	3.55s				
<table> <tr> <td>Email</td><td>t@gmai</td></tr> </table>	Email	t@gmai			
Email	t@gmai				
Then User clicks on Send button	0.77s				
Then verify invalid email message "\${email.invalid.text}"	0.86s				
After	0.00s				
Back to Table of Contents					
Scenario: Verify the User not registerd email in login screen using "Continue with Email"					
Passed: 17	Failed: 0				
Undefined: 0	Duration: 56.67s				
Before	0.00s				
Given I generate random number and assign to variable "RANDOM_NUMBER"	0.01s				
And I assign value to following variables	0.00s				
<table> <tr> <td>USER_NAME</td><td>taf-\${RANDOM_NUMBER}@mailinator.com</td></tr> <tr> <td>USER_PASSWORD</td><td>Pas\$1234</td></tr> </table>	USER_NAME	taf-\${RANDOM_NUMBER}@mailinator.com	USER_PASSWORD	Pas\$1234	
USER_NAME	taf-\${RANDOM_NUMBER}@mailinator.com				
USER_PASSWORD	Pas\$1234				
Given User has pulse app	8.27s				
And user click on "CONTINUE WITH EMAIL" with Email button	15.71s				
Then I change the country as required on registration page	0.19s				
Then I wait for 2 sec	2.00s				
And I click the Sign in link	4.86s				
Then I wait for 2 sec	2.00s				
And I select the language option on toggle bar as required on login page	2.28s				
When user enters credentials	9.84s				
<table> <tr> <td>UserName</td><td>\${USER_NAME}</td></tr> <tr> <td>Password</td><td>\${USER_PASSWORD}</td></tr> </table>	UserName	\${USER_NAME}	Password	\${USER_PASSWORD}	
UserName	\${USER_NAME}				
Password	\${USER_PASSWORD}				
And I scroll down	4.56s				
And User clicks on signin button	0.25s				
Then verify invalid email message "\${invalid.credential.message}"	1.04s				
Then User clicks on Forgot Password button	0.22s				
Then enter the email to request the new password	3.57s				
<table> <tr> <td>Email</td><td>\${USER_NAME}</td></tr> </table>	Email	\${USER_NAME}			
Email	\${USER_NAME}				
Then User clicks on Send button	0.73s				
Then verify invalid email message "\${invalid.credential.message}"	1.15s				
After	0.00s				
Back to Table of Contents					
Scenario: User should be able to retrieve the reset password using forget password link					
Passed: 7	Failed: 1				
Undefined: 0	Duration: 44.22s				

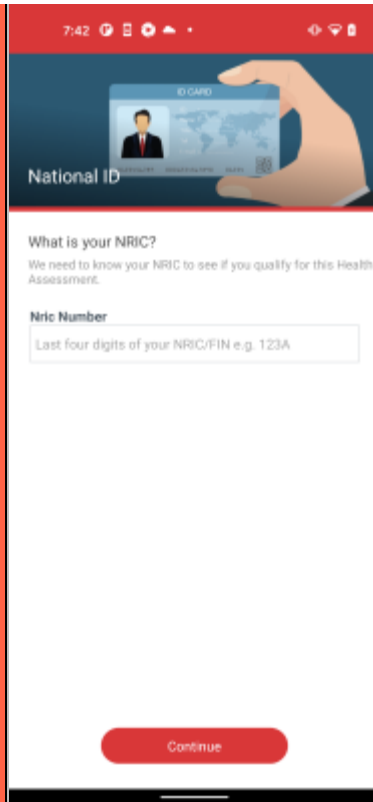

Before		0.00s
And I assign "\${forgot.password.email.id}" to variable "PULSE_EMAIL"		0.00s
Then enter the email to request the new password		3.13s
Email \${PULSE_EMAIL}		
Then User clicks on Send button		0.75s
And I read the otp for emailid "\${PULSE_EMAIL}" using mailsac api and store into a variable "EMAIL_OTP"		25.86s
Then I wait for 5 sec		5.02s
Then I enter "\${EMAIL_OTP}" reset code		1.46s
Then I wait for 5 sec		5.01s
Then Verify message: "\${password.reset.success.text}" for Reset Password		3.00s

The screenshot shows a mobile application interface titled "mydoc". It displays a "Medical Certificate" form. The form includes fields for Patient ID, Doctor ID, and Patient's Date of Birth. Below these fields, there is a section for "Patient Details" which lists the patient's name, gender, age, height, weight, blood pressure, heart rate, and temperature. There is also a section for "Doctor Details" listing the doctor's name, NRIC number, and registration number. At the bottom, there is a note about the certificate's validity period.

at .And I response to the pre consultation questions(features/sg/health/mydoc/MyDocEndToEndTest.feature:155)

And I verify following texts are displayed 0.00s

What concerns or questions do you have for the doctor?

Feverish

How long has this been a concern?

Couple of days

Any further details you would like to add?

Then verify user should be prompted to select No or Yes options to type further details 0.00s

Then I click on No button 0.00s

Then I wait for 5 sec 0.00s

And I verify following texts are displayed 0.00s

Please Note

Make sure you are in an area where your device has good internet connectivity.

Once the request for consultation is sent, it cannot be recalled or cancelled.

The Average wait time for a consultation to start is 10-20 minutes.

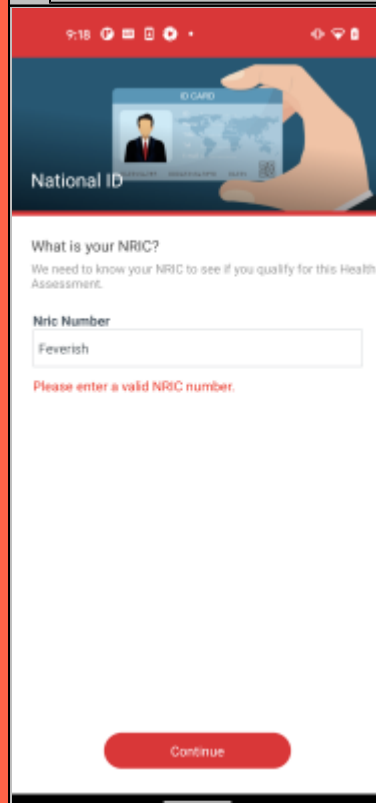

Please ensure that the notification function is switched on to ensure you get appointment confirmation, reminder and alerts from the doctor and medical concierge.

Then I wait for 5 sec 0.00s

Then I click on submit button 0.00s

And I verify following texts are displayed 0.00s

Request sent! We will notify you when your doctor confirms the request.

After 0.00s

Then I wait for 2 sec							2.00s
Then I change the country as required on registration page							0.26s
Then I wait for 5 sec							5.00s
When user enters registration details							7.89s
		FirstName	Diet				
		LastName	Test				
		Email	\${PULSE_EMAIL}				
		Password	Pas\$1234				
And taps on continue "Sign_Up" button							0.27s
Then I wait for 10 sec							10.01s
And I enter OTP in one pulse app for user email "\${PULSE_EMAIL}"							30.98s
Then I wait for 5 sec							5.00s
And I enter the "mobile number" in welcome to pulse							10.52s
		mobileNumber	98678419				
And I choose my wellness goals under wellness plan screen							8.19s
And I click the continue button							0.44s
And I click the date in Date of Birth field							5.91s
And I click the Done icon							0.28s
And I click the continue button							1.40s
And I select the Male icon							5.83s
And I click the continue button							1.57s
And I click on Calculate BMI button							7.78s
And I click the continue button							0.53s
And I select the "How active are you?" in doing exercise							8.72s
