Steps	1,100	63	0	17	1,180	93%

Overall Duration: 4h 16m 44s

Table of Contents

1. Verify login functionality on One pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the Invalid Email id in login screen using "Continue with Email"
 4. Verify the User not registered email in login screen using "Continue with Email"
 5. User should be able to retrieve the reset password using forget password link
 6. Verify Account should be locked after entering more than 7 times incorrect passwords
 7. Verify the Login Functionality using "Continue with Facebook"
2. Verify registration functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. verify the field label on registration screen
 3. verify the validation message for mandatory fields
 4. verify validation message when user enters Invalid password: Pulse@1 on registration page
 5. verify validation message when user enters Invalid password: Pulse123 on registration page
 6. Verify the validation message when user enter already registered email id on registration page
 7. Verify the mobile number screen validation using "Continue with Email"
 8. Verify the Registration screen validation using "Continue with Email"
 9. Verify the resend OTP functionality on Enter OTP Screen using "Continue with Email"
3. Verify Edit Profile functionality on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Edit profile screen
 4. Verify User should be able to change the profile picture in edit profile screen
 5. Verify the email,country code and COR fields are non-editable in edit profile screen
 6. Verify user can able to change the details in edit profile screen
 7. Verify Details updated during pulse profile registration should be reflected in edit profile screen
 8. verify the user details should be correctly on babylon screen
 9. navigate back to health screen
4. Verify the Babylon Registration via HRA journey
 1. User should be able to Register for Babylon HRA
 2. User should be able to Register for Babylon HRA
5. Verify that user can locate near by Hospitals,clinics using PruShope Location feature
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"

3. User should be able to locate Hospitals using PruShoppe location
4. User can see details of listed hospitals in detail
5. User can see the details in speciality tab
6. User can see the details in doctor's tab
7. User can see the details in rooms tab
8. User can navigate out of the hospital details screen
9. User should be able to locate cli using PruShoppe location
10. User can verify the clinic page
11. User can view listed clinic details
12. User can view listed clinic info
13. User can view listed clinic info details
14. User can navigate back to clinics screen
6. Verify Medicine Reminder Positive Flow functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Verify User should be able to navigate to medical reminder page
 3. verify the static text on medicine reminder screen
 4. verify add medicine screen is launched and user can enter the required info on medical info screen
 5. verify user navigated to schedule screen and user can enter the required info
 6. Verify User should be able to navigate to More Setting page
 7. verify Add medicine screen is displayed when user click on add new reminder on success popup
 8. verify medicine reminder home screen is displayed when user click on not now button on success popup
 9. navigate to health screen
 10. Verify User should be able to navigate to calendar page
7. Verify MY Event channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify MyEvent Functionality in Home screen
 4. Verify Events Archive tab
 5. Verify Open Events tab
8. Verify My Health Content functionality on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Health page
 4. Verify User should be able to view the full page article post
 5. Verify User should be able to see the Like, Share, Comment options on full page article post
 6. Verify User should be able to Like the post in full article view screen
 7. Verify User should be able to Share the post in full article view screen
 8. Verify User can navigate to Health homepage
9. Verify Notification Center functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to notification screen via home screen
 3. Verify User should be able to see the Notification screen texts
10. Verify My Challenges on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"

3. Verify My Challenges texts
4. Click on All challenges and and verify texts
11. Verify My Communities on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Gmail"
 3. User should be able to login on app with correct credentials using "Continue with Email" and Verify the Mycommunities screen
 4. Leave the community if already joined
 5. Verify the All Communities Post screen
 6. Verify the Likes and comments counts in All communities tab
 7. Verify the Share with Friends Functionality in All communities tab
 8. Verify the Post Functionality in All communities
 9. Verify the Category list and search feature
 10. User navigates back to the community screen
 11. Leave the community if already joined
12. Verify Private My Communities on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify the My communities screen
 4. Verify the Private Communities in communities screen
13. Verify legal and legacy on One pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Navigate to account screen
 4. Verify the Legacy and Privacy should be displayed
 5. Verify the Terms and condition screen should be displayed
 6. Verify the Privacy screen should be displayed
 7. Verify the Regulator screen should be displayed
14. Verify My accounts options in Account screen
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Navigate to account screen and verify all the options
 4. Verify wearable screen in Account tab
 5. navigate back to account screen from my wearable screen
 6. Navigate to account screen
 7. Verify reward screen in Account tab
 8. User access My Rewards FAQ
 9. Verify the FAQ on my rewards screen
 10. Verify the FAQ on my rewards screen
 11. Verify the FAQ on my rewards screen
 12. Verify the FAQ on my rewards screen
 13. Verify the FAQ on my rewards screen
 14. Verify the FAQ on my rewards screen
 15. Verify the FAQ on my rewards screen
 16. Verify the FAQ on my rewards screen
 17. navigate back to account screen from my rewards screen
 18. Verify Notification screen in Account tab
 19. navigate back to account screen from Notification screen
 20. Verify my feedback screen in Account tab
 21. Verify the submit functionality in My feedback screen
 22. Verify the Pulse Personalised tab

23. Save the consent with data privacy check
24. Save the consent without data privacy check
25. navigate back to account screen from pulse personalised screen
15. Verify MySettings functionality in Account screen
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Navigate to account screen
 4. Verify my setting screen in Account tab
 5. navigate back to account screen from my setting screen
16. Verify My wearable functionality via fitness tab on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the user can access My Wearables via Fitness
17. Verify the BabyLon HRA Report - Nutrition, Body, Activity
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. User should be able to access Babylon Health Risk Assessment Report
 4. Verify the HRA Activity Report
 5. Verify the HRA Activity Report
 6. Verify the HRA Nutrition Report
 7. Verify the HRA Report - Keep It Up sub-section
 8. Verify the HRA Report - Make a Change sub-section
 9. User should be able to access Babylon HRA - Healthcheck - Body
 10. navigate back to digital twin screen
 11. User should be able to access Babylon HRA - Healthcheck - Nutrition
 12. Navigate back to nutrition screen and validate the static text
 13. navigate back to digital twin screen
 14. User should be able to access Babylon HRA - Healthcheck - Activity
 15. Navigate back to Activity screen and validate the static text
 16. navigate back to digital twin screen
 17. User should be able to access Babylon HRA - Healthcheck - Mood
 18. navigate back to digital twin screen
18. Verify that user can access calendar under health section
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. User should be able to access Calendar screen
19. Verify that user can access Chinese Medicine feature
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. User should be able to access Chinese Medicine screen
 3. Verify the carousel on Chinese Medicine journey
 4. Verify the carousel on Chinese Medicine journey
 5. verify the text and button on final assessment carousel
 6. User should be able to complete Chinese Medicine profile
 7. Verify the Q&A on Chinese Medicine journey
 8. Verify the Q&A on Chinese Medicine journey
 9. Verify the Q&A on Chinese Medicine journey
 10. Verify the Q&A on Chinese Medicine journey
 11. Verify the Q&A on Chinese Medicine journey
 12. Verify the Q&A on Chinese Medicine journey
 13. Verify the Q&A on Chinese Medicine journey

- [illegible]

65. Verify the Q&A on Chinese Medicine journey
66. Verify the Q&A on Chinese Medicine journey
67. Verify the Q&A on Chinese Medicine journey
68. Verify the Q&A on Chinese Medicine journey
69. Verify the Q&A on Chinese Medicine journey
70. Verify the Assessment completion screen
71. Verify the user can view the Assessment Record
72. Verify the Assessment Summary
73. Verify the "Constitution" Details of the Assessment
74. Verify the "Change In Tongue" Details of the Assessment
20. Verify Dietician Positive Flow for Doctor functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify User should be able to navigate to Dietician page
 3. Select the expert type as doctor and navigate to next screen
 4. Verify User should be able to navigate to specialisation page
 5. Verify User should be able to navigate to Educational Details page
 6. Verify User should be able to navigate to Add experience page
 7. Verify User should be able to navigate to Services Offered page
 8. Verify User should be able to navigate to achievement and awards screen
 9. Verify User should be able to navigate to Seminar(s) Attended page
 10. Verify User should be able to navigate to linked clinic page
 11. Verify User should be able to navigate to Take a Picture page
 12. Verify User should be able to navigate to schedule Calendar page
21. Verify that user can manage events via the Family Vaccine Calendar feature
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. User should be able to access my family vaccination calendar
 3. Verify the user can Add Vaccine Information
 4. enter information on add vaccination popup
 5. Verify the added item displayed on the Vaccine Schedule screen
 6. Verify reminder options in vaccine schedule
 7. Verify change reminder functionality in vaccine schedule screen
22. Verify that user can access Dengue Alert feature
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the map can be expanded
 4. User should be able to view the Dengue Outbreak - Malaysia
 5. User should be able to view the Dengue Cases - Malaysia
23. Verify Pru infectious disease cover functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to PRU Shoppe screen
 3. Verify User should be able to see the infectious disease cover screen options
 4. Verify User should be able to see the infectious disease cover Screen options
 5. Verify User should be able to see the infectious disease cover term and condition
 6. Verify User should be able to see the infectious disease cover term and condition
 7. Verify User should be able to see the infectious disease cover term and condition
 8. Verify User should be able to see the infectious disease cover term and condition
 9. verify that user can see agreement and proceed button
24. Verify Pru Shoppe My Coverage functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu

2. [login to the app with correct credentials using "Continue with Email"](#)
3. [Verify user can access his policies from Pru Shoppe My Policies screen](#)
4. [Click on Link policy and verify screen to add policy number](#)
5. [Verify the error message when the Policy Number is blank](#)
6. [Verify the error message when the Policy Number is invalid or incorrect](#)
7. [Verify the error message when the Cancel Button](#)
25. [Verify wealth channel functionality on one pulse App](#)
 1. [Launch the app and select the country as per specified lbu](#)
 2. [login to the app with correct credentials using "Continue with Email"](#)
 3. [Verify User should be able to navigate to wealth page](#)
 4. [Verify User should be able to view the story post](#)
 5. [Verify User should be able to Like the post](#)
 6. [Verify User should be able to Share the post](#)
 7. [Verify User should be able to Comment the post](#)
 8. [Verify User should be able to view the full page article post](#)
 9. [Verify User should be able to see the Like, Share, Comment options on full page article post](#)
 10. [Verify User should be able to Like the post in full article view screen](#)
 11. [Verify User should be able to Share the post in full article view screen](#)
 12. [Verify User should be able to Comment the post in full article view screen](#)
 13. [Verify User can navigate to wealth homepage](#)
26. [Verify Notification Center functionality on one pulse App](#)
 1. [Navigate to notification screen via home screen](#)
 2. [Verify User should be able to see the Notification screen texts](#)
27. [Verify share with friends functionality in onepulse app](#)
 1. [Launch the app and select the country as per specified lbu](#)
 2. [login to the app with correct credentials using "Continue with Email"](#)
 3. [Verify User should be able to share the link with Whatsapp](#)
 4. [Verify User should be able to share the link with Contacts app](#)
 5. [Verify User should be able to share the link with Messenger app](#)
 6. [Verify User should be able to share the link with Viber app](#)
 7. [Verify User should be able to share the link with Line app](#)

Detailed Results Report

Feature: Verify login functionality on One pulse App			
Passed: 7	Failed: 0	Undefined: 0	Duration: 1111.35s
Scenario: Launch the app and select the country as per specified lbu			
Passed: 8	Failed: 0	Undefined: 0	Duration: 81.13s
Before			0.34s
Given User has pulse app			19.32s
And I assign "\${login.email.id}" to variable "PULSE_EMAIL"			0.03s
And user click on "CONTINUE WITH EMAIL" with Email button			34.62s
Then I change the country as required on registration page			19.44s
Then I wait for 2 sec			2.02s
Then I change the language as required on registration page			0.00s
And I click the Sign in link			2.38s
Then I verify below language options on toggle bar as per specified lbu on login			

page		2.99s
After		0.00s
Back to Table of Contents		
Scenario: login to the app with correct credentials using "Continue with Email"		
Passed: 6	Failed: 0	Duration: 106.14s
Before		0.00s
Given I select the language option on toggle bar as required on login page		3.65s
When user enters credentials		64.47s
UserName	{PULSE_EMAIL}	
Password	{login.password}	
And User clicks on signin button		1.68s
And I wait for 5 sec		5.01s
And I enter OTP in one pulse app for user email "{PULSE_EMAIL}"		13.60s
Then user should be landed to "Home" screen		17.74s
After		0.00s
Back to Table of Contents		
Scenario: Verify the Invalid Email id in login screen using "Continue with Email"		
Passed: 15	Failed: 0	Duration: 179.75s
Before		0.00s
Given User has pulse app		7.49s
Then I wait for 2 sec		2.01s
And user click on "CONTINUE WITH EMAIL" with Email button		48.77s
Then I change the country as required on registration page		18.39s
Then I wait for 2 sec		2.02s
And I click the Sign in link		2.07s
Then I wait for 2 sec		2.00s
And I select the language option on toggle bar as required on login page		3.52s
When user enters credentials		62.25s
UserName	t@gmail	
Password	Pas\$1234	
And User clicks on signin button		1.64s
Then verify invalid email message "Email is required"		1.39s
Then User clicks on Forgot Password button		1.62s
Then enter the email to request the new password		24.68s
Email	t@gmail	
Then User clicks on Send button		1.37s
Then verify invalid email message "{email.invalid.text}"		0.53s
After		0.00s
Back to Table of Contents		
Scenario: Verify the User not registerd email in login screen using "Continue with Email"		
		Duration: 177.37

Passed: 17	Failed: 0	Undefined: 0	s
Before			0.00s
Given I generate random number and assign to variable "RANDOM_NUMBER"			0.06s
And I assign value to following variables			0.00s
USER_NAME	taf-\${RANDOM_NUMBER}@mailinator.com		
USER_PASSWORD	Pas\$1234		
Given User has pulse app			7.09s
And user click on "CONTINUE WITH EMAIL" with Email button			30.61s
Then I change the country as required on registration page			19.40s
Then I wait for 2 sec			2.02s
And I click the Sign in link			2.25s
Then I wait for 2 sec			2.01s
And I select the language option on toggle bar as required on login page			3.38s
When user enters credentials			63.73s
UserName	\${USER_NAME}		
Password	\${USER_PASSWORD}		
And I scroll down			6.93s
And User clicks on signin button			1.60s
Then verify invalid email message "\${invalid.credential.message}"			2.20s
Then User clicks on Forgot Password button			1.36s
Then enter the email to request the new password			31.59s
Email	\${USER_NAME}		
Then User clicks on Send button			1.31s
Then verify invalid email message "\${invalid.credential.message}"			1.85s
After			0.00s
Back to Table of Contents			
Scenario: User should be able to retrieve the reset password using forget password link			
Passed: 8	Failed: 0	Undefined: 0	Duration: 116.98s
Before			0.00s
And I assign "\${forgot.password.email.id}" to variable "PULSE_EMAIL"			0.00s
Then enter the email to request the new password			62.04s
Email	\${PULSE_EMAIL}		
Then User clicks on Send button			1.20s
And I read the otp for emailid "\${PULSE_EMAIL}" using mailsac api and store into a variable "EMAIL_OTP"			27.32s
Then I wait for 5 sec			5.01s
Then I enter "\${EMAIL_OTP}" reset code			2.54s
Then I wait for 5 sec			5.01s
Then Verify message: "\${password.reset.success.text}" for Reset Password			13.87s
After			0.00s
Back to Table of Contents			

Scenario: Verify Account should be locked after entering more than 7 times incorrect passwords

Passed: 20	Failed: 0	Undefined: 0	Duration: 317.43s
Before			0.00s

Given I generate random number and assign to variable "RANDOM_NUMBER"			0.01s
And I assign "pulse\${RANDOM_NUMBER}@mailsac.com" to variable "PULSE_EMAIL"			0.00s
And User has pulse app			7.20s
Then I wait for 2 sec			2.00s
And user click on "CONTINUE WITH EMAIL" with Email button			28.94s
Then I change the country as required on registration page			18.32s
Then I wait for 5 sec			5.01s
Then I navigate to pulse registration page and select the lang on toggle bar then click on continue with email button			7.16s
Then I wait for 2 sec			2.01s
When user enters registration details			21.04s
	FirstName	testAutomation	
	LastName	testAutomation	
	Email	\${PULSE_EMAIL}	
	Password	Pas\$1234	
And taps on continue "Sign_Up" button			1.98s
Then I wait for otp screen after clicking on signup button			1.88s
Then I enter OTP in one pulse app for user email "\${PULSE_EMAIL}"			33.12s
Then I click skip button			107.20
Then user should be landed to "Home" screen			15.91s
Then I wait for 4 sec			4.01s
And I click the Account icon in Home screen			2.57s
And I click the sign out from pulse app			12.58s
Then I wait for 2 sec			2.01s
Then I enter invalid password on login screen and verify the error message			44.50s
