Scenarios	59	152	0	0	211	28%
Steps	499	152	0	383	1,034	48%

Overall Duration: 1h 28m 33s

Table of Contents

1. Verify login functionality on One pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the Invalid Email id in login screen using "Continue with Email"
 4. Verify the User not registered email in login screen using "Continue with Email"
 5. User should be able to retrieve the reset password using forget password link
 6. Verify Account should be locked after entering more than 7 times incorrect passwords
 7. Verify the Login Functionality using "Continue with Facebook"
2. Verify registration functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. verify the field label on registration screen
 3. verify the validation message for mandatory fields
 4. verify validation message when user enters Invalid password: Pulse@1 on registration page
 5. verify validation message when user enters Invalid password: Pulse123 on registration page
 6. Verify the validation message when user enter already registered email id on registration page
 7. Verify the mobile number screen validation using "Continue with Email"
 8. Verify the resend OTP functionality on Enter OTP Screen using "Continue with Email"
3. Verify Edit Profile functionality on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to navigate to Edit profile screen
 4. Verify User should be able to change the profile picture in edit profile screen
 5. Verify the email.country code and COR fields are non-editable in edit profile screen
 6. Verify user can able to change the details in edit profile screen
 7. Verify Details updated during pulse profile registration should be reflected in edit profile screen
 8. verify the user details should be correctly on babylon screen
 9. navigate back to health screen
4. Verify MY Event channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify MyEvent Functionality in Home screen
 4. Verify Events Archive tab
 5. Verify Open Events tab
5. Verify My Health Content functionality on One Pulse App

1. Launch the app and select the country as per specified Ibu
2. User should be able to login on app with correct credentials using "Continue with Email"
3. Verify User should be able to navigate to Health page
4. Verify User should be able to view the full page article post
5. Verify User should be able to see the Like, Share, Comment options on full page article post
6. Verify User should be able to Like the post in full article view screen
7. Verify User should be able to Share the post in full article view screen
8. Verify User can navigate to Health homepage
6. Verify Notification Center functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to notification screen via home screen
 3. Verify User should be able to see the Notification screen texts
 4. Then I navigate back to home screen from Notification Center
 5. Verify User should be able navigate to Notification Center via My account
 6. Verify User should be able to see the Notification screen texts
 7. Verify User should be able to login using already registered credentials
 8. Verify User should be able navigate to Notification Center
7. Verify My Challenges on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Email"
 3. Verify My Challenges texts
 4. Click on All challenges and and verify texts
8. Verify Notification Center functionality on one pulse App
 1. Verify the Home screen validation using "Continue with Email"
 2. Navigate to notification screen via home screen
 3. Verify User should be able to see the Notification screen texts
 4. Then I navigate back to home screen from Notification Center
 5. Verify User should be able navigate to Notification Center via My account
 6. Verify User should be able to see the Notification screen texts
9. Verify My Communities on One Pluse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Gmail"
 3. User should be able to login on app with correct credentials using "Continue with Email" and Verify the Mycommunities screen
 4. Leave the community if already joined
 5. Verify the All Communities Post screen
 6. Verify the Likes and comments counts in All communities tab
 7. Verify the Share with Friends Functionality in All communities tab
 8. Verify the Post Functionality in All communities
 9. Verify the Category list and search feature
 10. User navigates back to the community screen
 11. Leave the community if already joined
10. Verify Private My Communities on One Pulse App
 1. Launch the app and select the country as per specified Ibu
 2. User should be able to login on app with correct credentials using "Continue with Gmail"
 3. User should be able to login on app with correct credentials using "Continue with Gmail" and Verify the Mycommunities screen
 4. Verify the Private Communities in communities screen
11. Verify MySettings functionality in Account screen

1. User should be able to login on app with correct credentials using "Continue with Gmail"
2. Verify the My Feedback screen in Account tab
3. Verify the submit functionality in My feedback screen
4. Verify the Pulse Personalised tab
5. Verify the Marketing Consent in Account tab
12. Verify share with friends functionality in onepulse app
 1. Launch the app and select the country as per specified lbu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify User should be able to share the link with Whatsapp
 4. Verify User should be able to share the link with Contacts app
 5. Verify User should be able to share the link with Messenger app
 6. Verify User should be able to share the link with Viber app
 7. Verify User should be able to share the link with Line app
13. Verify My wearable functionality via fitness tab on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified lbu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the user can access My Wearables via Fitness
14. Verify Exercise Buddy functionality via Fitness tab on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified lbu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the user can access Exercise Buddy via Fitness
 4. Verify the Take Challenge via Squats
 5. Verify the Start via Squats
 6. Verify the Preview via Squats
15. Verify My wearable functionality via fitness tab on Pulse Health & Wealth app
 1. Launch the app and select the country as per specified lbu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify the user can access My Wearables via Fitness
16. Verify wealth channel functionality on one pulse App
 1. Verify User should be able to login using email account
 2. Verify User should be able to navigate to Food page
 3. Verify User should be able to see the list of food schedule time
 4. Verify User should be able to time of the meal, add to cart and scan
 5. Verify User should be able to see the details after moving to "Breakfast"
 6. Verify User should be able to see the details after moving to "Lunch"
 7. Verify User should be able to see the details after moving to "Dinner"
 8. Verify User should be able to see log after add food is done
17. Verify the Babylon Registration via HRA journey for PH LBU
 1. User should be able to Register for Babylon HRA
 2. User should be able to Register for Babylon HRA
18. Verify the BabyLon HRA Report - Nutrition, Body, Activity
 1. Launch the app and select the country as per specified lbu
 2. login to the app with correct credentials using "Continue with Email"
 3. User should be able to access Babylon Health Risk Assessment Report
 4. Verify the HRA Activity Summary
 5. Verify the HRA Activity Summary
 6. Verify the HRA Activity summary
 7. Verify the HRA Nutrition Report
 8. Verify the HRA Report - Keep It Up sub-section
 9. Verify the HRA Report - Make a Change sub-section
 10. User should be able to access Babylon HRA - Healthcheck - Body

11. navigate back to digital twin screen
12. User should be able to access Babylon HRA - Healthcheck - Nutrition
13. Navigate back to nutrition screen and validate the static text
14. navigate back to digital twin screen
15. User should be able to access Babylon HRA - Healthcheck - Activity
16. Navigate back to Activity screen and validate the static text
17. navigate back to digital twin screen
18. User should be able to access Babylon HRA - Healthcheck - Mood
19. navigate back to digital twin screen
19. Verify Consult doctor functionality on Pulse Health
 1. Verify the Home screen validation using "Continue with Email"
 2. Verify the online consultation screen user fields
 3. Verify the online consultation screen user fields after swipe down
 4. Verify User should be able to enter address and zipcode
 5. Verify User should be able to upload NRIC Image in Online Consultation screen
 6. Verify User should be presented with the symptoms checker questions log
 7. Verify User can able to chat with chatbot symptoms checker
 8. Verify User should be presented with the sample text on the Medical Profile screen as a first time user
 9. Verify User should be able to create the medical profile
 10. Verify User should be able to see the payment screen fields
 11. Verify User should be able enter the card details
 12. Verify User should be able see the added card successfully
 13. Verify User should be able to start online pre consultation
 14. Verify User should be able see the allocated doctor details
20. Verify User should be able to Download as PDF Files & Validate the details in downloaded Mydoc Documents.
 1. Verify User should be able to navigate to Consultation Summary and see all available Files
 2. Verify User should be able to see the Referral,Prescription and eMC Documents
 3. Verify User should be able to download eMC Document
 4. Verify User should be able to verify the eMC details in downloaded PDF file
 5. Verify User should be able to download Prescription Document
 6. Verify User should be able to verify the Prescription details in downloaded PDF file
 7. Verify User should be able to download the Referral Document
 8. Verify User should be able to verify the Referral details in downloaded PDF file
21. Verify My Heart clinic functionality in Account screen
 1. User should be able to login on app with correct credentials using "Continue with Gmail"
 2. Verify the popup for Health page is display properly
22. Verify MY Event channel functionality on one pulse App
 1. Launch the app and select the country as per specified Ibu
 2. login to the app with correct credentials using "Continue with Email"
 3. Verify MyEvent Functionality in Home screen
 4. Verify Events Archive tab
 5. Verify Open Events tab
23. Verify Free PA with COVID+ Vaccine Protection functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to PRU Shoppe screen
 3. Verify first time User are presented with T&C to proceed to the Pru Shoppe
 4. Verify User should be able to navigate to Free PA with COVID+ Vaccine Protection tile

5. Verify Free PA with COVID+Vaccine Protection coverage details and conditions are listed above Show More link
6. Verify the Show More link is clickable in Free PA with COVID+Vaccine Protection screen
7. Verify the Free PA with COVID+Vaccine Protection coverage details and conditions are listed on click Show More link
8. Verify the Show Less link is clickable in Free PA with COVID+Vaccine Protection screen
9. Verify the Your Details section in Free PA with COVID+Vaccine Protection screen
10. Verify all the field headers in Free PA with COVID+Vaccine Protection screen
11. Scroll down for further validation
12. Verify User should be able to see the fields in Your Details section
13. Scroll down for further validation
14. Verify the Terms and Conditions text in Free PA with COVID+Vaccine Protection screen
15. Verify the Terms and Conditions can be accepted in Free PA with COVID+Vaccine Protection screen
16. Scroll down for further validation
17. Verify the presence of PROCEED button
18. Verify the validation error messages on click of PROCEED button
19. Verify image of unauthorised ID not accepted
20. Verify user can enter other mandatory fields
24. Verify Group Yearly Renewable Term Insurance(GYRT) functionality on one pulse App
 1. User should be able to register on app with correct credentials using "Continue with Email"
 2. Navigate to PRU Shoppe screen
 3. Verify first time User are presented with T&C to proceed to the Pru Shoppe
 4. Verify User should be able to navigate to GYRT tile
 5. Verify the GYRT coverage details and conditions are listed above Show More link
 6. Verify the Show More link is clickable in GYRT screen
 7. Verify the GYRT coverage details and conditions are listed on click Show More link
 8. Verify the Show Less link is clickable in GYRT screen
 9. Verify the Your Details section in GYRT screen
 10. Verify all the field headers in GYRT screen
 11. Scroll down for further validation
 12. Verify User should be able to see the fields in Your Details section
 13. Scroll down for further validation
 14. Verify the Terms and Conditions text in GYRT screen
 15. Verify the Terms and Conditions can be accepted in GYRT screen
 16. Scroll down for further validation
 17. Verify the presence of PROCEED button
 18. Verify the validation error messages on click of PROCEED button
 19. Verify image of unauthorised ID not accepted
 20. Verify user can enter other mandatory fields
25. Verify that user can view his registered policies under My Policies
 1. Verify that No linked policies information message is displayed
 2. Verify that user can access his policies from Home screen
26. Verify wealth channel functionality on one pulse App
 1. Verify User should be able to login using email account
 2. Verify User should be able to navigate to wealth page
 3. Verify User should be able to view the story post
 4. Verify User should be able to see the story post Like, Share, Comment options
 5. Verify User should be able to Like the post
 6. Verify User should be able to Share the post

7. [Verify User should be able to Comment the post](#)
8. [Verify User should be able to view the full page article post](#)
9. [Verify User should be able to see the Like, Share, Comment options on full page article post](#)
10. [Verify User should be able to Like the post in full article view screen](#)
11. [Verify User should be able to Share the post in full article view screen](#)
12. [Verify User should be able to Comment the post in full article view screen](#)
13. [Verify User can navigate to wealth homepage](#)
27. [Verify legal and legacy on One Pluse App](#)
 1. [User should be able to login on app with correct credentials using "Continue with Gmail"](#)
 2. [Verify the Terms and condition should be displayed](#)
 3. [Verify the Privacy screen should be displayed](#)
 4. [Verify the Regulator screen should be displayed](#)

Detailed Results Report

Feature: Verify login functionality on One pulse App			
Passed: 2	Failed: 5	Undefined: 0	Duration: 354.87s
Scenario: Launch the app and select the country as per specified lbu			
Passed: 3	Failed: 1	Undefined: 4	Duration: 22.44s
Before			0.54s
Given User has pulse app			12.15s
And I assign "\${login.email.id}" to variable "PULSE_EMAIL"			0.00s
And user click on "CONTINUE WITH EMAIL" with Email button			9.66s
Then I change the country as required on registration page			0.09s

Given User has pulse app			9.80s
Then I wait for 2 sec			2.01s
And user click on "CONTINUE WITH EMAIL" with Email button			13.07s
Then I wait for 2 sec			2.01s
Then I change the country as required on registration page			23.76s
Then I wait for 2 sec			2.01s
Then I navigate to pulse registration page and select the lang on toggle bar then click on continue with email button			3.92s
Then I wait for 2 sec			2.01s
When user enters registration details			7.26s
	FirstName	NewAutomation	
	LastName	NewAutomation	
	Email	\${PULSE_EMAIL}	
	Password	Pas\$1234	

And taps on continue "Sign_Up" button	0.29s
And I wait for otp screen after clicking on signup button	4.78s
And I enter OTP in one pulse app for user email "\${PULSE_EMAIL}"	31.48s
Then I wait for 10 sec	10.00s
Then I verify the country code should be displayed correctly on phone number screen	0.15s
And I enter the "mobile number" in welcome to pulse	11.04s
mobileNumber917670	
And I click the continue button	0.96s
Then I wait for 2 sec	2.01s
Then verify Again invalid Mobile message "\${invalid.mobile.text}"	0.23s
After	0.00s
Back to Table of Contents	
Scenario: Verify the resend OTP functionality on Enter OTP Screen using "Continue with Email"	
Passed: 6	Failed: 1
Undefined: 11	Duration: 39.26s
Before	0.00s
Given I generate random number and assign to variable "RANDOM_NUMBER"	0.00s
And I assign "pulse\${RANDOM_NUMBER}@mailsac.com" to variable "PULSE_EMAIL"	0.00s
And User has pulse app	9.92s
Then I wait for 2 sec	2.01s
And user click on "CONTINUE WITH EMAIL" with Email button	14.07s
Then I wait for 2 sec	2.01s
Then I change the country as required on registration page	11.25s

 at .And I response to the pre consultation questions(features/ph/health/ConsultDoctor.feature: 127)

And I verify following texts are displayed 0.00s

What concerns or questions do you have for the doctor?

Feverish

How long has this been a concern?

Couple of days

Any further details you would like to add?

Then verify user should be prompted to select No or Yes options to type further details 0.00s

Then I click on No button 0.00s

Then I wait for 5 sec 0.00s

And I verify following texts are displayed 0.00s

Please Note

Make sure you are in an area where your device has good internet connectivity.

Once the request for consultation is sent, it cannot be recalled or cancelled.

The Average wait time for a consultation to start is 10-20 minutes.

Please ensure that the notification function is switched on to ensure you get appointment confirmation, reminder and alerts from the doctor and medical concierge.

Then I wait for 5 sec 0.00s

Then I click on submit button 0.00s

And I verify following texts are displayed 0.00s

Request sent! We will notify you when your doctor confirms the request.

After 0.00s
