17. Verify product plan by benefit table data is as per requirement

1. **Login to Sales Portal**
2. **Verify default state of Premium and Benefit page**
3. **Select product combo and verify static text on premium and benefit page**
4. **Verify combo plan is selected in select plan page**
5. **Verify product selected in select plan page is selected by default in premium and benefit screen**
6. **Compare plan by Annual benefit data for "\${selectplan.group.coverage.grouptermlife}" product on screen with the Required value in CSV "GTL_ANNUAL"**
7. **Compare plan by Annual benefit data for "\${selectplan.group.coverage.grouppersonalaccident}" product on screen with the Required value in CSV "GPA_ANNUAL"**
8. **Compare plan by Annual benefit data for "\${selectplan.group.coverage.combogold}" product on screen with the Required value in CSV "COMBO_ANNUAL"**
9. **Close premium and benefit screen and select payment frequency semi-annual**
10. **Compare plan by Semi-Annual benefit data for "\${selectplan.group.coverage.grouptermlife}" product on screen with the Required value in CSV "GTL_SEMI"**
11. **Compare plan by Semi-Annual benefit data for "\${selectplan.group.coverage.grouppersonalaccident}" product on screen with the Required value in CSV "GPA_SEMI"**
12. **Compare plan by Semi-Annual benefit data for "\${selectplan.group.coverage.combogold}" product on screen with the Required value in CSV "COMBO_SEMI"**
13. **Close premium and benefit screen and select payment frequency quarterly**
14. **Compare plan by Quarterly benefit data for "\${selectplan.group.coverage.grouptermlife}" product on screen with the Required value in CSV "GTL_QUARTERLY"**
15. **Compare plan by Quarterly benefit data for "\${selectplan.group.coverage.grouppersonalaccident}" product on screen with the Required value in CSV "GPA_QUARTERLY"**
16. **Compare plan by Quarterly benefit data for "\${selectplan.group.coverage.combogold}" product on screen with the Required value in CSV "COMBO_QUARTERLY"**
17. **Close premium and benefit screen and select payment frequency monthly**
18. **Compare plan by Monthly benefit data for "\${selectplan.group.coverage.grouptermlife}" product on screen with the Required value in CSV "GTL_MONTHLY"**
19. **Compare plan by Monthly benefit data for "\${selectplan.group.coverage.grouppersonalaccident}" product on screen with the Required value in CSV "GPA_MONTHLY"**
20. **Compare plan by Monthly benefit data for "\${selectplan.group.coverage.combogold}" product on screen with the Required value in CSV "COMBO_MONTHLY"**
21. **Close premium and benefit screen and logout**
22. **Close from Sales Portal**

18. Verify Quote is getting multiplied by number of employees and based on premium for selected plan for GTL product

1. **Launch Sales portal and navigate to New Quote page**
2. **Load Premium and modal factor csv file**
3. **Estimated Annual Premium for Plan "Life:Plan 1" for number "5" for "GTL"**
4. **Estimated Annual Premium for Plan "Life:Plan 2" for number "6" for "GTL"**
5. **Estimated Annual Premium for Plan "Life:Plan 3" for number "20" for "GTL"**
6. **Estimated Annual Premium for Plan "Life:Plan 4" for number "40" for "GTL"**

Detailed Results Report

Feature: Verify agent registration workflow

Passed: 1

Scenario: verify default and sample text on agent registration page

Passed: 7

Before

Given I assign "/testdata/\${sales.fe.lbu}/bulk_user_upload" to variable "testdata.path"

Output

```
Assigning value /testdata/ph/bulk_user_upload to variable testdata.path
```

And I assign "\${testdata.path}/input/AgentReg_Template.csv" to variable "INPUT_PATH"

Output

```
Assigning value /testdata/ph/bulk_user_upload/input/AgentReg_Template.csv to variable INPUT_PATH
```

And I assign "\${testdata.path}/output/Users.csv" to variable "OUTPUT_PATH"

Output

```
Assigning value /testdata/ph/bulk_user_upload/output/Users.csv to variable OUTPUT_PATH
```

And I generate random number and assign to variable "RANDOM_NUMBER"

Output

```
Random number generated is :430
```

And I copy the csv template "\${INPUT_PATH}" and replace following variables in output path "\${OUTPUT_PATH}"

	agent.Email taf-\${RANDOM_NUMBER}@mailinator.com						
And I assign value to following variables							
	GROUP_ID \${group.id}						
And I upload the csv file "\${OUTPUT_PATH}" received from agent group "\${GROUP_ID}" using							
Then I verify File is uploaded successfully							
<pre>com.prudential.tap.exception.TapException: Not able to convert Json string to jsonObject [<html> <head><title>503 Service Temporarily Unavailable</title></head> <body> <center><h1>503 Service Temporarily Unavailable</h1></center> <hr><center>nginx/1.17.10</center> </body> </html>] at com.prudential.tap.filehandling.JsonReader.convertJsonStringToJsonObject(JsonReader.java:16) at com.pru.sales.api.stepdef.GraphQLSteps.verifyFileUploadSuccess(GraphQLSteps.java:76) at .Then I verify File is uploaded successfully(features/AgentRegistration.feature:16)</pre>							
Then I verify for below email content is matching with "/testdata/\${sales.fe.lbu}/email_template/ag							
	<table border="1"> <tr> <td>EMAIL SUBJECT</td><td> \${register.email.subject} </td></tr> <tr> <td>EMAIL FROM</td><td> \${register.email.from} </td></tr> <tr> <td>EMAIL TO</td><td> \${agent.Email} </td></tr> </table>	EMAIL SUBJECT	\${register.email.subject}	EMAIL FROM	\${register.email.from}	EMAIL TO	\${agent.Email}
EMAIL SUBJECT	\${register.email.subject}						
EMAIL FROM	\${register.email.from}						
EMAIL TO	\${agent.Email}						
And I close sales portal							
And I launch the agent registration URL							
Then I verify following text is displayed on "Agent Registration" page							
	<table border="1"> <tr> <td> \${agent.registration.text} </td></tr> <tr> <td> \${agent.password.rule.text} </td></tr> </table>	\${agent.registration.text}	\${agent.password.rule.text}				
\${agent.registration.text}							
\${agent.password.rule.text}							
Then verify Welcome text "Welcome \${agent.Email}" on agent registration page							
And I verify field label text on "Agent Registration" page							
	<table border="1"> <tr> <td> \${agent.create.password.text} </td></tr> <tr> <td> \${agent.confirm.password.text} </td></tr> </table>	\${agent.create.password.text}	\${agent.confirm.password.text}				
\${agent.create.password.text}							
\${agent.confirm.password.text}							
Then I verify next button text							
And I verify next button is disabled							
After

And I enter following details on select plan page

Industry Type	\${selectplan.industry.type.value1}
Select Coverage Date	\${COVERAGE_DATE}
Position Name	\${Category_Name}
No. of Employees	\${No._of_Employees}

And I navigate to "Employees" screen

And verify the user is landed on "Employees" page

Then I select the PDPA Consent requirement check box

Then I click on "\${addEmployeeManually.button.text}" button

Then I verify "\${employee.adtemp.modal.title}" modal comes up

And I generate random number and assign to variable "RANDOM_NUMBER"

Output

Random number generated is :571

And I assign value to following variables

Employee First Name_emp1	First User
Employee Middle Name_emp1	Middle-name
Employee Surname_emp1	Sur'name
Date of Birth_emp1	01/01/1976
Gender_emp1	\${gender.male.text}
Marital Status_emp1	\${emp.maritalstatus.dropdown.value1}
Category_emp1	Position
Company Email_emp1	testuser_\${RANDOM_NUMBER}@test.com
Occupational Class_emp1	\${emp.occupationalclass.dropdown.value1}
Employee Start Date_emp1	01/10/2012
Nationality_emp1	\${nationality.ph.text}
Employee ID_emp1	S1234567B
Address 1_emp1	Test Address1
Address 2_emp1	Test Address2
Region_emp1	Test Region
City_emp1	Test City
Zip Code_emp1	5478
Country_emp1	\${country.dropDown.value.philippines}

Given I enter following details on "Add Employee" screen

First Name	\${Employee First Name_emp1}
Middle Name	\${Employee Middle Name_emp1}
Surname	\${Employee Surname_emp1}
Date of Birth	\${Date of Birth_emp1}
Gender	\${Gender_emp1}
Marital Status	\${Marital Status_emp1}
Position	\${Category_emp1}
Company Email	\${Company Email_emp1}
Occupational Class	\${Occupational Class_emp1}
Employee Start Date	\${Employee Start Date_emp1}
Nationality	\${Nationality_emp1}
Government Issued ID/Passport No	\${Employee ID_emp1}
House / Street No	\${Address 1_emp1}
Apartment, Suite, Building, etc	\${Address 2_emp1}
Region	\${Region_emp1}
Town/City	\${City_emp1}
Zip Code	\${Zip Code_emp1}

And I assign "\${Employee First Name_emp1} \${Employee Middle Name_emp1} \${Employee Surname_emp1}" to variable Full Name_emp1

Output

Assigning value First User Middle-name Sur'name to variable Employee Full Name_emp1

Then I scroll the page up

And I click on "\${employee.adtemp.saveandnew}" button

Then I verify "\${employee.adtemp.modal.title}" modal comes up

And I scroll the page up

And I generate random number and assign to variable "RANDOM_NUMBER"

Output

Random number generated is :57

And I assign value to following variables

Employee First Name_emp2	Second User
Employee Middle Name_emp2	MN
Employee Surname_emp2	SN
Date of Birth_emp2	08/25/1986
Gender_emp2	\${gender.male.text}
Marital Status_emp2	\${emp.maritalstatus.dropdown.value3}
Category_emp2	Position
Company Email_emp2	testuser_\${RANDOM_NUMBER}@test.com

Assigning value employee_CorrectData.xls to variable FILE_NAME

Then I upload the employee csv file "\${testdata.path}/003/\${FILE_NAME}"

Then I assign value to following variables

EMP_COUNT	10
-----------	----

And I assign "First Name First-MN First.SN" to variable "EMP_NAME"

Output

Assigning value First Name First-MN First.SN to variable EMP_NAME

And I verify the "\${employee.upload.success.msg}" validation message on employee screen

Then I verify following counts are displayed for employee and dependant on employee page

Employee Count	<code> \${employee.uploaded.count}</code>
----------------	-------------------------------------------

Then I verify "\${employee.upload.file.btn}" button should not be visible on "Employee Page"

Then I verify "\${employee.download.template.btn}" button should not be visible on "Employee Pa

Then I scroll the page up

When I expand the employee "\${EMP_NAME}" using > button

And I verify following details for the added/updated employee	
\${employee.adtemp.field.dob}	12/10/1985
\${employee.adtemp.field.gender}	\${gender.female.text}
\${employee.adtemp.field.marital.status}	\${emp.maritalstatus.dropdown.value2}
\${employee.adtemp.field.nationality}	\${nationality.ph.text}
\${employee.detailsview.field.empid}	DGNH675568578
\${employee.adtemp.field.occupationclass}	\${emp.occupationalclass.dropdown.value1}
\${employee.adtemp.field.cmpnyemail}	testEmpAutomation-103450@mailinator.com
Then I scroll the page up	
Then I verify Add Employee button is displayed at the top right corner of employee table	
When I click on three dots at the top right corner of employee table	
And I verify button label text on "Employee Page on click on 3 dots" page	
\${employee.reupload.btn}	
\${employee.download.btn}	
When I click on three dots at the top right corner of employee table	
After

Scenario: Verify the upload for General information sheet document

Passed: 14

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

Given I assign "/testdata/ph/submit_document" to variable "testdata.path"

Output

```
Assigning value /testdata/ph/submit_document to variable testdata.path
```

And I assign "General_Information_Sheet.png" to variable "FILE_NAME"

Output

Assigning value General_Information_Sheet.png to variable FILE_NAME

Then verify "\${submit.upload.relevant.doc.text}" heading is visible on the screen

Then I verify following text is displayed on "Submit" page

\${submit.file.size.text}

Then verify file label is displayed as "\${submit.general.info.text}"

Then I verify following static text on "Submit" page

\${submit.drop.document.here.text}

Then I verify the presence of "\${submit.upload.file.text}" button below the message "\${submit.drc

And I upload the General Information Sheet file "\${testdata.path}/\${FILE_NAME}"

Then I verify the upload of file "\${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "\${FILE_NAME}"

When I click on delete doc button for "\${FILE_NAME}" on submit page

Then I click on "\${submit.delete.popup.delete.button}" button

After

Scenario: Add quote for Group term life for all 5 categories

Passed: 19

Before

When I click on Create Quote Link

Then I navigate to "Select Plan" screen

And I click on "\${selectplan.group.coverage.grouptermlife}" button

Then I enter following details on select plan page

Industry Type	 \${selectplan.industry.type.value1}
Position Name	 Executive
No. of Employees	 2

When I select below details to classify employees into category

EmployeePlans|Life:Plan 1

Then I add category to the policy by clicking on Add button

Then I enter following details on select plan page

Position Name	 Sales
No. of Employees	 4

When I select below details to classify employees into category

EmployeePlans|Life:Plan 2

Then I add category to the policy by clicking on Add button

Then I enter following details on select plan page

	Position Name	Office Worker
	No. of Employees	5
When I select below details to classify employees into category		
	EmployeePlans	Life:Plan 3
Then I add category to the policy by clicking on Add button		
Then I enter following details on select plan page		
	Position Name	Manager
	No. of Employees	1
When I select below details to classify employees into category		
	EmployeePlans	Life:Plan 4
Then I add category to the policy by clicking on Add button		
Then I enter following details on select plan page		
	Position Name	CEO
	No. of Employees	2
When I select below details to classify employees into category		
	EmployeePlans	Life:Plan 5
When I navigate to "Submit" screen		
And verify the user is landed on "Submit" page		
After		
Back to Table of Contents		
Scenario Outline: Verify Summary of benefit table display data selected in select plan page and getting it assigned to variable		
Passed: 6		
Before		
Then I assign "Annual_Summary.csv" to variable "FILE_NAME"		
	Output	
Assigning value Annual_Summary.csv to variable FILE_NAME		
And I assign "testdata/ph/submit_document/summarydata/\${FILE_NAME}" to variable "summary.data.compareFile.path"		
	Output	
Assigning value testdata/ph/submit_document/summarydata/Annual_Summary.csv to variable summary.data.compareFile.path		
And I select payment frequency "\${payment.frequency.annual}"		
Then I assign "SummaryTable" to variable "Table_Name"		
	Output	
Assigning value SummaryTable to variable Table_Name		

Then I verify details in summary table is matching with "\${summary.data.compareFile.path}" file**Output**

UI data: {Executive={No. of Employees=2, Sum Assured=PHP 150,000.00, Modal Premium per Employee=PHP 611.50}, Sales csvData: {Executive={No. of Employees=2, Sum Assured=PHP 150,000.00, Modal Premium per Employee=PHP 611.50}, Sales

And I verify following static text on "Summary Table" page

14
31,798.00
Total employees
Total annual premium

After[Back to Table of Contents](#)**Scenario Outline: Verify Summary of benefit table display data selected in select plan page and getting**

Passed: 6

Before**Then I assign "Quarterly_Summary.csv" to variable "FILE_NAME"****Output**

Assigning value Quarterly_Summary.csv to variable FILE_NAME

And I assign "testdata/ph/submit_document/summarydata/\${FILE_NAME}" to variable "summary.data.compareFile.path"**Output**

Assigning value testdata/ph/submit_document/summarydata/Quarterly_Summary.csv to variable summary.data.compareFile.path

And I select payment frequency "\${payment.frequency.quarterly}"**Then I assign "SummaryTable" to variable "Table_Name"****Output**

Assigning value SummaryTable to variable Table_Name

Then I verify details in summary table is matching with "\${summary.data.compareFile.path}" file**Output**

UI data: {Executive={No. of Employees=2, Sum Assured=PHP 150,000.00, Modal Premium per Employee=PHP 177.34}, Sales

csvData: {Executive={No. of Employees=2, Sum Assured=PHP 150,000.00, Modal Premium per Employee=PHP 177.34}, Sales=}

And I verify following static text on "Summary Table" page

14
36,885.72
9,221.43
Total employees
Total modal premium - Quarterly
Total annualized premium

After

[Back to Table of Contents](#)

Scenario Outline: Verify Summary of benefit table display data selected in select plan page and getting

Passed: 6

Before

Then I assign "SemiAnnual_Summary.csv" to variable "FILE_NAME"

Output

Assigning value SemiAnnual_Summary.csv to variable FILE_NAME

And I assign "testdata/ph/submit_document/summarydata/\${FILE_NAME}" to variable "summary.data.compareFile.path"

Output

Assigning value testdata/ph/submit_document/summarydata/SemiAnnual_Summary.csv to variable summary.data.compareFile.path

And I select payment frequency "\${payment.frequency.semi.annual}"

Then I assign "SummaryTable" to variable "Table_Name"

Output

Assigning value SummaryTable to variable Table_Name

Then I verify details in summary table is matching with "\${summary.data.compareFile.path}" file

Output

UI data: {Executive={No. of Employees=2, Sum Assured=PHP 150,000.00, Modal Premium per Employee=PHP 330.21}, Sales=}

And I verify following static text on "Summary Table" page

14
34,341.84
17,170.92
Total employees
Total modal premium - Semi-Annual
Total annualized premium

After[Back to Table of Contents](#)**Scenario Outline: Verify Summary of benefit table display data selected in select plan page and getting**

Passed: 6

Before**Then I assign "Monthly_Summary.csv" to variable "FILE_NAME"****Output**

Assigning value Monthly_Summary.csv to variable FILE_NAME

And I assign "testdata/ph/submit_document/summarydata/\${FILE_NAME}" to variable "summary.data.compareFile.path"**Output**

Assigning value testdata/ph/submit_document/summarydata/Monthly_Summary.csv to variable summary.data.compareFile.path

And I select payment frequency "\${payment.frequency.monthly}"**Then I assign "SummaryTable" to variable "Table_Name"****Output**

Assigning value SummaryTable to variable Table_Name

Scenario Outline: Estimated Annual Premium for product LIFE for "GTL" for all 3 category

Passed: 36

Before

Given I select Category "Category 1"

When I select below details to classify employees into category

NumOfEmployee	5
EmployeePlans	Life:Plan 4

And I search "GTL" range in static data and get the premium value for the below selected plans in

Life	PREMIUM_VALUE_LIFE_1
------	----------------------

Output

PREMIUM_VALUE_LIFE_1=3669.000000

And I calculate the estimated premium value for the selected plans into below variable

ESTIMATED_PREMIUM_ANNUAL_CAT1	5 * round(\${PREMIUM_VALUE_LIFE_1})
ESTIMATED_PREMIUM_SEMI_ANNUAL_CAT1	5 * round(\${PREMIUM_VALUE_LIFE_1})
ESTIMATED_PREMIUM_QUARTERLY_CAT1	5 * round(\${PREMIUM_VALUE_LIFE_1})
ESTIMATED_PREMIUM_MONTHLY_CAT1	5 * round(\${PREMIUM_VALUE_LIFE_1})

Output

ESTIMATED_PREMIUM_ANNUAL_CAT1=18345.0
ESTIMATED_PREMIUM_SEMI_ANNUAL_CAT1=9906.3
ESTIMATED_PREMIUM_QUARTERLY_CAT1=5320.05
ESTIMATED_PREMIUM_MONTHLY_CAT1=1834.5

Given I select Category "Category 2"

When I select below details to classify employees into category

NumOfEmployee	7
EmployeePlans	Life:Plan 4

And I search "GTL" range in static data and get the premium value for the below selected plans in

Life	PREMIUM_VALUE_LIFE_2
------	-----------------------------

Output

```
PREMIUM_VALUE_LIFE_2=3669.000000
```

And I calculate the estimated premium value for the selected plans into below variable

ESTIMATED_PREMIUM_ANNUAL_CAT2	$7 * \text{round}(\${\text{PREMIUM_VALUE_LIFE_2}})$
ESTIMATED_PREMIUM_SEMI_ANNUAL_CAT2	$7 * \text{round}(\${\text{PREMIUM_VALUE_LIFE_2}})$

Given I select Category "Category 1"

When I select below details to classify employees into category

NumOfEmployee	169
EmployeePlans	Life:Plan 7

And I search "GTL" range in static data and get the premium value for the below selected plans in

Life	PREMIUM_VALUE_LIFE_1
------	----------------------

Output

PREMIUM_VALUE_LIFE_1=9172.500000

And I calculate the estimated premium value for the selected plans into below variable

<code>ESTIMATED_PREMIUM_ANNUAL_CAT1</code>	<code>169 * round(\${PREMIUM_VALUE_LIFE})</code>
<code>ESTIMATED_PREMIUM_SEMI_ANNUAL_CAT1</code>	<code>169 * round(\${PREMIUM_VALUE_LIFE})</code>
<code>ESTIMATED_PREMIUM_QUARTERLY_CAT1</code>	<code>169 * round(\${PREMIUM_VALUE_LIFE})</code>
<code>ESTIMATED_PREMIUM_MONTHLY_CAT1</code>	<code>169 * round(\${PREMIUM_VALUE_LIFE})</code>

Output

```
ESTIMATED_PREMIUM_ANNUAL_CAT1=1550152.5
ESTIMATED_PREMIUM_SEMI_ANNUAL_CAT1=837082.35
ESTIMATED_PREMIUM_QUARTERLY_CAT1=449545.07
ESTIMATED_PREMIUM_MONTHLY_CAT1=155015.25
```

Given I select Category "Category 2"**When I select below details to classify employees into category**

NumOfEmployee	24
EmployeePlans	Life:Plan 7

And I search "GTL" range in static data and get the premium value for the below selected plans in

Life	<code>PREMIUM_VALUE_LIFE_2</code>
------	-----------------------------------

Output

```
PREMIUM_VALUE_LIFE_2=9172.500000
```

And I calculate the estimated premium value for the selected plans into below variable

<code>ESTIMATED_PREMIUM_ANNUAL_CAT2</code>	<code>24 * round(\${PREMIUM_VALUE_LIFE})</code>
<code>ESTIMATED_PREMIUM_SEMI_ANNUAL_CAT2</code>	<code>24 * round(\${PREMIUM_VALUE_LIFE})</code>
<code>ESTIMATED_PREMIUM_QUARTERLY_CAT2</code>	<code>24 * round(\${PREMIUM_VALUE_LIFE})</code>
<code>ESTIMATED_PREMIUM_MONTHLY_CAT2</code>	<code>24 * round(\${PREMIUM_VALUE_LIFE})</code>

Output

```
ESTIMATED_PREMIUM_ANNUAL_CAT2=220140.0
ESTIMATED_PREMIUM_SEMI_ANNUAL_CAT2=118875.6
ESTIMATED_PREMIUM_QUARTERLY_CAT2=63840.72
ESTIMATED_PREMIUM_MONTHLY_CAT2=22014.0
```

Given I select Category "Category 3"**When I select below details to classify employees into category**

NumOfEmployee	2
EmployeePlans	Life:Plan 7

And I search "GTL" range in static data and get the premium value for the below selected plans in
