    1. **Login to sales portal**
    2. **Assign value to variables and enter details on select plan page**
    3. **Select plan and category**
    4. **Save Quote and get reference number from Quotes screen**
    5. **Verify Export Quote is working in "Select Plan" page in sales Journey**
    6. **Verify Export Quote is working in "Employees" page in sales Journey**
    7. **Verify Export Quote is working in "Company" page in sales Journey**
    8. **Verify Export Quote is working in "Submit" page in sales Journey**
    9. **Close Sales Portal**

Detailed Results Report

Feature: Verify agent registration workflow
Passed: 16
Scenario: verify default and sample text on agent registration page

Passed: 16

Before

Given I assign "/testdata/${sales.fe.lbu}/bulk_user_upload" to variable "testdata.path"

Output

Assigning value /testdata/my/bulk_user_upload to variable testdata.path

And I assign "${testdata.path}/input/AgentReg_Template.csv" to variable "INPUT_PATH"

Output

Assigning value /testdata/my/bulk_user_upload/input/AgentReg_Template.csv to variable INPUT_PATH

And I assign "${testdata.path}/output/Users.csv" to variable "OUTPUT_PATH"

Output

Assigning value /testdata/my/bulk_user_upload/output/Users.csv to variable OUTPUT_PATH

And I generate random number and assign to variable "RANDOM_NUMBER"

Output

Random number generated is :68

And I copy the csv template "${INPUT_PATH}" and replace following variables in output path "$

agent.Email	taf-${RANDOM_NUMBER}@mailinator.com

And I assign value to following variables

GROUP_ID	${group.id}

And I upload the csv file "${OUTPUT_PATH}" received from agent group "${GROUP_ID}" usin

Then I verify File is uploaded successfully

Then I verify for below email content is matching with "/testdata/${sales.fe.lbu}/email_template/ag

EMAIL_SUBJECT	${register.email.subject}
EMAIL_FROM	${register.email.from}
EMAIL_TO	${agent.Email}

Output

Mailinator url is https://www.mailinator.com/v3/index.jsp?zone=public&query=taf-6801032232

When I enter "Agent1234" password in new password field

And I enter "Agent3456" password in confirm your password field

Then I verify "The passwords entered do not match, please try again" validation error message is

Then I verify "${save.button.text}" button is "disabled"

After

Scenario: Validate mask and unmask functionality for current,new and confirm password field

Passed: 9

Before

And I verify the Current Password entered is masked

When I click on the eye icon for current Password field

Then I validate the current password should display without encrypted

And I verify the New Password entered is masked

When I click on the eye icon for new Password field

Then I validate the new password should display without encrypted

And I verify the Confirm Password entered is masked

When I click on the eye icon for confirm your Password field

Then I validate the confirm your password should display without encrypted

After

Scenario Outline: verify that the save button is enabled only when agent entered the correct current,n

Passed: 4

Before

Given I enter "${AGENT_PASSWORD}" password in current password field

When I enter "Agent" password in new password field

And I enter "Agent" password in confirm your password field

Then I verify "${save.button.text}" button is "disabled"

After

Scenario Outline: verify that the save button is enabled only when agent entered the correct current,n

Passed: 4

Before

Given I enter "" password in current password field

When I enter "Agent123" password in new password field

And I enter "" password in confirm your password field

Then I verify "${save.button.text}" button is "disabled"

After

Scenario Outline: verify that the save button is enabled only when agent entered the correct current,n

Passed: 4

Before

Given I enter "wrong@Password1" password in current password field

When I enter "Agent123" password in new password field

And I enter "Agent" password in confirm your password field

Then I verify "${save.button.text}" button is "disabled"

After

Scenario Outline: verify that the save button is enabled only when agent entered the correct current,n

Passed: 4

Before

Given I enter "testing" password in current password field

When I enter "" password in new password field

And I enter "Agent123" password in confirm your password field

Then I verify "${save.button.text}" button is "disabled"

After

Scenario: verify Agent should be able to change the password for sales portal

Passed: 10

Before

Given I assign "Agent124" to variable "AGENT_NEW_PASSWORD"

Output

Assigning value Agent124 to variable AGENT_NEW_PASSWORD

Then I enter "${AGENT_PASSWORD}" password in current password field

When I enter "${AGENT_NEW_PASSWORD}" password in new password field

And I enter "${AGENT_NEW_PASSWORD}" password in confirm your password field

Then I verify "${save.button.text}" button is "enabled"

And I click on "${save.button.text}" button

And I wait for 5 sec

Then I verify following text is displayed on "popup window on profile" page

${agent.change.password.confirmation.text}

Then I verify following buttons are displayed on "change password confirmation popup"

${close.button}

Then I click on "${close.button}" button

After

Scenario Outline: Verify Agent should be able to reset the password back to Agent123 after 5 update

Passed: 6

Before

Given I assign "Agent125" to variable "AGENT_NEW_PASSWORD"

Output

Assigning value Agent125 to variable AGENT_NEW_PASSWORD

Then I enter "Agent124" password in current password field

When I enter "${AGENT_NEW_PASSWORD}" password in new password field

And I enter "${AGENT_NEW_PASSWORD}" password in confirm your password field

And I click on "${save.button.text}" button

${estimatedAnnualPremium.button.text}

${newQuote.static.text}

And I verify the h2 header text is displayed on "Select plan" page

${select.plan.group.coverage.ghs.text}

${select.group.plan.static.text}

And I verify following static text on "Select plan" page

${select.plan.group.coverage.gtl.text}

${select.plan.group.coverage.gtl.death.text}

${select.plan.group.coverage.gtl.tpd.text}

${select.plan.gtl.gadd.text}

And I verify following paragraph is displayed on "Select Plan" page

${select.plan.group.ghs.confirm.text}

Then I verify following buttons are displayed on "Select Plan page"

${saveQuote.button.text}

${premiumandbenefit.button.text}

${selectplan.ghs.yes.button}

${selectplan.ghs.no.button}

Then I verify field label text on "Select Plan" page

${numOfEmp.field.label.text}

${selectCoverageStartDate.field.label.text}

Then I verify the presence of following items on page footer

${next.button.text}

Then I verify "${previous.button.text}" button should not be visible on "select plan page footer"

Then I verify the sample text of following fields on select plan page

Select coverage date	${coverageDate.default.value}
Number of Members	

After

Scenario: Verify optional plan GHS is not selected by default

Passed: 2

Before

Then I verify following buttons are displayed and enabled

${selectplan.ghs.yes.button}

${selectplan.ghs.no.button}

And I verify selection status of following buttons are "not selected"

${selectplan.ghs.yes.button}

${selectplan.ghs.no.button}

After

Scenario: Verify the validation when user saves the quote without entering the Mandatory fields

Passed: 2

Before

Given I click on "${saveQuote.button.text}" button

Then I verify following validation message on "Select plan page"

${validationMessage.company.name}

${emp.bulk.upload.error.empcount.message}

${validationMessage.ghs.button}

After

Scenario: Verify Next button validation message without entering any values

Passed: 5

Before

Given I click on "${next.button.text}" button

Then I verify following validation message on "Select plan page"

${validationMessage.ghs.button}

And I click on PAMB GHS "${selectplan.ghs.yes.button}" button

Given I click on "${next.button.text}" button

Then I verify following text is displayed on "Select Plan" page

${selectplan.error.num.employee}

After

Scenario: verify that the coverage date should be current date by default

Passed: 2

Before

Given I generate "current date" and assign to variable "current date" in "dd/MM/yyyy" format

Then I verify the sample text of following fields on select plan page

Select Coverage Date	${current date}

After

Scenario: verify the coverage date should set to current date if Agent input past date in text field

Passed: 4

Before

And I scroll the page up

Then I generate "current date" and assign to variable "current date" in "dd/MM/yyyy" format

And I calculate "-31d" from current date in "dd/MM/yyyy" format and assign to variable "past d

Then I enter following details on select plan page

Select Coverage Date	${past date}

Then I verify the sample text of following fields on select plan page

Select Coverage Date	${current date}

Then I generate "current date" and assign to variable "EXPECTED_DATE_SELECTED" in "dd

Then I select the coverage date "current date" using calendar

Then I verify the sample text of following fields on select plan page

Select Coverage Date	${EXPECTED_DATE_SELECTED}

After

Scenario Outline: verify coverage date calendar is functioning properly

Passed: 6

Before

Then I open the coverage date calendar

Then I generate "future date" and assign to variable "future date" in "MMM/dd/yyyy" format

Then I generate "future date" and assign to variable "DATE_SELECTED" in "MM/dd/yyyy" for

Then I generate "future date" and assign to variable "EXPECTED_DATE_SELECTED" in "dd/

Then I select the coverage date "future date" using calendar

Then I verify the sample text of following fields on select plan page

Select Coverage Date	${EXPECTED_DATE_SELECTED}

After

Scenario Outline: Enter number of employees: 4 for single category

1)verify Agent should not be allowed to enter less than 5 employees for single category
2)verify Agent should not be allowed to enter more than 200 employees for single category

Passed: 6

Before

Then I enter following details on select plan page

No. of Employees	4

And I click on PAMB GHS "${selectplan.ghs.yes.button}" button

Then I click on "${saveQuote.button.text}" button

Then I verify following validation message on "Select plan page"

${emp.bulk.upload.error.empcount.message}

Given I click on "${next.button.text}" button

Then I verify following text is displayed on "Select Plan" page

${emp.bulk.upload.error.empcount.message}

After

Scenario: Verify Agent should be able to enter company and category details

1) all the information should be same as entered by agent on select plan page after saving the quote
2) last saved message should be displayed correctly

Passed: 14

Before

Given I click on Quotes link

Then I click on Create Quote Link

Then I navigate to "Select Plan" screen

Then I generate "future date" and assign to variable "future date" in "dd/MM/yyyy" format

Then I generate random number and assign to variable "RANDOM_NUMBER"

Output

Random number generated is :227

Then I assign value to following variables

Company_Name	Automation_${RANDOM_NUMBER}
No._of_Employees	200

And I enter following details on select plan page

Company Name	${Company_Name}

Select Coverage Date	${future date}	
No. of Employees	${No._of_Employees}	

And I click on PAMB GHS "${selectplan.ghs.yes.button}" button

Then I click on "${saveQuote.button.text}" button

Then I verify following validation message on "Select plan page"

${success.quote.message.text}

Then I verify following information is displayed on page footer

${lastSavedMessage.static.text}

Given I verify company name is displayed as entered on select plan page

Company Name	${Company_Name}

Then I verify the sample text of following fields on select plan page

Select Coverage Date	${future date}	
Number of Members	${No._of_Employees}	

Then I verify the presence of export quote button

After

Scenario: verify employee screen is displayed when user click on next button at the bottom of the scre

Passed: 3

Before

Given I verify "${next.button.text}" button is "enabled"

Then I click on next button present on page footer

And verify the user is landed on "Employees" page

After

Scenario Outline: verify the company name should be displayed as entered on select plan page on sub

Passed: 4

Before

Given I navigate to "Employees" screen

Then I verify company name is displayed as entered on select plan page

Company Name	${Company_Name}

Then I click on "${saveQuote.button.text}" button

Then I verify following validation message on "Select plan page"

${success.quote.message.text}

After

Scenario Outline: verify the company name should be displayed as entered on select plan page on sub

Passed: 4

Before

Given I navigate to "Company" screen

Then I verify company name is displayed as entered on select plan page

Company Name	${Company_Name}

Then I click on "${saveQuote.button.text}" button

Then I verify following validation message on "Select plan page"

${success.quote.message.text}

After

Passed: 4

Before

Given I navigate to "Submit" screen

Then I verify company name is displayed as entered on select plan page

| Company Name | ${Company_Name} |

Then I click on "${saveQuote.button.text}" button

Then I verify following validation message on "Select plan page"

${success.quote.message.text}

After

Scenario Outline: verify the estimated premium amount should be displayed as entered on select plan

Passed: 3

Before

Given I navigate to "Employees" screen

Then I get the estimated premium value displayed on select plan page and assign to variable "PRE

Then I verify estimated premium amount is displayed same as select plan page

| Estimated Annual Premium | ${PREMIUM_AMOUNT} |

After

Scenario Outline: verify the estimated premium amount should be displayed as entered on select plan

Passed: 3

Before

Given I navigate to "Company" screen

Then I get the estimated premium value displayed on select plan page and assign to variable "PRE

Then I verify estimated premium amount is displayed same as select plan page

| Estimated Annual Premium | ${PREMIUM_AMOUNT} |

After

Scenario Outline: verify the estimated premium amount should be displayed as entered on select plan

Passed: 3

Before

Given I navigate to "Submit" screen

Then I get the estimated premium value displayed on select plan page and assign to variable "PRE

Then I verify estimated premium amount is displayed same as select plan page

| Estimated Annual Premium | ${PREMIUM_AMOUNT} |

After

Scenario: Close Sales Portal

Passed: 1

Before

	And I close sales portal

After

Feature: Verify Agent can add,edit or delete members manually

Passed: 36

Scenario: Log into sales portal as an agent and navigate to employee page

Passed: 5

Before

Given Launch sales portal

Output

https://uat-sales.eb.prudential.com.my/

And I assign value to following variables

Agent_Email	${agent.email.id.global}	
Agent_Password	${agent.password}	
Occupational Class	${emp.occupationalclass.dropdown.value1}	
Nationality	${nationality.dropDown.list}	

When I Login to Sales Portal with below details

UserName	${Agent_Email}
Password	${Agent_Password}

And I enter the verification code if page appears for agent "${Agent_Email}"

Then I verify "${welcome.to.prudential}" screen is displayed

After

Scenario: Verify Sample text on employee view

Passed: 20

Before

When I click on Create Quote Link

Then I navigate to "Select Plan" screen

And I generate "current date" and assign to variable "${COVERAGE_DATE}" in "dd/MM/yyyy

And I assign value to following variables

No._of_Members	10

And I enter following details on select plan page

Effective Date of Coverage	${COVERAGE_DATE}
No. of Employees	${No._of_Members}

And I click on PAMB GHS "${selectplan.ghs.yes.button}" button

Then I navigate to "Members" screen

And verify the user is landed on "Members" page

And I verify following text is displayed on "Employee Page" page

${estimatedAnnualPremium.button.text}

${newQuote.static.text}

Then I verify following buttons are displayed on top right corner of the screen

Save Quote ${saveQuote.button.text}

Then I verify the the presence of following button on "members page"

${employee.upload.file.btn}

${addEmployeeManually.button.text}

Then I verify the presence of "${employee.download.template.btn}" on employee page

Then I verify the presence of three dots dropdown for ph on employee page

Then I verify the following information text on the screen

Info ${employee.drop.data.file}

Then I assign value to following variables

EMP_COUNT 0

Then I verify the presence of following member table headers on "member page"

${employee.detail.name}

${employee.detail.startdate}

Then I verify following counts are displayed for employee and dependant on employee page

Member Count ${employee.uploaded.count}

Then I verify the presence of following items on page footer

${previous.button.text}

${next.button.text}

And I verify "${previous.button.text}" button is "enabled"

And I verify "${next.button.text}" button is "enabled"

After

Scenario: Verify PDPA Consent requirement title and text

Passed: 2

Before

Then I verify following text is displayed on "Member" page

${employee.PDPAtitle.txt}

Then I verify below pdpa consent text is displayed on Employee page

${employee.PDPA.consent.text}

After

Scenario: verify Upload file,Add employee and download template button is disabled when PDPA Co

Passed: 3

Before

Given I verify PDPA Consent requirement checkbox is "unchecked"

Then I verify following buttons are "disabled" on employee page

${addEmployeeManually.button.text}

Then I verify following span type link are "disabled" on employee page

${employee.download.template.btn}

After

Scenario: verify Upload file,Add members and download template button is enabled when PDPA Con

Passed: 6

Before

Given I select the PDPA Consent requirement check box

And I verify PDPA consent information is collapsed

Then I click on three dots at the top right corner of employee table

Then I verify the the presence of following button on "top right corner of member table"

${employee.reupload.btn}

And I verify button label text on "Employee Page on click on 3 dots" page

${employee.reupload.btn}

Then I verify "${employee.reupload.btn}" button is "enabled"

After

Scenario: verify Agent can download the excel template

1)verify template format should be excel
2)the file should contain expected headers

Passed: 14

Before

Given I assign "/testdata/${sales.fe.lbu}/bulk_upload_employee" to variable "testdata.path"

Output

Assigning value /testdata/my/bulk_upload_employee to variable testdata.path

Then I assign "Employee_Temp_To_Compare_With.xlsm" to variable "FILE_NAME"

Output

Assigning value Employee_Temp_To_Compare_With.xlsm to variable FILE_NAME

Then I assign "employees_template.xlsm" to variable "DOWNLOADED_FILE_NAME"

Output

Assigning value employees_template.xlsm to variable DOWNLOADED_FILE_NAME

And I assign "${testdata.path}/downloadEmployeeTemplate" to variable "employee.template.com

Output

Assigning value /testdata/my/bulk_upload_employee/downloadEmployeeTemplate to variable employee.template.compareWith

Then I assign the downloaded file "${DOWNLOADED_FILE_NAME}" to variable "employee.ter

Then I delete the downloaded file "${employee.template.CompareTo.path}" if it already exists

Then I scroll to the end of page

When I click on Download employee template button

Then I verify following text is displayed on "Download Member Data File" page

${employee.download.popup.Header.text}

${employee.download.popup.message}

Then I verify following buttons are displayed on "Download Member Data File"

${employee.download.popup.english.button}

Then I click on "${employee.download.popup.english.button}" button

Then I verify downloaded file name is "${employee.template.CompareTo.path}"

Output

Downloaded file name=/tmp/workspace/me-sales-portal-ui-tests_develop/employees_template.xlsm

And I verify employee csv file "${employee.template.CompareTo.path}" is matching with "${empl

And I close download employee data file popup

After

Scenario: **verify static,sample text,header and footer on Member profile page**

Passed: 10

Before

Given I close download employee data file popup if it is opened

Given I select the PDPA Consent requirement check box

And I scroll the page up

Then I click on "${addEmployeeManually.button.text}" button

Then I verify "${employee.addemp.modal.title}" modal comes up

Then I verify the h3 header text is displayed on "Add Employee modal" page

${employee.addemp.empdetails}

${employee.addemp.nationalitydetails}

${employee.addemp.addressdetails}

Then I verify the field label text on "Add Employee modal"

${employee.addemp.field.firstname}

${employee.addemp.field.surname}

${employee.addemp.field.dob}

${employee.addemp.field.gender}

${employee.addemp.field.cmpnyemail}
${employee.addemp.field.occupationclass}
${employee.addemp.field.empstartdate}
${employee.addemp.field.nationality}
${employee.addemp.field.nric}
${employee.addemp.field.mandatory.address}
${employee.addemp.field.optional.address2}
${employee.addemp.field.optional.address3}
${employee.addemp.field.optional.address4}
${employee.addemp.field.state}
${employee.addemp.field.city}
${employee.addemp.field.zipcode}
${employee.addemp.field.country}

Then I verify the informational text on "Add Employee Modal"

${employee.addemp.field.optional.address2}	${employee.infotext}
${employee.addemp.field.optional.address3}	${employee.infotext}
${employee.addemp.field.optional.address4}	${employee.infotext}

Then I verify the default value in following fields on add employee screen

State	${state.default.value}
MY Occupational Class	${emp.occupationalclass.dropdown.value1}
static Nationality	${nationality.dropDown.list}
Country	${country.dropDown.value}
Date of Birth default	${emp.date.format}
Coverage Start Date default	${emp.date.format}

And I verify the the presence of following button on "Add employee modal"

${employee.addemp.saveandnew}
${employee.addemp.close}

After

Scenario: verify the values of Occupational Class field on Add member modal

Passed: 1

Before

Then I verify Occupational Class field is non editable on Add member screen

After

Scenario: Verify nationality field is uneditable

Passed: 1

Before

Then I verify Nationality field is non editable on Add employee screen

After

Scenario: Verify the dropdown lists in State field

Passed: 1

Before

Then I verify State field dropdown values matches with "/testdata/my/state/state.txt" file

Output

StateField data: [Johor, Kedah, Kelantan, Melaka, Negeri Sembilan, Pahang, Perak, Perlis, Pulau Pinang, Sabah, Sarawak, Selan
FileData: [Johor, Kedah, Kelantan, Melaka, Negeri Sembilan, Pahang, Perak, Perlis, Pulau Pinang, Sabah, Sarawak, Selangor, T

After

Email Address_emp3	testuser_${RANDOM_NUMBER}@test.com
NRIC no._emp3	854545454545
Address 1_emp3	Test Address@3

State_emp3	${state.dropdown.value.3}
City_emp3	Test-City
Post Code_emp3	76548

Given I enter following details on "Add Employee" screen

First Name	${Employee First Name_emp3}
Surname	${Employee Surname_emp3}
Date of Birth	${Date of Birth_emp3}
Gender	${Gender_emp2}
Coverage Start Date	${COVERAGE_DATE}
Email Address	${Email Address_emp3}
NRIC no.	${NRIC no._emp3}
Address 1	${Address 1_emp3}
State	${State_emp3}
City	${City_emp3}
Post Code	${Post Code_emp3}

And I assign "${Employee First Name_emp3} ${Employee Surname_emp3}" to variable "Employ

And I click on "${employee.addemp.saveandnew}" button

Then I click on "${employee.addemp.close}" button

Then verify the user is landed on "Members" page

Then I assign value to following variables

| EMP_COUNT | 3 |

Then I verify following counts are displayed for employee and dependant on employee page

| Employee Count | ${employee.uploaded.count} |

Then I verify following information is displayed for member "${Employee Full Name_emp1}" in

| ${employee.detail.name} | ${Employee Full Name_emp1} |
| ${employee.detail.startdate} | ${COVERAGE_DATE} |

Given I enter "${Employee Full Name_emp1}" in search text field in Members page

When I expand the member "${Employee Full Name_emp1}" using > button

And I verify following details for the added/updated members

${employee.addemp.field.dob}	${Date of Birth_emp1}
${employee.addemp.field.gender}	${Gender_emp1}
${employee.addemp.field.nationality}	${Nationality}
${employee.detailsview.field.empid}	${NRIC no._emp1}
${employee.addemp.field.occupationclass}	${Occupational Class}
${employee.addemp.field.cmpnyemail}	${Email Address_emp1}

When I expand the member "${Employee Full Name_emp1}" using > button

Then I remove search text on manage members page in Sales Portal

Given I enter "${Employee Full Name_emp2}" in search text field in Members page

Then I verify following information is displayed for member "${Employee Full Name_emp2}" in

| ${employee.detail.name} | ${Employee Full Name_emp2} |
| ${employee.detail.startdate} | ${COVERAGE_DATE} |

And I remove search text on manage members page in Sales Portal

Given I enter "${Employee Full Name_emp3}" in search text field in Members page

Then I verify following information is displayed for member "${Employee Full Name_emp3}" in

| ${employee.detail.name} | ${Employee Full Name_emp3} |
| ${employee.detail.startdate} | ${COVERAGE_DATE} |

Then I verify following information is displayed for member "${Employee Full Name_emp3}" in

| ${employee.detail.name} | ${Employee Full Name_emp3} |
| ${employee.detail.startdate} | ${COVERAGE_DATE} |

Scenario: Close Sales Portal

Passed: 1

Before

And I close sales portal

After

Feature: Verify upload,re upload, download member excel functionality on members page

1) Verify upload members using xlsm file
2) Verify Re upload Member xlsm file
3) Verify the Member Table data downloadable into xlsm

Passed: 18

Scenario: Prerequisite to upload members xlsm using ${employee.upload.file.btn} button

Passed: 7

Before

Given I assign "/testdata/${sales.fe.lbu}/bulk_upload_employee" to variable "testdata.path"

Output

Assigning value /testdata/my/bulk_upload_employee to variable testdata.path

Given I generate "current date" and assign to variable "current date" in "dd/MM/yyyy" format

When Launch sales portal

Output

https://uat-sales.eb.prudential.com.my/

And I assign value to following variables

Agent_Email	${agent.email.id.global}
Agent_Password	${agent.password}
COVERAGE_DATE	${current date}

When I Login to Sales Portal with below details

UserName	${Agent_Email}
Password	${Agent_Password}

And I enter the verification code if page appears for agent "${Agent_Email}"

Then I verify "${welcome.to.prudential}" screen is displayed

After

Scenario: **Set up the member view for uploading member data file**

Passed: 6

Before

When I click on Create Quote Link

And I assign value to following variables

No._of_Employees	10

And I enter Company Name as "MY Member Bulk Upload Tests"

Output

company name is: MY Member Bulk Upload Tests

And I enter following details on select plan page

No. of Employees	${No._of_Employees}

And I navigate to "Members" screen

And I select the PDPA Consent requirement check box

After

Scenario: **verify error message when wrong file type is uploaded**

Passed: 3

Before

Given I assign "Wrong_file_type.txt" to variable "FILE_NAME"

Output

Assigning value Wrong_file_type.txt to variable FILE_NAME

When I upload the employee csv file "${testdata.path}/001/${FILE_NAME}"

Then I verify "${employee.wrong.filetype.upload.error}" validation error message is displayed

After

Scenario Outline: **Sales Portal upload member error message validation "XLSM file with no details"**

Passed: 7

Before

Given I assign "employee_EmptyFile.xlsm" to variable "FILE_NAME"

Output

Assigning value employee_EmptyFile.xlsm to variable FILE_NAME

And I navigate to "Select Plan" screen

And I navigate to "Members" screen

When I upload the employee csv file "${testdata.path}/001/${FILE_NAME}"

When I click on View button to see errors

Then I verify following text is displayed on "emp bulk upload error modal" page

${employee.empty.file.upload.error}

Given I close "${employee.error.view.close}" the error modal if it is opened

After

Scenario Outline: Sales Portal upload member error message validation "XLSM file with no headers"

Passed: 7

Before

Given I assign "employee_No_Header.xlsm" to variable "FILE_NAME"

Output

Assigning value employee_No_Header.xlsm to variable FILE_NAME

And I navigate to "Select Plan" screen

And I navigate to "Members" screen

When I upload the employee csv file "${testdata.path}/001/${FILE_NAME}"

When I click on View button to see errors

Then I verify following text is displayed on "emp bulk upload error modal" page

${employee.no.headers.upload.error}

Given I close "${employee.error.view.close}" the error modal if it is opened

After

Scenario Outline: Sales Portal upload member error message validation "XLSM file with missing hea

Passed: 7

Before

Given I assign "employee_MissingColumn.xlsm" to variable "FILE_NAME"

Output

Assigning value employee_MissingColumn.xlsm to variable FILE_NAME

And I navigate to "Select Plan" screen

And I navigate to "Members" screen

When I upload the employee csv file "${testdata.path}/001/${FILE_NAME}"

When I click on View button to see errors

Then I verify following text is displayed on "emp bulk upload error modal" page

> **${employee.missing.column.upload.error}**

Given I close "${employee.error.view.close}" the error modal if it is opened

After

Scenario Outline: Sales Portal upload member error message validation "XLSM file with diff headers

Passed: 7

Before

Given I assign "employee_diff_language.xlsm" to variable "FILE_NAME"

Output

Assigning value employee_diff_language.xlsm to variable FILE_NAME

And I navigate to "Select Plan" screen

And I navigate to "Members" screen

When I upload the employee csv file "${testdata.path}/001/${FILE_NAME}"

When I click on View button to see errors

Then I verify following text is displayed on "emp bulk upload error modal" page

> **${employee.diff.language.upload.error}**

Given I close "${employee.error.view.close}" the error modal if it is opened

After

Scenario Outline: Sales Portal upload member error message validation "XLSM file with no data"

Passed: 7

Before

Given I assign "employee_nodata.xlsm" to variable "FILE_NAME"

Output

Assigning value employee_nodata.xlsm to variable FILE_NAME

And I navigate to "Select Plan" screen

And I navigate to "Members" screen

When I upload the employee csv file "${testdata.path}/001/${FILE_NAME}"

When I click on View button to see errors

Then I verify following text is displayed on "emp bulk upload error modal" page

> **${employee.no.data.upload.error}**

Given I close "${employee.error.view.close}" the error modal if it is opened

After

Scenario Outline: Sales Portal upload member error message validation "XLSM file with wrong head

Passed: 7

Before

Given I assign "employee_IncorrectColumnName.xlsm" to variable "FILE_NAME"

Output

Assigning value employee_IncorrectColumnName.xlsm to variable FILE_NAME

And I navigate to "Select Plan" screen

And I navigate to "Members" screen

When I upload the employee csv file "${testdata.path}/001/${FILE_NAME}"

When I click on View button to see errors

Then I verify following text is displayed on "emp bulk upload error modal" page

${employee.missing.column.upload.error}

Given I close "${employee.error.view.close}" the error modal if it is opened

After

Scenario: Verify the validation message when Agent upload wrong data file with multiple errors

1)Verify All error related to given records should display under relevant row number
2)Verify All validation messages are displayed correctly

Passed: 19

Before

Given I close "${employee.error.view.close}" the error modal if it is opened

And I navigate to "Select Plan" screen

And I navigate to "Members" screen

Given I assign "employees_wrongdata.xlsm" to variable "FILE_NAME"

Output

Assigning value employees_wrongdata.xlsm to variable FILE_NAME

Then I upload the employee csv file "${testdata.path}/002/${FILE_NAME}"

Then I scroll the page up

And I assign "32" to variable "ERROR_COUNT"

Output

Assigning value 32 to variable ERROR_COUNT

And I verify the "${employee.upload.error.message}" validation message on employee screen

And I verify View button is displayed to see error messages

When I click on View button to see errors

Then I verify employee data file upload error modal is displayed

Then I verify the error message "${ERROR_COUNT}" is displayed in employee bulk upload erro

And I verify the "${employee.error.view.close}" button is enabled

And I verify following paragraph is displayed on "emp bulk upload error modal" page

> **${employee.error.resolution.text}**

And I verify following sub header text "emp bulk upload error modal"

> **${employee.error.view.text}**

Then I verify following text is displayed on "emp bulk upload error modal" page

> **${emp.bulk.upload.error.emp.givenname.mandatory}**
> **${emp.bulk.upload.error.emp.surname.mandatory}**
> **${emp.bulk.upload.error.startdate.format}**
> **${emp.bulk.upload.error.dob.mandatory}**
> **${emp.bulk.upload.error.emp.email.mandatory}**
> **${emp.bulk.upload.error.startdate.mandatory}**
> **${emp.bulk.upload.error.emp.email.format}**
> **${bulk.upload.error.numeric.validation.city}**
> **${emp.error.min.max.validation.zipcode}**
> **${emp.bulk.upload.error.country.mandatory}**
> **${emp.bulk.upload.error.nric.mandatory}**
> **${emp.bulk.upload.error.emp.occupationclass.mandatory}**
> **${emp.bulk.upload.error.age.range.message}**
> **${bulk.upload.error.minmax.validation.ID}**
> **${bulk.upload.error.numeric.validation.city}**
> **${bulk.upload.error.minmax.validation.email}**
> **${bulk.upload.error.minmax.validation.firstname}**
> **${bulk.upload.error.minmax.validation.lastname}**
> **${bulk.upload.error.minmax.validation.address1}**
> **${bulk.upload.error.minmax.validation.address2}**
> **${bulk.upload.error.minmax.validation.address3}**
> **${bulk.upload.error.minmax.validation.address4}**
> **${bulk.upload.error.minmax.validation.city}**

And I verify button label text on "emp bulk upload error modal" page

> **${employee.error.view.downloadlabel.text}**

Then I verify "${employee.error.view.downloadlabel.text}" button is enabled

Then I click on "${employee.error.view.close}" button

After

[Back to Table of Contents](#)

Scenario: Verify agent should be landed back to members screen after clicking on download member

1)Verify Agent should be able to upload the member data using upload functionality

Passed: 23

Before

Given I close "${employee.error.view.close}" the error modal if it is opened

Then I assign "employees_wrongdata.xlsm" to variable "FILE_NAME"

Output

Assigning value employees_wrongdata.xlsm to variable FILE_NAME

Then I upload the employee csv file "${testdata.path}/002/${FILE_NAME}"

Then I scroll the page up

When I click on View button to see errors

Then I verify employee data file upload error modal is displayed

Then I click on "${employee.error.view.downloadlabel.text}" button

Then I verify following text is displayed on "Download Employee Data File" page

> **${employee.download.popup.Header.text}**
> **${employee.download.popup.message}**

Then I verify following buttons are displayed on "Download Member Data File"

> **${employee.download.popup.english.button}**

Given I assign "/testdata/${sales.fe.lbu}/bulk_upload_employee" to variable "testdata.path"

Output

Assigning value /testdata/my/bulk_upload_employee to variable testdata.path

Then I assign "Employee_Temp_To_Compare_With.xlsm" to variable "FILE_NAME"

Output

Assigning value Employee_Temp_To_Compare_With.xlsm to variable FILE_NAME

Then I assign "employees_template.xlsm" to variable "DOWNLOADED_FILE_NAME"

Output

Assigning value employees_template.xlsm to variable DOWNLOADED_FILE_NAME

And I assign "${testdata.path}/downloadEmployeeTemplate" to variable "employee.template.com

Output

Assigning value /testdata/my/bulk_upload_employee/downloadEmployeeTemplate to variable employee.template.compareWith

Then I assign the downloaded file "${DOWNLOADED_FILE_NAME}" to variable "employee.te

Then I delete the downloaded file "${employee.template.CompareTo.path}" if it already exists

Then I click on "${employee.download.popup.english.button}" button

Then I verify downloaded file name is "${employee.template.CompareTo.path}"

Output

Downloaded file name=/tmp/workspace/me-sales-portal-ui-tests_develop/employees_template.xlsm

And I verify employee csv file "${employee.template.CompareTo.path}" is matching with "${empl

And I close download employee data file popup

And I click on "${employee.addemp.close}" button

And verify the user is landed on "Members" page

Then I verify the the presence of following button on "member page"

${employee.upload.file.btn}

${addEmployeeManually.button.text}

And I verify the presence of "${employee.download.template.btn}" on employee page

After

Scenario: **verify the member Screen when member file is uploaded successfully**

Passed: 20

Before

Given I close download employee data file popup if it is opened

Given I close "${employee.error.view.close}" the error modal if it is opened

When I click on Create Quote Link

And I assign value to following variables

No._of_Employees 10

And I enter Company Name as "MY Member Bulk Upload Tests"

Output

company name is: MY Member Bulk Upload Tests

And I enter following details on select plan page

No. of Employees ${No._of_Employees}

And I navigate to "Members" screen

And I select the PDPA Consent requirement check box

Then I assign "employee_CorrectData.xlsm" to variable "FILE_NAME"

Output

Assigning value employee_CorrectData.xlsm to variable FILE_NAME

Then I upload the employee csv file "${testdata.path}/003/${FILE_NAME}"

Then I assign value to following variables

EMP_COUNT	**10**

And I assign "First Name.01 Surname 1" to variable "EMP_NAME"

Output

Assigning value First Name.01 Surname 1 to variable EMP_NAME

And I verify the "${employee.upload.success.msg}" validation message on employee screen

Then I verify following counts are displayed for employee and dependant on employee page

Employee Count	**${employee.uploaded.count}**

Then I verify "${employee.upload.file.btn}" button should not be visible on "Members Page"

Then I verify "${employee.download.template.btn}" button should not be visible on "Members Pa

Then I scroll the page up

When I expand the member "${EMP_NAME}" using > button

And I verify following details for the added/updated members

${employee.addemp.field.dob}	**11/12/1995**
${employee.addemp.field.gender}	**${gender.male.text}**
${employee.addemp.field.nationality}	**Malaysian**
${employee.detailsview.field.empid}	**755454343430**
${employee.addemp.field.occupationclass}	**${emp.occupationalclass.dropdown.value1}**
${employee.addemp.field.cmpnyemail}	**testMemberUpload1.0567890@mailinator.com**

Then I scroll the page up

After

Scenario: Re-upload prep

Passed: 5

Before

Given I expand the member "${EMP_NAME}" using > button

Then I verify Add Employee button is displayed at the top right corner of employee table

When I click on three dots at the top right corner of employee table

And I verify button label text on "Member Page on click on 3 dots" page

${employee.reupload.btn}

When I click on three dots at the top right corner of employee table

After

Scenario: verify Re upload popup window

Passed: 8

Before

And I scroll the page up

When I click on three dots at the top right corner of employee table

Then I click on "${employee.reupload.btn}" button

Then I verify following text is displayed on "reupload popup window on employee" page

> **${employee.reupload.pagename}**
> **${employee.reupload.pagetext}**

Then I verify following buttons are displayed on "reupload popup"

> **${employee.reupload.cncl.btn}**
> **${employee.reupload.upload.btn}**

Then I click on "${employee.reupload.cncl.btn}" button

Then I verify reupload popup window is closed and following text "${employee.reupload.pagenam

Then I verify the the presence of following button on "member page"

> **${addEmployeeManually.button.text}**

After

Scenario: Re upload Member excel and verify the modified and new data have inserted and searched

Passed: 20

Before

Then I enter "testMemberUpload1.0567890@mailinator.com" in search text field in Members pag

Then I assign value to following variables

> **EMP_COUNT** 1

Then I verify following counts are displayed for employee and dependant on employee page

> **Employee Count** **${employee.uploaded.count}**

And I scroll the page up

When I click on three dots at the top right corner of employee table

Then I click on "${employee.reupload.btn}" button

Then I click on "${employee.reupload.upload.btn}" button

Then I verify reupload popup window is closed and following text "${employee.reupload.pagenam

Then I verify the the presence of following button on "employee page"

And I navigate to "Members" screen

And I select the PDPA Consent requirement check box

Then I assign "employee_DuplicateData.xlsm" to variable "FILE_NAME"

Output

Assigning value employee_DuplicateData.xlsm to variable FILE_NAME

Then I upload the employee csv file "${testdata.path}/004/${FILE_NAME}"

Then I scroll the page up

And I assign "2" to variable "ERROR_COUNT"

Output

Assigning value 2 to variable ERROR_COUNT

And I verify View button is displayed to see error messages

When I click on View button to see errors

Then I verify employee data file upload error modal is displayed

Then I verify the error message "${ERROR_COUNT}" is displayed in employee bulk upload erro

Then I verify following text is displayed on "member bulk upload error modal" page

${emp.bulk.upload.error.email.exist}

After

Scenario: Closing the error modal view

Passed: 1

Before

Then I click on "${employee.error.view.close}" button

After

Scenario: Close Sales Portal

Passed: 1

Before

And I close sales portal

After

Feature: Verify Agent can update the required details on company page and verify validations

Passed: 40

Scenario: verify default,sample text,header and footer on company page

Passed: 5

Before

Given Launch sales portal

Output

https://uat-sales.eb.prudential.com.my/

And I assign value to following variables

| Agent_Email | ${agent.email.id.global} | |
| Agent_Password | ${agent.password} | |

Agent_First_Name	${agent.email.id.firstname}
Agent_Middle_Name	${agent.email.id.middlename}
Agent_Surname	${agent.email.id.lasttname}
Agent_Code	${agent.email.id.agentcode}
Agent_Phone	${agent.phone}

When I Login to Sales Portal with below details

UserName	${Agent_Email}
Password	${Agent_Password}

And I enter the verification code if page appears for agent "${Agent_Email}"

Then I verify "${welcome.to.prudential}" screen is displayed

After

Scenario: Verify Sample text on Company page

Passed: 17

Before

When I click on Create Quote Link

Then I navigate to "Company" screen

And verify the user is landed on "Company" page

Then I verify the sample text of New Quote fields on Company page

Company name	${company.name.text.field}

And I verify following text is displayed on "Company Page" page

${estimatedAnnualPremium.button.text}
${newQuote.static.text}

Then I verify following buttons are displayed on top right corner of the screen

Save Quote	${saveQuote.button.text}

And I verify the heading of all sections on company page

${company.hrContactDetails.text}
${company.companyDetails.text}
${company.companyAddress.header.text}
${company.authorised.signatory.header}
${company.agentDetails.text}

And I verify following paragraph is displayed on "Primary Contact details section on Company"

${company.hr.primarycontact.info.text}

Then I verify the informational text under "agent details" section on Company page

Email	${company.agentEmailInformation.text}

Then I verify following buttons are displayed on "Company page"

${company.add.signatory.link}

And I verify 1 "${company.add.signatory.link}" buttons are displayed on "Company page"

And I verify following text is not displayed on "Company Page" page

${company.signatory.delete.button}

And I scroll the page up

Then I verify the field label text on company page

HR First Name	${company.hrFirstName.text}

Surname	${company.hrSurname.text}
HR Email	${company.hrEmail.text}
Contact Mobile Number	${company.hrContactMobile.text}
Company Registration Number	${company.registration.num.text}
Telephone Number	${company.hrTelephone.text}
Contact Fax Number	${company.fax.num.text}
Address 1	${company.companyAddress1.text}
Address 2	${company.companyAddress2.text}
Address 3	${company.companyAddress3.text}
Address 4	${company.companyAddress4.text}
City	${company.companyCity.text}
State	${company.companyState.text}
Post Code	${company.companyZipCode.text}
Country	${company.companyCountry.text}
Authorised Signatory Name	${company.companyAuthorisedSignatoryName.text}
Authorised Signatory Title	${company.companyAuthorisedSignatoryTitle.text}
Agent First Name	${company.agentFirstName.text}
Agent Surname	${company.agentSurname.text}
Agent Code	${company.agentCode.text}
Agent Phone Number	${company.agent.phone.text}
Agent Email	${company.agentEmail.text}

Then I verify the presence of following items on page footer

${previous.button.text}

${next.button.text}

And I verify "${previous.button.text}" button is "enabled"

And I verify "${next.button.text}" button is "enabled"

After

Scenario: Validate State data in dropdown

Passed: 1

Before

Then I verify State dropdown values matches with "/testdata/my/state/state.txt" file

Output

State data: [Johor, Kedah, Kelantan, Melaka, Negeri Sembilan, Pahang, Perak, Perlis, Pulau Pinang, Sabah, Sarawak, Selangor,
FileData: [Johor, Kedah, Kelantan, Melaka, Negeri Sembilan, Pahang, Perak, Perlis, Pulau Pinang, Sabah, Sarawak, Selangor, Te

Passed: 5

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

And verify the user is landed on "Submit" page

And I upload the Signed Proposal file "${testdata.path}/filetype/FileType.xlsx"

Then I verify the upload of file "FileType.xlsx" by the uploaded document name

After

Scenario: Verify uploading invalid file format is throwing error on UI

Passed: 18

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

And verify the user is landed on "Submit" page

And I upload the Signed Proposal file "${testdata.path}/filetype/FileType.txt"

And I wait for 6 sec

When I click on Bank Transfer button

And I upload the payment proof file "${testdata.path}/filetype/FileType.txt"

And I wait for 6 sec

And I upload the copy NRIC file "${testdata.path}/filetype/FileType.txt"

And I wait for 6 sec

And I upload the Authorised Signatory file "${testdata.path}/filetype/FileType.txt"

And I wait for 6 sec

And I upload the direct credit file "${testdata.path}/filetype/FileType.txt"

And I wait for 6 sec

And I upload the Form 49 file "${testdata.path}/filetype/FileType.txt"

And I wait for 6 sec

And I upload the Form 24 file "${testdata.path}/filetype/FileType.txt"

Then I verify invalid file type error message "${submit.invalid.file.format.text}" for following field

Proposal Form
Form 24
Form 49
Direct Credit
Authorised Signatory
Copy NRIC
Payment proof

After

Scenario: Verify the upload for Form 8 document

Passed: 13

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

And I assign "General_Information_Sheet.png" to variable "FILE_NAME"

Output

Assigning value General_Information_Sheet.png to variable FILE_NAME

Then verify "${submit.upload.relevant.doc.text}" heading is visible on the screen

Then I verify following text is displayed on "Submit" page

${submit.file.size.text}

Then verify file label is displayed as "${submit.form.8.text}"

Then I verify following static text on "Submit" page

${submit.drop.document.here.text}

Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dr

And I upload the Form 8 file "${testdata.path}/${FILE_NAME}"

Then I verify the upload of file "${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "${FILE_NAME}"

When I click on delete doc button for "${FILE_NAME}" on submit page

Then I click on "${submit.delete.popup.delete.button}" button

After

Scenario: Verify the upload for Form 24 document

Passed: 11

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

And I assign "Articles_Bylaws.png" to variable "FILE_NAME"

Output

Assigning value Articles_Bylaws.png to variable FILE_NAME

Then verify file label is displayed as "${submit.form.24.text}"

Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dr

And I upload the Form 24 file "${testdata.path}/${FILE_NAME}"

Then I verify the upload of file "${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "${FILE_NAME}"

When I click on delete doc button for "${FILE_NAME}" on submit page

Then I click on "${submit.delete.popup.delete.button}" button

Then verify file label is displayed as "${submit.form.24.text}"

After

Scenario: Verify the upload for Form 49 document

Passed: 11

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

And I assign "Latest_Audited_Financial_Statement.png" to variable "FILE_NAME"

Output

Assigning value Latest_Audited_Financial_Statement.png to variable FILE_NAME

Then verify file label is displayed as "${submit.form.49.text}"
Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dr
And I upload the Form 49 file "${testdata.path}/${FILE_NAME}"
Then I verify the upload of file "${FILE_NAME}" by the uploaded document name
And I verify delete button is present for attached document "${FILE_NAME}"
When I click on delete doc button for "${FILE_NAME}" on submit page
Then I click on "${submit.delete.popup.delete.button}" button
Then verify file label is displayed as "${submit.form.49.text}"

After

Scenario: Verify the upload for Direct Credit document

Passed: 11

Before

When I click on Create Quote Link
When I navigate to "Submit" screen
And I assign "Latest_Audited_Financial_Statement.png" to variable "FILE_NAME"

Output

Assigning value Latest_Audited_Financial_Statement.png to variable FILE_NAME

Then verify file label is displayed as "${submit.direct.credit.text}"
Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dr
And I upload the direct credit file "${testdata.path}/${FILE_NAME}"
Then I verify the upload of file "${FILE_NAME}" by the uploaded document name
And I verify delete button is present for attached document "${FILE_NAME}"
When I click on delete doc button for "${FILE_NAME}" on submit page
Then I click on "${submit.delete.popup.delete.button}" button
Then verify file label is displayed as "${submit.direct.credit.text}"

After

Scenario: Verify the upload for Schedule of assurance document

Passed: 11

Before

When I click on Create Quote Link
When I navigate to "Submit" screen
And I assign "Latest_Audited_Financial_Statement.png" to variable "FILE_NAME"

Output

Assigning value Latest_Audited_Financial_Statement.png to variable FILE_NAME

Then verify file label is displayed as "${submit.schedule.assurance.text}"

Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dro

And I upload the schedule assurance file "${testdata.path}/${FILE_NAME}"

Then I verify the upload of file "${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "${FILE_NAME}"

When I click on delete doc button for "${FILE_NAME}" on submit page

Then I click on "${submit.delete.popup.delete.button}" button

Then verify file label is displayed as "${submit.schedule.assurance.text}"

After

Scenario: Verify the upload for GHS schedule of benefits document

Passed: 11

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

And I assign "Latest_Audited_Financial_Statement.png" to variable "FILE_NAME"

Output

Assigning value Latest_Audited_Financial_Statement.png to variable FILE_NAME

Then verify file label is displayed as "${submit.ghs.benefit.text}"

Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dro

And I upload the ghs benefit file "${testdata.path}/${FILE_NAME}"

Then I verify the upload of file "${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "${FILE_NAME}"

When I click on delete doc button for "${FILE_NAME}" on submit page

Then I click on "${submit.delete.popup.delete.button}" button

Then verify file label is displayed as "${submit.ghs.benefit.text}"

After

Scenario: Verify the upload for Authorized Signatory document 1 document

Passed: 13

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

And I assign "General_Information_Sheet.png" to variable "FILE_NAME"

Output

Assigning value General_Information_Sheet.png to variable FILE_NAME

Then verify "${submit.authorized.personal.text}" heading is visible on the screen

Then I verify following text is displayed on "Submit" page

${submit.authorized.signatory}

Then verify file label is displayed as "${submit.authorized.declaration.text}"

Then I verify following static text on "Submit" page

${submit.drop.document.here.text}

Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dro

And I upload the Authorised Signatory file "${testdata.path}/${FILE_NAME}"

Then I verify the upload of file "${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "${FILE_NAME}"

When I click on delete doc button for "${FILE_NAME}" on submit page

Then I click on "${submit.delete.popup.delete.button}" button

After

Scenario: Verify the upload for Copy of Memos document

Passed: 13

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

And I assign "Latest_Audited_Financial_Statement.png" to variable "FILE_NAME"

Output

Assigning value Latest_Audited_Financial_Statement.png to variable FILE_NAME

And I verify following text is displayed on "Submit" page

${submit.memo.max.text}

Then verify file label is displayed as "${submit.memo.text}"

Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dro

And I upload the memos file "${testdata.path}/${FILE_NAME}"

Then I verify the upload of file "${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "${FILE_NAME}"

Then I verify following buttons are displayed on "Submit page"

${submit.upload.another.file.text}

When I click on delete doc button for "${FILE_NAME}" on submit page

Then I click on "${submit.delete.popup.delete.button}" button

Then verify file label is displayed as "${submit.memo.text}"

After

Scenario: Verify the select payment method Bank transfer section

Passed: 12

Before

Then verify "${submit.payment.method.text}" heading is visible on the screen

Then I verify following text is displayed on "Submit" page

${submit.bank.transfer.text}

${submit.cheque.text}

When I click on Bank Transfer button

And I assign "Latest_Audited_Financial_Statement.png" to variable "FILE_NAME"

Output

Assigning value Latest_Audited_Financial_Statement.png to variable FILE_NAME

Then verify file label is displayed as "${submit.upload.payment.proof.text}"

Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dro

And I upload the payment proof file "${testdata.path}/${FILE_NAME}"

Then I verify the upload of file "${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "${FILE_NAME}"

When I click on delete doc button for "${FILE_NAME}" on submit page

Then I click on "${submit.delete.popup.delete.button}" button

Then verify file label is displayed as "${submit.upload.payment.proof.text}"

After

Scenario: Verify the select payment method Bank transfer section

Passed: 12

Before

When I click on Create Quote Link

When I navigate to "Submit" screen

When I click on Cheque button

And I assign "Latest_Audited_Financial_Statement.png" to variable "FILE_NAME"

Output

Assigning value Latest_Audited_Financial_Statement.png to variable FILE_NAME

Then verify file label is displayed as "${submit.upload.payment.proof.text}"

Then I verify the presence of "${submit.upload.file.text}" button below the message "${submit.dro

And I upload the payment proof file "${testdata.path}/${FILE_NAME}"

Then I verify the upload of file "${FILE_NAME}" by the uploaded document name

And I verify delete button is present for attached document "${FILE_NAME}"

When I click on delete doc button for "${FILE_NAME}" on submit page

Then I click on "${submit.delete.popup.delete.button}" button

Then verify file label is displayed as "${submit.upload.payment.proof.text}"

After

Scenario: Add quote for Group term life for all 5 categories

Passed: 6

Before

Given I generate random number and assign to variable "RANDOM_NUMBER"

Output

Random number generated is :807

Then I assign "Dummy_Quote_${RANDOM_NUMBER}" to variable "Company_Name"

Output

Assigning value Dummy_Quote_807010322359 to variable Company_Name

When I click on Create Quote Link

Then I navigate to "Select Plan" screen

Then I enter Company Name as "${Company_Name}"

Output

company name is: Dummy_Quote_807010322359

Then I enter following details on select plan page

No. of Members	10

After

Scenario Outline: Verify Summary of benefit table display data selected in select plan page and gettin

Passed: 9

Before

Then I navigate to "Select Plan" screen

And I click on PAMB GHS "${selectplan.ghs.no.button}" button

When I navigate to "Submit" screen

And verify the user is landed on "Submit" page

Then I assign "Annual_Summary.csv" to variable "FILE_NAME"

Output

Assigning value Annual_Summary.csv to variable FILE_NAME

And I assign "testdata/my/submit_document/summarydata/${FILE_NAME}" to variable "summa

Output

Assigning value testdata/my/submit_document/summarydata/Annual_Summary.csv to variable summary.data.compareFile.path

Then I assign "SummaryTable" to variable "Table_Name"

Output

Assigning value SummaryTable to variable Table_Name

Then I verify details in summary table is matching with "${summary.data.compareFile.path}" file

Output

UI data: {Death Benefit (due to ALL causes)={Benefit per member=RM5,000}, Total and Permanent Disability Benefit (TPD) -
csvData: {Death Benefit (due to ALL causes)={Benefit per member=RM5,000}, Total and Permanent Disability Benefit (TPD)

And I verify following static text on "Summary Table" page

10
RM107.50
RM6.50
Total members
Annual Premium (Before Tax)
Service Tax 6%

After

Scenario Outline: Verify Summary of benefit table display data selected in select plan page and gettin

Passed: 9

Before

Then I navigate to "Select Plan" screen

And I click on PAMB GHS "${selectplan.ghs.yes.button}" button

When I navigate to "Submit" screen

And verify the user is landed on "Submit" page

Then I assign "Annual_WithGHS.csv" to variable "FILE_NAME"

Output

Assigning value Annual_WithGHS.csv to variable FILE_NAME

And I assign "testdata/my/submit_document/summarydata/${FILE_NAME}" to variable "summa

Output

Assigning value testdata/my/submit_document/summarydata/Annual_WithGHS.csv to variable summary.data.compareFile.path

Then I assign "SummaryTable" to variable "Table_Name"

Output

Assigning value SummaryTable to variable Table_Name

Then I verify details in summary table is matching with "${summary.data.compareFile.path}" file

Output

UI data: {Group Hospital and Surgical Benefit (GHS)={Benefit per member=RM20,000}, Death Benefit (due to ALL causes)={
csvData: {Group Hospital and Surgical Benefit (GHS)={Benefit per member=RM20,000}, Death Benefit (due to ALL causes)=

And I verify following static text on "Summary Table" page

10
RM2,667.50
RM160.10
Total members
Annual Premium (Before Tax, GHS Included)
Service Tax 6%

After
