Table of Contents

9. **Verify the Category list and search feature**
10. **Leave the community if already joined**

5. **Verify that user can view air quality details under My Environment screen**
    1. **Verify that user can view previous air quality details under My Environment Home page**
    2. **Verify that user can view Current air quality details under My Environment Home page**
    3. **Verify that user can view air quality details for next few days under My Environment Home page**
    4. **Verify that user can access and view Neighbourhood air quality details under My Environment Home page**
    5. **Verify that user can access and view Fires nearby under My Environment Home page**
    6. **Verify that user can view effects of the poor environment and upcoming activities under My Environment Home page**

6. **Verify the BabyLon call 995 flow on Pulse Health & Wealth app**
    1. **User should be able to login on app with correct credentials and the BabyLon call 995 flow must be verified**

7. **Verify the BabyLon Perianal lump workflow is working as expected**
    1. **User should be able to access Babylon from Pulse app and perform Perianal lump workflow**

8. **Verify the BabyLon Maligant Neoplasm Breast lump workflow is working as expected**
    1. **User should be able to access Babylon from Pulse app and perform Breast lump workflow**

9. **Verify the BabyLon Human Immune Virus workflow is working as expected**
    1. **User should be able to access Babylon from Pulse app and perform Human Immune Virus Rash workflow**

10. **Verify the BabyLon Groin Mass workflow is working as expected**
    1. **User should be able to access Babylon from Pulse app and perform Groin mass workflow**

11. **Verify the BabyLon Prostatic HyperPlasia workflow is working as expected**
    1. **User should be able to access Babylon from Pulse app and perform Prostatic Hyperplasia workflow**
    2. **User should be able to view the chat history in Babylon system checker screen after consultation**

12. **Verify the BabyLon Rib Fracture workflow is working as expected and user can the chat history after consultation**
    1. **User should be able to access Babylon from Pulse app and perform Rib Fracture workflow**

13. **Verify Dietician Negative Flow functionality on one pulse App**
    1. **Verify the Home screen validation using "Continue with Email"**
    2. **Verify User should be able to navigate to Dietician page**
    3. **Verify User should be able to navigate to specialisation page**
    4. **Verify User should be able to navigate to Educational Details page**

14. **Verify Dietician Positive Flow functionality on one pulse App**
    1. **Verify the Home screen validation using "Continue with Email"**
    2. **Verify User should be able to navigate to Dietician page**
    3. **Verify User should be able to navigate to specialisation page**
    4. **Verify User should be able to navigate to Educational Details page**
    5. **Verify User should be able to navigate to Services Offered page**
    6. **Verify User should be able to navigate to Seminar(s) Attended page**
    7. **Verify User should be able to navigate to Take a Picture page**
    8. **Verify User should be able to navigate to schedule Calendar page**

15. **Verify Medicine Reminder Positive Flow functionality on one pulse App**
    1. **Verify the Home screen validation using "Continue with Email"**
    2. **Verify User should be able to navigate to Dietician page**
    3. **Verify User should be able to navigate to Dietician page**

4. **Verify User should be able to navigate to Dietician page**
5. **Verify User should be able to navigate to Dietician page**

16. **Verify that user can locate near by Hospitals,clinics using PruShoppe Location feature**
    1. **User should be able to locate Hospitals using PruShoppe location**
    2. **User should be able to locate cli using PruShoppe location**

17. **Verify MyContent functionality on one pulse App**
    1. **Verify the Home screen validation using "Continue with Email"**
    2. **Verify User should be able to navigate to Health channel page**
    3. **Verify User should be able to Like the post**
    4. **Verify User should be able to Share the post**
    5. **Verify User should be able to Comment the post**
    6. **Verify User should be able to see the Like, Share, Comment options on full page article post**
    7. **Verify User should be able to Like the post- Full page article post**

18. **Verify that user can view his registered policies under My Policies**
    1. **Login to the one pulse app**
    2. **Verify that user can access his policies from Home screen**

19. **Verify legal and legacy on One Pluse App**
    1. **User should be able to login on app with correct credentials using "Continue with Gmail"**
    2. **Verify the Terms and condition should be displayed**
    3. **Verify the Privacy screen should be displayed**
    4. **Verify the Regulator screen should be displayed**

20. **Verify Edit Profile functionality on Pulse Health & Wealth app**
    1. **Verify User should be able to navigate to Edit profile screen and should be able to change the profile on app**
    2. **Verify User should be able to change the profile picture in edit profile screen**
    3. **Verify user can able to change the details in edit profile screen**
    4. **Verify the email and COR fields are non-editable in edit profile screen**
    5. **Verify User should be able to see the registration required pop up if user not completed MyDoc Registration**
    6. **Verify User should not be able to edit Gender and DOB fields on myDoc registration page once the user submitted their gender and DOB edit profile**
    7. **Verify User should be able to update NRIC number & upload NRIC Image in Online Consultation screen**

21. **Verify MySettings functionality in Account screen**
    1. **User should be able to login on app with correct credentials using "Continue with Gmail"**
    2. **Verify the My Feedback screen in Account tab**
    3. **Verify the submit functionality in My feedback screen**
    4. **Verify the Pulse Personalised tab**
    5. **Verify the Marketing Consent in Account tab**

22. **Verify share with friends functionality in onepulse app**
    1. **Launch the app and select the country as per specified lbu**
    2. **login to the app with correct credentials using "Continue with Email"**
    3. **Verify User should be able to share the link with Whatsapp**
    4. **Verify User should be able to share the link with Contacts app**
    5. **Verify User should be able to share the link with Messenger app**
    6. **Verify User should be able to share the link with Viber app**
    7. **Verify User should be able to share the link with Line app**

Detailed Results Report

Feature: Verify login functionality on One pulse App

Passed: 4	Failed: 3	Undefined: 0	Duration: 599.72s

Scenario: Launch the app and select the country as per specified lbu

Passed: 8	Failed: 0	Undefined: 0	Duration: 60.51s

Before		0.30s
Given User has pulse app		25.34s
And I assign "${login.email.id}" to variable "PULSE_EMAIL"		0.00s
And user click on "CONTINUE WITH EMAIL" with Email button		12.87s
Then I change the country as required on registration page		10.62s
Then I wait for 5 sec		5.00s
Then I change the language as required on registration page		0.43s
And I click the Sign in link		4.23s
Then I verify below language options on toggle bar as per specified lbu on login page		1.72s
After		0.00s

Back to Table of Contents

Scenario: login to the app with correct credentials using "Continue with Email"

Passed: 5	Failed: 1	Undefined: 0	Duration: 64.87s

Before		0.00s
Given I select the language option on toggle bar as required on login page		0.36s
When user enters credentials		18.42s

UserName	${PULSE_EMAIL}
Password	${login.password}

And User clicks on signin button		0.28s
And I wait for 5 sec		5.00s
And I enter OTP in one pulse app for user email "${PULSE_EMAIL}"		26.87s
Then user should be landed to "Home" screen		13.92s

java.lang.AssertionError: expected [true] but found [false]
at org.testng.Assert.fail(Assert.java:94)
at org.testng.Assert.failNotEquals(Assert.java:494)

at .Then user should be landed to "Home" screen(features/PulseLoginTest.feature:23)

After		0.00s

Scenario: Verify the Invalid Email id in login screen using "Continue with Email"

Passed: 16	Failed: 0	Undefined: 0	Duration: 75.83s
Before			0.00s

Given User has pulse app		10.67s
Then I wait for 2 sec		2.00s
And user click on "CONTINUE WITH EMAIL" with Email button		12.66s
Then I change the country as required on registration page		10.44s
Then I wait for 5 sec		5.00s
Then I change the language as required on registration page		0.32s
And I click the Sign in link		4.16s
And I select the language option on toggle bar as required on login page		1.72s
When user enters credentials		18.39s
UserName	t@gmai	
Password	Pas$1234	
And I scroll down		3.70s
And User clicks on signin button		0.31s
Then verify invalid email message "Email is required"		0.78s
Then User clicks on Forgot Password button		0.26s
Then enter the email to request the new password		3.68s
Email	t@gmai	
Then User clicks on Send button		0.80s
Then verify invalid email message "${email.invalid.text}"		0.95s
After		0.00s

Scenario: Verify the User not registerd email in login screen using "Continue with Email"

Passed: 17	Failed: 0	Undefined: 0	Duration: 75.01s
Before			0.00s

Given I generate random number and assign to variable "RANDOM_NUMBER"	0.01s
And I assign value to following variables	0.00s

USER_NAME	taf-${RANDOM_NUMBER}@mailinator.com
USER_PASSWORD	Pas$1234

Given User has pulse app	10.40s
And user click on "CONTINUE WITH EMAIL" with Email button	12.71s
Then I change the country as required on registration page	10.38s
Then I wait for 5 sec	5.00s
Then I change the language as required on registration page	0.28s
And I click the Sign in link	4.05s
And I select the language option on toggle bar as required on login page	1.93s
When user enters credentials	18.16s

UserName	${USER_NAME}
Password	${USER_PASSWORD}

And I scroll down	3.71s
And User clicks on signin button	0.32s
Then verify invalid email message "${invalid.credential.message}"	1.32s
Then User clicks on Forgot Password button	0.31s
Then enter the email to request the new password	3.66s

Email	${USER_NAME}

Then User clicks on Send button	0.81s
Then verify invalid email message "${invalid.credential.message}"	1.95s
After	0.00s

Scenario: User should be able to retrieve the reset password using forget password link

Passed: 8	Failed: 0	Undefined: 0	Duration: 48.21s
Before			0.00s

And I assign "${forgot.password.email.id}" to variable "PULSE_EMAIL"	0.00s
Then enter the email to request the new password	3.75s

Email	${PULSE_EMAIL}

Then User clicks on Send button	0.80s
Then I wait for 10 sec	10.00s
And I read the otp for emailid "${PULSE_EMAIL}" using mailsac api and store into a variable "EMAIL_OTP"	25.14s
Then I enter "${EMAIL_OTP}" reset code	1.43s
Then I wait for 7 sec	7.00s
Then Verify message: "${password.reset.success.text}" for Reset Password	0.09s
After	0.00s

Scenario: Verify Account should be locked after entering more than 5 times incorrect passwords

Passed: 17	Failed: 1	Undefined: 0	Duration: 221.93 s

Before		0.00s

Given I generate random number and assign to variable "RANDOM_NUMBER"	0.00s
And I assign "pulse${RANDOM_NUMBER}@mailsac.com" to variable "PULSE_EMAIL"	0.00s
And User has pulse app	18.06s
Then I wait for 2 sec	2.00s
And user click on "CONTINUE WITH EMAIL" with Email button	12.78s
Then I change the country as required on registration page	10.89s
Then I wait for 5 sec	5.00s
Then I change the language as required on registration page	0.39s
When user enters registration details	8.30s

FirstName	testAutomation
LastName	testAutomation
Email	${PULSE_EMAIL}
Password	Pas$1234

And taps on continue "Sign_Up" button	0.51s
Then I enter OTP in one pulse app for user email "${PULSE_EMAIL}"	29.47s
Then I wait for 10 sec	10.00s
Then I click skip button	66.92s
Then user should be landed to "Home" screen	5.59s
And I click the Account icon in Home screen	0.72s
And I click the sign out from pulse app	8.15s
Then I wait for 2 sec	2.00s
Then I enter invalid password on login screen and verify the error message	41.17s

Password	Pulse@123

And User clicks on signin button	0.42s
Then I wait for 10 sec	10.00s
And I enter OTP in one pulse app for user email "${PULSE_EMAIL}"	8.21s
And I navigate to Babylon Symptoms Page	9.15s
Then I enter "Rash " symptoms on Babylon screen And select "Change in appearance of skin colour or texture"	41.66s
Then I click on Ok button after noting the caseid:	0.82s

text	Thanks for taking part in user testing. Please record the following case id

Then I handle questions and answer	370.75s

Does your rash become lighter in colour when you press on it?	Yes
Have you experienced any difficulty breathing?	I don't know##Submit
Do you have any problems with your tongue?	None of the above##Submit
Does any part of your face look swollen?	I don't know
Do you have any of these problems with your eyelid (s)?	I don't know##Submit
Do you have or have you recently had a fever?	Yes
Do you have a cough?	Yes
Is it a dry cough or are you bringing something up?	Dry
Have you been coughing a lot more at night?	No
Do you have a sore throat or any of these problems?	Swollen tonsils##Submit
How long have you had all of your symptoms for?	For months
Have you gained or lost weight recently without trying to?	Lost weight unexpectedly
Does the slightest knock or bump cause you to bruise?	No
Do you have pain in your bones?	No

Do you have a significantly weakened immune system due to an existing condition or from taking medication?	No	
Is there an unusual lump or swelling in the front middle part of your neck?	Yes	
Have either of your parents or any siblings been diagnosed with an overactive thyroid?	Yes	
Have either of your parents, or any siblings, ever been diagnosed with thyroid cancer?	Yes	
Do you have any pain in your abdomen?	No	
Do any of these describe your poos (stools)?	They are loose or watery (diarrhoea), and I'm going more often than usual##Submit	
Have you had diarrhoea more than 6 times in one day?	Yes	
Do you regularly have diarrhoea at night?	No	
Have you noticed your skin or the whites of your eyes going yellow?	No	

Then I verify the closure summary and click on continue button		8.53s
text	Great, we're all done. Please remember, this service is only for general information purposes and isn't a personal or medical diagnosis. If your symptoms persist, change or worsen, or you are concerned seek further advice.	
Then I click on view results to see the possible causes		11.98s
And Verify following possible causes are displayed		0.80s
Overactive thyroid		
Thyrotoxic crisis		
When I select on "Overactive thyroid" cause with offset 100 in report		0.84s
Then I verify following conditions are displayed		3.82s
Overactive thyroid		
This usually requires seeing a GP.		
Why this condition could be the potential cause?		
Some of your answers indicate that this condition could be the cause:		
Family history of hyperthyroidism		
Unintentional weight loss		
Diarrhoea		
Severe diarrhoea		
Rash that becomes lighter when pressed		
Swelling in neck		
And I click on back button to move back to possible causes screen		0.43s
When I select on "Thyrotoxic crisis" cause with offset 500 in report		2.18s
Then I verify following conditions are displayed		4.03s
Thyrotoxic crisis		
This is usually treated at the emergency department.		
Why this condition could be the potential cause?		
Family history of hyperthyroidism		

Unintentional weight loss		
Diarrhoea		
Severe diarrhoea		
Rash that becomes lighter when pressed		
Fever		
Swelling in neck		

And I click on back button to move back to home	13.64s
